(Amended 12/27/2018)

(1) Local offices must follow procedural guidelines consistent with Department policies guiding APS response activities. (2) The Department shall establish and maintain agreements and understandings with other key agencies having a role in protecting the interests and rights of individuals who are the subject of these rules, including the Oregon State Police and the Department of Justice.

(3) The Adult Protective Services function consists of a standard series of activities, including screening, triage or consultation, on-site assessment, investigation, intervention, documentation, and APS risk management.

(4) Deviations from these rules may be warranted to protect the safety of any party or as otherwise allowed by policy. The reasons for these deviations must be reviewed with a supervisor or designee and properly documented in the investigative record.

(5) Adults have the right to make informed choices (as defined in 411-020-0002) that do not conform to societal norms as long as those decisions are not harmful to others. This includes the right to refuse participation in APS

(Amended 12/27/2018)

(1) All calls or contacts involving the possibility of abuse or self-neglect must be directed to APS screening.

(2) Screening is the skilled interviewing process used to gather and assess information in order to determine eligibility for Adult Protective Services. This activity includes a determination of whether the reported concern meets the definition of abuse or self-neglect.

(3) All complaints regarding a person receiving services in a Nursing Facility must be referred immediately to the APD Nursing Facility Survey Unit (NFSU) for screening, triage, and Facility investigation. NFSU will refer any concerns regarding external parties (e.g. family members) back to APS for screening and potential investigation under Community APS rules.

(a) Gathering information about the alleged victim's current level of functioning.

(b) Gathering demographic information and the history of the current problem.

(c) Reviewing any agency records related to the reported concern.

(d) Gathering information from collateral sources.

(5) If the reported concern does not meet the definition of abuse or self-neglect, but requires intervention, response shall include referral to other resources, including case management, licensing, APS risk management, or other services as appropriate.

(6) If the reported concern does not meet the definition of abuse or self-neglect or require intervention, but may be addressed by specialized information or assistance, a referral to APS consultation may be appropriate.

(7) If the reported abuse involves an individual who is currently:

(a) Receiving APD case management or eligibility services, the assigned APD worker must be notified.

(b) An adult foster home resident, the local licensor must be notified.

411-020-0090 Assessment

(Amended 12/27/2018)

(1) Assessment is the process by which the APS worker determines the alleged victim's degree of risk, level of functioning, adequacy of information, and ability to protect their own interests. Assessment additionally determines the alleged victim's ability to reduce the risk of harm in their environment and to make informed choices and understand the consequences of those choices. These factors are evaluated in relation to the allegation of abuse or self-neglect.

(2) Assessment in APS cases shall be conducted in person with the alleged victim, usually in the alleged victim's home or the facility where the alleged victim lives.

(3) The assessment may include:

(a) Consultation with family, neighbors, law enforcement, mental health, hospice, in-home services, medical practitioners, domestic violence providers, and other relevant individuals, in keeping with Department confidentiality guidelines.

(b) The use of accepted screening tools as well as the worker's professional judgment to determine the alleged victim's safety and functional abilities.

(4) If there is evidence the alleged victim's cognitive abilities may be impaired, recognized assessment tools may be administered to gauge those abilities. The initial assessment results shall be used as a screening to determine the need for professional diagnostic or clinical evaluation of the alleged victim's capacity to make informed choices, and to determine an appropriate course of action if clinical evaluation is not available.

(5) Upon completion of the initial assessment, APS involvement shall be continued for investigation where there is an alleged perpetrator, or shall proceed directly to intervention where self-neglect is established.

(6) Results of the APS assessment of the alleged victim shall be recorded in the Centralized Abuse Management (CAM) system.

(b) An adult residing in an APD licensed facility setting when the alleged perpetrator is not employed by, volunteers for, or is contracted personnel with the facility.

(c) An adult with Medicaid services who receives services from a regulated provider.

(3) A community self-neglect investigation shall be conducted and documented when an adult eligible for Adult Protective Services is reported to be unable to understand the consequences of their actions or inaction, and that inability leads to, or may lead to, harm or endangerment to themselves. Assessment is a key element of self-neglect investigations.

(4) In completing a community investigation, the APS worker must:

(a) Identify the alleged victim, any alleged perpetrators, and any other parties reported to have information relevant to proving or disproving the allegations.

(b) Conduct interviews with the parties described in section (a) of this section to gather all relevant available evidence. All interviews must be private unless the individual being interviewed requests the presence of someone else. Any individuals listening to the interview must be advised of the confidential nature of the investigation.

