411-070-0040 Screening, Assessment, and Resident Review
(Amended 12/1/2009)

(1) INTRODUCTION. All individuals who are candidates for admission to a Medicaid-certified nursing facility must be assessed to evaluate their service needs and preferences and must receive information about community-based, alternative services, and resources that can meet the individual's service needs and are safe, least restrictive, and potentially less costly than comparable nursing facility services.

(2) PRE-ADMISSION SCREENING. A pre-admission screening (PAS) as defined in OAR 411-070-0005 is required for potentially Medicaid eligible individuals who are at risk for nursing facility services.

(a) PAS includes:

(A) An assessment;

(B) The determination of an individual's service eligibility for Medicaid-paid long term care or post-hospital extended care services in a nursing facility;

(C) The identification of individuals who can transition to community-based service settings;

(D) The provision of information about community-based services and resources to meet the individual's needs; and

(E) Transition planning assistance as needed.

(b) PAS is conducted in conjunction with the individual and any representative designated by the individual.

(c) The PAS assessment shall be conducted by a case manager or other qualified SPD or AAA representative using SPD's Client Assessment and Planning System (CA/PS) tool, and other standardized assessment tools and forms approved by SPD.

(d) A PAS may be completed based on information obtained by phone or fax only to authorize Title XIX post-hospital benefits in a nursing facility when short-term nursing facility services are needed. A face-to-face assessment including the discussion of alternative community-based services and resources shall be completed within seven days of the initial, short term nursing facility service approval.

(e) Payment for nursing facility services may not be authorized by SPD until PAS has established that nursing facility services are required based on the individual's service needs and Medicaid financial eligibility has been established.

(3) PRIVATE ADMISSION ASSESSMENT. A private admission assessment (PAA) is required for individuals with private funding who are referred to Medicaid-certified nursing facilities established by ORS 410.505 through ORS 410.545 and OAR chapter 411, division 071.

(4) PRE-ADMISSION SCREENING AND RESIDENT REVIEW. A pre-admission screening and resident review (PASRR) as described in OAR 411-070-0043 is required for individuals, regardless of payment source, with either mental illness or developmental disabilities who need nursing facility services.

(5) RESIDENT REVIEW. Title XIX regulations require utilization review and quality assurance reviews of Medicaid residents in nursing facilities. The reviews carried out by the authorized utilization review organization must meet these requirements:

(a) Staff associated with SPD are required to maintain service plans on all SPD residents in nursing facilities. The frequency of their service plan update shall vary depending on such factors as the resident's potential for transition to home or community-based care and federal or state requirements for resident review.

(b) Authorized representatives of SPD or the authorized utilization review organization must have immediate access to SPD residents and to facility records. "Access" to facility records means the right to personally read charts and records to document continuing eligibility for payment, quality of care, or alleged abuse. SPD or the authorized utilization review organization representative must be able to make and remove copies of charts and records from the facility's property as required to carry out the above responsibilities.

(c) SPD or the authorized utilization review organization representatives must have the right to privately interview any SPD residents and any facility staff in carrying out the above responsibilities.

(d) SPD or the authorized utilization review organization representatives must have the right to participate in facility staffings on SPD residents.

411-070-0043 Pre-Admission Screening and Resident Review (PASRR)
(Amended 03/09/2015)

(1) INTRODUCTION. PASRR was mandated by Congress as part of the Omnibus Budget Reconciliation Act of 1987 and is codified in Section 1919(e)(7) of the Social Security Act. Final regulations are contained in 42 CFR, Part 483, subparts C through E. The purpose of PASRR is to prevent the placement of individuals with mental illness or intellectual or developmental disabilities in a nursing facility unless their medical needs clearly indicate that they require the level of service provided by a nursing facility. Categorical determination, as described in section (2) of this rule, are groupings of individuals with mental illness or intellectual or developmental disabilities who may be admitted to a nursing facility without a PASRR Level II evaluation.

(2) CATEGORICAL DETERMINATIONS.

(a) Exempted hospital discharge:

(A) The individual is admitted to the nursing facility directly from a hospital after receiving acute inpatient care at the hospital; or

(B) The individual is admitted to the nursing facility directly from a hospital after receiving care as an observation-status; and

(C) The individual requires nursing facility services for the condition for which he or she received care in the hospital; and

(D) The individual's attending physician has certified before admission to the facility that the individual is likely to require nursing facility services for 30 days or less.

