Drive up vaccinations are available to those who may have limited mobility or sensory needs at the Public Health Office on Courtney Drive; check with Deschutes County Public Health for details.

If you are supporting individuals while also receiving vaccine as a caregiver, please try to attend the Courtney clinic this week. If you are a caregiver attending without a client, please schedule for a Fairgrounds clinic time. The Courtney Drive site is a more sensory-friendly location, and somewhat more accessible.

If you have any questions, please contact Deschutes County Public Health.