Key witnesses should be interviewed in person.

(d) Obtain and review all available documentary or physical evidence relevant to reaching a finding, including any information establishing the severity of the incident under investigation.

(e) The Department may photograph, or cause to have photographed, any alleged victim for the purposes of preserving evidence of the alleged victim's condition observed at the time of the investigation. The photographs shall be considered records and subject to confidentiality rules.

(f) Gather and include evidence relevant to determining the conduct of any alleged perpetrators and the severity of the risk or outcome to the alleged victim.

(g) Create additional investigatory aids, such as maps or drawings that may aid in proving or disproving the allegations.

(h) Maintain a record of interviews and evidentiary review, in notes, recordings, records, photographs, scanned documents, or other appropriate means.

(i) Determine the facts of the case based on a fair and objective review of the available relevant evidence.

(j) Conclude whether the preponderance of the evidence indicates whether abuse or self-neglect is substantiated or unsubstantiated, that the evidence is inconclusive, or that the investigation will be closed administratively without a determination.

(5) Investigations must be documented and closed in the Centralized Abuse Management (CAM) system.

(6) The local office must complete community investigations on or before 120 days from date of screening decision (unless delayed by a concurrent criminal investigation or otherwise by policy) and prepare a final report that includes, but is not limited to, the following information:

(a) The dates, locations, and description of the initial reported abuse.

(b) The date that the investigation was commenced and completed, and by whom.

(c) Characteristics of the alleged victim including identified language, race, and ethnicity.

(d) Relationship of the alleged victim to the reporter, witnesses, and any alleged perpetrators.

(e) A statement of the specific allegations investigated.

(f) The statements of all parties interviewed regarding the allegations.

(g) A description of the documents and records reviewed during the investigation, summarizing their content to the extent necessary to

explain their relevance to the investigation and support the findings of fact.

(h) A summary of any direct observations by the investigator that are relevant to the investigation and its findings.

(i) A statement of the factual basis for any findings and a summary of the findings made as a result of the investigation, including attributions to witness statements, documents, or observations that support each finding of fact.

(j) A conclusion.

(k) A summary of protective services offered to the alleged victim, with outcomes, if known.

(l) A summary of referrals to other agencies or authorities resulting from the investigation, with outcomes, if known.

(m) Reasons for any deviations from required timelines or standard practices.

(7) When a community complaint investigation has been completed, the reporter, the alleged victim, and the alleged perpetrators may be informed (verbally, unless notification in writing is requested) that:

(a) There was an allegation of abuse or self-neglect and the type of abuse or self-neglect being investigated.

(b) Appropriate action is being taken.

(c) The outcome of the investigation as one of the following:

(A) No abuse or self-neglect was found (unsubstantiated).

(B) Abuse or self-neglect was found (substantiated).

(C) The investigation was 'inconclusive'.

(D) The investigation was closed without a determination of whether abuse or self-neglect occurred (Administrative Closure).

(8) When the community investigation is closed, the local office must retain case records for a period of 15 years after last activity. Final community APS records are maintained and distributed by the local office, as appropriate.

(9) The Department must collect statewide data on all aspects of Adult Protective Services as specified by Department policy and procedure. As reasonably requested, the local offices shall provide data not otherwise available through centralized Department data systems.

411-020-0110 Intervention

(Amended 12/27/2018)

(1) Intervention is the process by which APS assists the victim to reduce or remove the threat of harm that has placed the victim at risk.

(2) Intervention may include, but is not limited to:

(a) Arranging for emergency services, such as law enforcement and emergency medical care as needed.

(b) Providing education and counseling to the individual at risk and other parties, as appropriate.

(c) Facilitating the delivery of additional available support services, including legal, medical, and other services, and helping to arrange for possible alternative living arrangements or alternate decision makers, as needed.

(d) Providing advocacy to assure the rights of the alleged victim are protected.

(3) Intervention may happen one or more times during the assessment or investigation process, or as an end result of the assessment or investigation. The initial APS intervention is designed to be a short-term crisis response. Longer term interventions may be made available through APS risk management or through non-APS case management.

(4) An individual who can make an informed choice may refuse assistance or intervention. In this case, the worker shall provide the individual with appropriate resource information and a way to re-contact APS if a threat of harm recurs or reaches a level unacceptable to the individual.