(b) End of life care for terminal illness. The individual is admitted to the nursing facility to receive end of life care and the individual has a life expectancy of six months or less.

(c) Emergency situations with nursing facility admission not to exceed seven days unless authorized by AAA or APD staff.

(A) The individual requires nursing facility level of service; and

(B) The emergency is due to unscheduled absence or illness of the regular caregiver; or

(C) Nursing facility admission is the result of protective services action.

(3) PASRR includes three components.

(a) PASRR LEVEL I. PASRR Level I is a screening process that is conducted prior to nursing facility admission for all individuals applying as new admissions to a Medicaid certified nursing facility regardless of the individual's source of payment. The purpose of the screening is to identify indicators of mental illness or intellectual or developmental disabilities that may require further evaluation {42 CFR 483.128} or if categorical determinations, as described in section (2) of this rule, which verify that the nursing facility service is required.

(A) PASRR Level I screening is performed by AAA or APD authorized staff, private admission assessment (PAA) programs, professional medical staff working directly under the supervision of the attending physician, or by organizations designated by DHS.

(B) Documentation of PASRR Level I screening is completed using a APD-designated form.

(C) If there are no indicators of mental illness or intellectual or developmental disabilities or if the individual belongs to a categorically determined group, the individual may be admitted to a nursing facility subject to all other relevant rules and requirements.

(D) If PASRR Level I screening determines that an individual has indicators of mental illness and no categorical determinations are met, then the individual cannot be admitted to a nursing facility. The Level I assessor must contact AMH and request a PASRR Level II evaluation.

(E) If PASRR Level I screening determines that an individual has indicators of intellectual or developmental disabilities and no categorical determinations are met, then the individual cannot be admitted to a nursing facility. The Level I assessor must contact APD and request a PASRR Level II evaluation.

(F) Except as provided in section (3)(a)(F)(ii) of this rule, nursing facilities must not admit an individual without a completed and signed PASRR Level I screening form in the individual's resident record.

(i) Completion of the PASRR Level I form under sections (3)(a)(A) through (3)(a)(F) of this rule does not constitute prior authorization of payment. Nursing facilities must still obtain prior authorization from the local AAA or APD office as required in OAR 411-070-0035.

(ii) A nursing facility may admit an individual without a completed and signed PASRR Level I form in the resident

record provided the facility has received verbal confirmation from the Level I assessor that the screening has been completed and a copy of the PASRR Level I form will be sent to the facility as soon as is reasonably possible.

(iii) The original or a copy of the PASRR Level I form must be retained as a permanent part of the resident's clinical record and must accompany the individual if he or she transfers to another nursing facility.

(b) PASRR LEVEL II. PASRR Level II is an evaluation and determination of whether nursing facility service and specialized services are needed for an individual who has been identified through the PASRR Level I screening process with indicators of mental illness or intellectual or developmental disabilities who does not meet categorical determination criteria (42 CFR 483.128).

(A) Individual's identified with indicators of mental illness or intellectual or developmental disabilities as a result of PASRR Level I screening are referred for PASRR Level II evaluation and determination.

(B) PASRR Level II evaluations and determinations are conducted by AMH for individuals with mental illness or by APD for individuals with intellectual or developmental disabilities.

(C) PASRR Level II evaluations result in a determination of an individual's need for nursing facility services and specialized services (42 CFR 483.128-136) consistent with federal regulations established by the Social Security Act, Section 1919(e)(7)(C).

(D) Pursuant to 42 CFR 483.130(I), the written determination must include the following findings:

- (i) Whether a nursing facility level of services is needed;
- (ii) Whether specialized services are needed;

(iii) The placement options that are available to the individual consistent with these determinations; and

(iv) The rights of the individual to appeal the determination.

(E) The PASRR Level II evaluation report must be sent to the individual or their legal representative, the individuals attending physician, and the admitting or retaining nursing facility. In the case of an individual being discharged from the hospital, the discharging hospital must receive a copy of the PASRR evaluation report as well {42 CFR 483.128 (I)(1)-(3)}.