(5) If the individual lacks appropriate information to make an informed choice, the worker must provide or arrange for the provision of relevant information in a manner that is timely, accessible to the individual, and balanced, in order to support the individual's right to make an informed choice.

(6) If the individual at risk is unable to make an informed choice due to a lack of capacity, appropriate intervention, if available, may include medical assessment to determine whether capacity may be improved or restored.

(7) If the individual at risk is unable to consent to assessment or treatment, consideration may be given to involuntary intervention, including, as appropriate, guardianship, conservatorship, protective orders, or civil commitment. In all such cases, the intervention initiated must be:

(a) The least restrictive available;

(b) Respectful of the values of the individual at risk; and

(c) Sought only when it has been determined that there is no surrogate decision maker in place, or that such individual is not acting responsibly in that role.

(5) In conducting facility abuse investigations, the Department protocols governing activities of investigations further include:

(a) Notifying the Department's Office of Safety, Oversight and Quality (SOQ) if a situation exists in a licensed care facility that may cause SOQ to conduct a survey or provide an immediate regulatory response. This includes reports of facility-wide issues.

(b) Providing an opportunity for the reporter, a designee of the reporter, or both, to accompany the investigator to the site of the reported violation for the sole purpose of identifying individuals or objects relevant to the investigation.

(c) Conducting an unannounced site visit to the facility.

- (j) A conclusion.
- (k) A summary of actions taken by the licensee or provider to ensure the safety of the victim and other residents of the facility.
- (l) A summary of protective services offered to the alleged victim, with outcomes, if known.

(m) A summary of referrals to other agencies or authorities resulting from the investigation, with outcomes, if known.

(n) Reasons for any deviations from required timelines or standard practices.

(8) When the preliminary facility investigation is closed, the local office shall distribute a copy of substantiated reports to the facility for their information and safety planning. The local office must retain facility investigation records for a period of 15 years after last activity.

(9) Upon receipt of the preliminary report from the local office, SOQ will review and finalize the report. Final facility reports are maintained and distributed by APD central office. When abuse is substantiated, findings may be used to support civil or criminal sanctions against the perpetrators or the care facility.

411-020-0121 Administrative Closure

(Adopted 12/27/2018)

(1) Administrative closure is a mechanism by which a DHS supervisor or designee may close an assigned investigation without the investigation reaching a conclusion as to if abuse or self-neglect occurred.

(2) Administrative closure is applicable only for specific administrative purposes when it is not feasible to reach an evidentiary conclusion. It is not intended to replace "inconclusive" or "unsubstantiated" findings, which are

evidence-based conclusions. As appropriate, protective services of assessment and intervention must be provided.

(3) To qualify for administrative closure, an investigation must be completed to the extent necessary to determine that one or more of the following situations exist:

(a) The basis for assigning and conducting the investigation is discovered to be invalid, because:

(A) The alleged victim does not meet eligibility criteria under these rules.

(B) Additional information is discovered that clearly indicates the report of abuse or self-neglect does not meet criteria for an abuse investigation.

(C) The alleged perpetrator is deceased or a minor.

(D) The reported abuse or self-neglect would clearly lead to a repeat investigation. To qualify, the situation must be the same abuse type, substantially the same allegations and involve the same alleged victim and perpetrators as a currently open or a previous investigation. A new assessment of the alleged victim must also indicate that there has been no significant change in the alleged victim's capacity or risk level since the previous investigation.

(b) Unable to determine because:

(A) Necessary material evidence exceeds the Department's scope of services and its expertise and authority to reasonably investigate the allegation, including, but not limited to:

(i) Complex legal matters customarily requiring an attorney.

(ii) Court findings.

(iii) Commercial business deals.

(iv) Professional standards and performance.

(v) Medical malpractice.

411-020-0123 Accessing Protected Health Information, including Records

(Amended 12/27/2018)

Protected health information from a health care provider may be obtained during an APS investigation either from a mandatory reporter performing that reporter's duties required by Oregon statute or as follows:

(1) **DISCLOSURE BY HEALTH CARE PROVIDER.** A health care provider may disclose, in accordance with 45 CFR 164.512(j), protected health information to APS to prevent or lessen a serious and imminent threat to the health or safety of a person or the public if the health care provider, in good faith, believes the disclosure is necessary to prevent or lessen the threat. APS may request protected health information during a self-neglect or abuse investigation under this provision to prevent or lessen a serious and imminent threat.