(F) Denials of nursing facility service are subject to appeal {OAR 137-003, OAR 461-025 & 42 CFR Subpart E}.

(c) RESIDENT REVIEW. Resident reviews are conducted by AMH for individuals with indicators of mental illness or APD for individuals with intellectual or developmental disabilities who are residents of nursing facilities. Based on the findings of the resident review, a PASRR Level II may be requested. {42 CFR 483.114}.

(A) All residents of a Medicaid certified nursing facility may be referred for resident review when symptoms of mental illness develop.

(i) Resident review for individuals with indicators of mental illness that require further evaluation must be referred to the local Community Mental Health Program who shall determine eligibility for PASRR Level II evaluations.

(ii) The resident review form, part A, must be completed by the nursing facility. The resident review must be performed in conjunction with the comprehensive assessment specified by the AMH, in accordance with OAR 411-086-0060.

(B) All individuals identified as having intellectual or developmental disabilities through the PASRR Level I screening process that are admitted to a nursing facility must

receive a resident review. A resident review must be conducted within seven days if the nursing facility admission is due to an emergency situation {OAR 411-070-0043(2)(c)(A)-(C)}, within 20 days if the nursing facility admission is due to other categorical determinations {OAR 411-070-0043(2)(a)-(b)}, and annually, or as dictated by changes in resident's needs or desires.

(i) The resident review must be completed by APD or designee.

(ii) The resident review must be completed using forms designated by APD.

(4) SPECIALIZED SERVICES.

(a) Specialized services for individuals with mental illness are not provided in nursing facilities. Individuals with mental illness who are determined to need specialized services as a result of PASRR Level II evaluation and determination must be referred to another setting.

(b) Specialized services for individuals with intellectual or developmental disabilities under age 21 are equal to school services and must be based on the Individualized Education Plan.

(c) Specialized services for individuals with intellectual or developmental disabilities over age 21 are not provided in nursing facilities. Individuals with intellectual or developmental disabilities over age 21 that are determined to need specialized services as a result of PASRR Level II evaluation and determination must be referred to another setting.

(5) RESPITE CARE. Respite care in nursing facilities for individuals with mental illness, intellectual, or developmental disabilities is approved under the following conditions:

(a) For individuals with mental illness, a nursing facility admission for respite care must be authorized by AMH and for individuals with intellectual or developmental disabilities, a nursing facility admission for respite care must be authorized by APD Central Office;

(b) Nursing facility respite stay must be limited to no more than a total of 56 respite days within a calendar year although APD may grant exceptions to this limit at its discretion;

(c) Nursing facility level of service must be required to meet a severe medical condition that excludes care needs due to mental illness or intellectual or developmental disabilities; and

(d) There must not be a viable community care setting available that is appropriate to meet the individual's respite care needs as determined by section (5)(a) of this rule.

411-070-0045 Facility Payments

(Amended 3/1/2008)

(1) PRIOR AUTHORIZATION. The Department may reimburse a nursing facility for services provided to a Department resident only if prior authorized after the Department has participated in development of the placement plan and is satisfied that the placement is justified and most suitable for the person according to the Department care plan. The Department may not reimburse a nursing facility for services rendered prior to the date of referral to the Department. A nursing facility must verify that the local SPD/Type B AAA where the facility is located is involved in the placement.

(2) The facility must confirm an individual's financial eligibility for Medicaid payment of any nursing facility service with the local office. Medicaid eligibility is based on the requirements outlined in OAR chapter 461. The facility is responsible for collecting resident liability from the resident or their responsible party.

(3) PAYMENT TO PROVIDER. Provider payments will be made following the month of service. For billing, the Department will mail Form SDS 483, Invoice and Payment Authorization, to each facility.

(4) RESIDENT'S INCOME. A resident's income, exclusive of the authorized allowance for personal incidental needs and other prior authorized special needs, will be offset as a credit against the established Department rate paid to that facility.

(5) REDUCED PAYMENT FOR ABUSE.

(a) If abuse of a resident, according to the provisions of ORS 441.630 to ORS 441.685, is substantiated by the Department, the Department may reduce the payment for the resident(s) for the month the abuse occurred, and until such time as the Department determines the conditions leading to the abuse have been corrected.

(A) The facility will receive payment for services provided for the resident as determined by the Department. This determination will be based on the absence of appropriate services that resulted in the substantiated abuse of a resident.

(B) The reduced payment may not be considered a reduction in benefits for the resident.

(b) The Department will notify the facility by certified mail at least 15 days prior to taking action to reduce payment.

(A) The notice will include the basis of the Department decision, the effective date of the reduced payment, the amount of the reduced payment, and will advise the facility of their right to request review by the Assistant Director if such request is made in writing within 30 days of the receipt of the notice.

(B) If a request for review is made, the Assistant Director will include the basis of the Department decision, the effective date of the reduced review and all material relating to the allegation of resident abuse and to the reduction in payment. The Assistant Director will include the basis of the Department decision, the effective date of the reduced determination, based upon review of the material, whether or not to sustain the decision to reduce payments to the facility and will notify the facility of the decision within 20 days of receiving the request for review.

(C) If the Assistant Director determines not to sustain the decision to reduce payments, the reduction will be lifted immediately. Otherwise, the reduction in payment will remain in effect until the Department determines the conditions leading to the abuse have been corrected.

(D) If the decision to reduce payment is sustained, the payment reduction will not be recovered in the year end settlement.

If a Medicaid resident qualifies for payment at the basic rate and if the resident's condition or service needs are determined to meet one or more of the procedures, routines, or services listed in this rule, and the nursing facility maintains documentation per OAR 411-070-0027, APD may pay a complex medical add-on payment (in addition to the basic rate) for the additional licensed nursing services needed to meet the resident's increased needs.

The facility must maintain a weekly wound assessment and a weekly nursing note. A healing Stage III or IV pressure ulcer that has the visual appearance of a Stage II pressure ulcer cannot be considered eligible for purposes of complex medical criteria.

The pressure ulcer is eligible for add-on until the last day the ulcer is visibly a Stage III pressure ulcer. For complex medical add-on, facilities must stage the ulcer as it is visualized in appearance in accordance to the below definitions for determining if a resident's needs meet or continue to meet complex medical add-on criteria.

(i) Pressure ulcer means any skin ulcer caused by pressure resulting in damage of underlying tissues. Other terms used to indicate this condition include decubitus ulcers.

(ii) Stage II means a partial thickness loss of skin layers that presents clinically as an abrasion, blister, or shallow crater.

The stasis ulcer is eligible for add-on until the last day the ulcer is visually equivalent to a Stage III, or if the stasis ulcer is an infected, chronic Stage III or IV, it is eligible for add-on until it is no longer infected and returns to previous chronic Stage III or IV state. For complex medical add-on, facilities must stage the ulcer as it is visualized in appearance in accordance to the below definitions for determining if a resident's needs meet or continue to meet complex medical add-on criteria.

(i) Stasis ulcer means a skin ulcer, usually in the lower extremities, caused by altered blood flow from chronic vascular insufficiency, also referred to as venous insufficiency, lymphedema, arterial insufficiency, or peripheral vascular disease.

(ii) Stage II means a partial thickness loss of skin layers that presents clinically as an abrasion, blister, or shallow crater.

(iii) Stage III means a full thickness of skin is lost, exposing the subcutaneous tissues. Presents as a deep crater with or without undermining adjacent tissue.

(iv) Stage IV means a full thickness of skin and subcutaneous tissue is lost, exposing muscle or bone.

(v) A healing Stage III or IV stasis ulcer that has the visual appearance of a Stage II stasis ulcer cannot be

considered eligible for purposes of complex medical criteria.

(iii) Is having insulin dosage adjustments.

(B) The facility must maintain a daily nursing note. A Medication Administration Record is required when sliding scale insulin or other medication related to the IDDM has been administered. While all three criteria do not need to be present on a daily basis, the resident must be considered unstable. A resident with erratic blood sugars, without a need for further interventions, does not meet this criteria.

(e) Other.

(A) O-1 -- Professional Teaching. Short term, daily teaching pursuant to discharge or a self-care plan. The facility must maintain a teaching plan and a weekly nursing note.

(B) O-2 -- Emergent medical or surgical problems, requiring short term licensed nursing observation and assessment. Eligibility for the add-on will be until the resident no longer requires additional licensed nursing observation and

assessment for this medical or surgical problem. The facility must maintain a nursing note every shift.