(2) **COMMUNITY ABUSE INVESTIGATION.** During an APS investigation into abuse in a community-based setting where the process under section (1) of this rule does not apply or is declined by the health care provider:

(a) **CONSENT BY ALLEGED VICTIM.** APS may obtain an alleged victim's protected health information for an APS investigation with the alleged victim's consent.

(b) **DECLINED CONSENT.** If an alleged victim can make an informed choice and declines to consent to APS obtaining protected health information, APS may not obtain the alleged victim's protected health information beyond the information a mandatory reporter is required to disclose.

(c) **ALLEGED VICTIM INCAPABLE OF CONSENT.** If an alleged victim is an older adult and does not have the ability to make an informed choice to consent to APS obtaining the alleged victim's protected health information, and the alleged victim does not have a

fiduciary or legal representative that consents to APS accessing the alleged victim's protected health information, or when the fiduciary or legal representative is an alleged perpetrator and refuses to consent to APS accessing the alleged victim's protected health information, then the following procedure must be followed in order for APS to obtain the protected health information:

(A) APS must request that the appropriate law enforcement agency submit a written request to the health care provider to allow the law enforcement agency to inspect and copy, or otherwise obtain, the protected health information.

(B) APS shall inform the law enforcement agency that the written request must state that an investigation into abuse is being conducted under ORS 124.070 (elder abuse) or ORS 441.650 (nursing facility resident abuse).

(3) HEALTH CARE PROVIDER NOTICE. In investigations where APS is seeking disclosure of protected health information by a health care provider under sections (1) or (2) of this rule, APS shall inform the health care provider, either directly or through the law enforcement agency requesting the information, that the health care provider is required, in accordance with 45 CFR 164.512(c)(2), to promptly inform the individual to whom the protected health information pertains that information has been or shall be disclosed, unless:

(a) The health care provider, in the exercise of their professional judgment, believes that informing the individual may place the individual at risk of serious harm; or

(b) The health care provider is planning to inform a personal representative of the individual and the health care provider reasonably believes the personal representative is responsible for the abuse, neglect, or other injury, and informing such person is not in the best interests of the individual as determined by the health care provider in the exercise of their professional judgment.

(4) LICENSED CARE FACILITY INVESTIGATIONS. During an APS investigation into abuse in a licensed care facility:

(a) **OBTAINING RESIDENT RECORDS MAINTAINED BY A LICENSED CARE FACILITY.** Licensed care facilities must provide DHS access to all resident and facility records, including protected health information, maintained by the facility as required by their respective Oregon Administrative Rules.

(b) **DISCLOSURE BY HEALTH CARE PROVIDER.** A health care provider, such as a hospital, a medical office, or a provider other than a licensed care facility, may disclose, in accordance with 45 CFR 164.512(d), an alleged victim's protected health information to APS as a health oversight agency for purposes of oversight of that facility, including oversight through investigation of reports of abuse of residents in such facility. APS shall inform the health care provider of its authority as a health oversight agency and that such disclosures are permitted in accordance with 45 CFR 164.512(d).

(c) **HEALTH CARE PROVIDER REFUSAL TO DISCLOSE.** If a health care provider refuses to disclose protected health information to APS as a health oversight agency, APS may follow the procedure set forth in section (2)(c) of this rule if the alleged victim is an older adult.

Where a financial institution initiates contact with APS or a law enforcement agency regarding suspected financial exploitation, the financial institution may share financial records with APS or the law enforcement agency and is not otherwise precluded from communicating with and disclosing financial records to APS or the law enforcement agency.

(c) CUSTOMER INCAPABLE OF AUTHORIZING. If a financial institution has not initiated contact with APS or a law enforcement agency and the alleged victim does not have the ability to make an informed choice to consent to APS obtaining the alleged victim's financial records, a fiduciary or legal representative who is an alleged perpetrator refuses to authorize disclosure, or the account is jointly held by an alleged perpetrator as well as the alleged victim and the alleged perpetrator refuses to authorize disclosure of the alleged victim's financial records, these procedures must be followed:

- (A) APS shall work with the appropriate law enforcement agency to obtain a subpoena issued by a court or on behalf of a grand jury to request financial records of the alleged victim.

(ii) Provide or work with the law enforcement agency to obtain the name and social security number of the individual about whom financial records are sought.

(C) A financial institution, before making disclosures pursuant to a subpoena described in this section, may require reimbursement to produce records, in accordance with ORS 192.602.