(C) O-3 -- Emergent Behavior Problems -- Emergent behavior is a sudden, generally unexpected change or escalation in behavior of a resident that poses a serious threat to the safety of self or others and requires immediate intervention, consultation, and a care plan. Eligibility for the add-on will be until the resident no longer requires additional licensed nursing observation and assessment for this medical problem. The facility must maintain a nursing note every shift.

(f) Effective September 1, 2012, the Department shall no longer provide the complex medical add-on for Provider Preventable Conditions (PPC).

(A) The facility must not charge the resident for holding, disbursing, safeguarding, accounting for, or purchasing from resident funds. Charges for these services are included in the Nursing Facility Financial Statement, Form SPD 35 or 35A and are considered allowable costs reimbursable through the bundled rate.

(c) The resident wishing to change delegation must do so by completing a new Form SDS 0542 that must be available at the facility.

(d) SPD cannot be delegated to account for the resident's funds.

(4) RESIDENT ADMISSION.

Each receipt or disbursement of funds must be posted to the resident's account. Posting from supporting documentation must be done within seven days after the transaction date.

(b) The resident account record must show, in detail with supporting documentation, all monies received on behalf of the resident and the disposition of all funds so received. Persons shopping for residents must provide a list showing description and price of items purchased, along with payment receipts for these items.

(b) Facility staff delegated to manage resident funds must follow guidelines outlined in this rule and other state and federal laws and regulations that may apply in order to assure that decisions not made by the resident are made in his or her best interest.

(c) The resident, family or friends has the right to be free from solicitation from the facility to purchase items that are included in the facilities daily rate.

(d) The resident must not be charged for any item included in the facility's daily rate unless the facility can show at least one of the following:

(g) The facility must not charge resident funds for any item or service that benefits the facility, facility staff or relatives or friends of facility staff, unless it can show that the resident made an informed decision to purchase the item or service.

(h) When the facility or SPD is of the opinion that a resident is incapable of managing personal funds and the resident has no representative, the facility must refer the resident to the case manager in the local SPD/Type B AAA, who will consult with the resident regarding resident preference. If the attending physician agrees, as documented on the Form SDS 544, Physician's Statement of Resident's Capacity to Manage Funds, that the resident is incapable of handling funds, the case manager will attempt to find a suitable delegate to manage the resident's funds. If no delegate can be found, the facility must assume the responsibility. If the resident disagrees with the designation of a delegate, the designation cannot be made, and the resident retains the right to manage, delegate, and direct use of his own money, if not adjudicated incompetent.

(a) The facility must provide each resident or delegate reasonable access to his or her own financial records and funds. Reasonable access is defined as seven business days for records and one business day for funds.

(b) The facility must provide a written statement, at least quarterly, to each resident, delegate, or a person chosen by the resident to receive the statement. (a) A critical access hospital (CAH) not located within a 30 mile geographic radius of a licensed nursing facility as of March 13, 2007 may receive Medicaid payment for up to 20 residents at one time. The CAH must maintain at least five beds or twice the average acute care daily census, whichever is greater, for exclusive acute care use.

(b) Other hospitals receiving payment for Medicaid services under this rule may not receive Medicaid payment for more than a total of five residents at one time. In addition, the residents must have a documented need for and receive services that meet the complex medical add-on requirements outlined in OAR 411-070-0091.

(c) If circumstances change so that a CAH receiving payment for Medicaid services pursuant to section (2)(b) of this rule meets the criteria set out in section (2)(a) of this rule after March 13, 2007, the CAH may petition SPD for authorization to receive such payment pursuant to section (2)(a) of this rule. SPD shall evaluate all available long-term care resources within a 30 mile geographic radius of the CAH and the amount of unmet long-term care need in the same area and determine if the CAH shall be authorized to receive payment pursuant to section (2)(a) of this rule.

(3) SERVICES PROVIDED. The daily Medicaid rate shall be for the services outlined in OAR 411-070-0085 (Bundled Rate).

(4) COMPLIANCE WITH MEDICAID REQUIREMENTS. Hospitals receiving Medicaid payment for swing-bed services must comply with federal and SPD rules and statutes that affect long-term care facilities as outlined in the facility's provider agreement with SPD.

(5) ADMISSION OF INDIVIDUALS. Prior to determination of Medicaid payment eligibility in the swing bed, the case manager must determine there is no nursing facility bed available to the individual within a 30 mile geographic radius of the hospital. For the purpose of this rule, "available bed" means a bed in a nursing facility that is available to the individual at the time the placement decision is made.

Nursing Facilities/Medicaid – Reimbursement

411-070-0300 Filing of Financial Statement *(Amended 4/1/2014)*

(1) The provider must file annually with the Department, Financial Audit Unit, the Nursing Facility Financial Statement (NFFS) covering actual costs based on the facility's fiscal reporting period for the period ending June 30. A NFFS must be filed for other than a year only when necessitated by termination of a provider agreement with the Department, or by a change in ownership, or when directed by the Department. Financial reports containing up to 15 months of financial data are accepted for the reasons above or with the Department's permission prior to filing.

(2) A NFFS is due on or before October 31 or within three months of a change of ownership or withdrawal from the program.

(a) A NFFS must be postmarked on or before the due date to be considered timely. An extension may not be obtained.

(b) A penalty is assessed and collected when a NFFS is not postmarked within the due date. The amount of the penalty is \$5 per licensed nursing facility bed per day for each State of Oregon business day the NFFS is late. The total penalty may not exceed \$50,000 per fiscal reporting period. For purposes of this section, the number of licensed nursing facility beds is the number of beds licensed on the last day of the fiscal reporting period that the facility failed to submit a NFFS.

(c) The Department may assess interim penalties and deduct the amount of the interim penalties from the next Medicaid payment payable to the facility. Each interim penalty is the amount of the penalty that has accrued under subsection (2)(b) of this section to the date of assessment, and has not already been assessed as an interim penalty.

(d) A facility may request an informal conference or contested case hearing pursuant to ORS 183.413 through 183.470 within 30 days of receiving a letter from the Department informing the facility of assessment of an interim penalty or a penalty under this rule. OAR 411-070-0435 applies to such requests and sets forth the procedures

to be followed. If no request for an informal conference or contested case hearing is made within 30 days of receiving such a letter, the interim penalty or penalty becomes final in all respects, including liability for payment of and the amount of the interim penalty or penalty.

(3) An improperly completed or incomplete NFFS is returned to the facility for proper completion.

(4) FORMS.

(a) Form SPD 35 is a uniform cost report to be used by all nursing facility providers, except those that are hospital based.

(b) Form SPD 35A is a uniform cost report to be used by all nursing facility providers that are hospital based.

(c) Forms SPD 35 and SPD 35A must be completed in accordance with the Medicaid Nursing Facility Services Provider Guide and Audit Manual.

(5) If a provider knowingly or with reason to know files a NFFS containing false information, such action constitutes cause for termination of its agreement with the Department. Providers filing false reports may be referred for prosecution under applicable statutes.

(6) Each required NFFS must be signed by a company or corporate officer or a person designated by the corporate officers to sign. If a NFFS is prepared by someone other than an employee of the provider, the individual preparing the NFFS must also sign and indicate his or her status with the provider.

(7) Facilities with fewer than 1000 Medicaid resident days during a twelve-month reporting period or fewer than 2.74 Medicaid resident days per calendar day, for facilities with reporting periods of less than a year, are not required to submit a SPD 35 or SPD 35A but must submit a letter to the Department indicating the nursing facility is not submitting a NFFS. This letter is due the same day a NFFS would have been due.

(8) A NFFS must be filed annually by each facility for the fiscal reporting period that ends June 30. The NFFS filed for the period that ends June 30 is required to cover actual costs during the previous state fiscal year from July 1 through June 30.

(2) Financial Statements must be filed using the accrual method of accounting except governmental facilities using the cash method of accounting may file reports using the cash method.

(3) The provider must maintain, for a period of not less than three years following the date of submission of the Nursing Facility Financial Statement, financial and statistical records that are accurate and in sufficient detail to substantiate the cost data reported. (4) Expenses reported as allowable costs must be adequately documented in the financial records of the provider or they will be disallowed.

(5) The Department will maintain each required Nursing Facility Financial Statement submitted by a provider for three years following the date of submission of the report. (Amended 2/1/2006)

(1) All Nursing Facility Financial Statements are subject to desk review and analysis within six months after proper completion and filing.

(c) Whether further auditing of the provider's financial and statistical records is needed.

(3) All filed Nursing Facility Financial Statements are subject to a field audit, normally to be completed within one year from the date of filing.

(4) The field audit will, at a minimum, be sufficiently comprehensive to verify that in all material respects:

(a) Generally accepted accounting principles and the provisions of these rules have been adhered to; and

(b) Reported data are in agreement with supporting records; and

411-070-0315 Maximum Allowable Compensation of Administrator and Assistant Administrator

(Amended 2/1/2006)

(1) The maximum compensation of a full-time (40 hours per week) licensed administrator to a nursing facility may be allowable at the lower of compensation actually received or the maximum allowable administrator compensation amount determined annually using the calculation in section (4) of this rule.

(2) The maximum compensation of not more than one full-time (40 hours per week) assistant administrator to a nursing facility with at least 80 licensed beds may be allowable at the lower of compensation actually received or seventy-five percent of the allowable administrator compensation for the number of licensed beds in the nursing facility. The Department will not allow the cost of an assistant administrator in a facility with less than 80 beds.

(3) If either of the above individuals works less than 40 hours in the average week, allowable compensation must be the lower of actual compensation received or the maximum allowable administrator compensation determined annually based on the calculation in section (4) of this rule, multiplied by the percentage of 40 hours worked in the average week. The provider must maintain adequate records to demonstrate time actually spent.

(4) The maximum allowable administrator compensation may be adjusted each year and will be effective as of January 1 each year. The rates must be established using the gross allowable compensation in Account 411 (Administrator Compensation) of the Nursing Facility Financial Statement for non-owner administrators. The applicable compensation amounts will be inflated by the U.S. CPI from the mid point of each facility's fiscal year to July 1. The 75th percentile of each bed-size category, 1-49, 50-79, 80-99, 100 and over, will be the ceiling for each grouping.

(5) When a single individual serves as the administrator of both a nursing facility and a hospital, the salary will be pro-rated to both functions. The nursing facility portion will then be compared to the pro-rated share of the allowable administrator compensation to determine the amount to be included as allowable.

411-070-0330 Owner Compensation

(Amended 2/1/2006)

- (1) Reasonable compensation for services performed by owners (whether sole proprietors, partners, or stockholders) is an allowable cost, provided the services are actually performed, documented, and are necessary, and the provisions of this rule are met.
- (2) The allowance of compensation for services of sole proprietors and partners is the amount determined by the Department to be the reasonable value of the services rendered as long as compensation was paid in conformance with this rule.
- (3) Compensation for services performed by owners may be included in allowable provider cost only to the extent that it represents reasonable remuneration for managerial, administrative, professional, and other services related to the operation of the facility and rendered in connection with resident care. Services rendered in connection with resident care include both direct and indirect activities in the provision and supervision of resident care, such as administration, management, and overall supervision of the institution. Services which are not related to either direct or indirect resident care; e.g., those primarily for the purpose of managing or improving the owner's financial investment are not recognized as an allowable cost. Costs related to the owner's management and overall supervision of the facility will be reported in Account 436.
- (4) Payments to an owner that represent a return on equity capital are not allowable costs for reimbursement purposes. Such payments are not considered as compensation for purposes of determining the reasonable level of reimbursement of the owner.
- (5) The compensation allowance will be an amount as would ordinarily be paid for comparable services in other nursing facilities, as defined by section (6) of this rule. This determination will be made by the Department depending upon the facts and circumstances of each case.
- (6) For purposes of determining whether the compensation paid to or claimed by an owner is reasonable, the total of all benefits and remuneration such as travel allowance or key-man insurance, regardless of

the form, will be considered. The Department has established the 75th percentile ranking of average compensation paid, in all facilities by job category, as being reasonable.

(7) Accrued compensation of an owner, if not paid within 75 days after the end of the Nursing Facility Financial Statement reporting period, may not be included as an allowable expense.

(8) An owner must not be compensated for services in excess of 40 hours in one week. This rule applies even if an owner may provide services in more than one area.

(9) The requirement that the function be necessary means that had the owner not rendered the services, the institution would have had to employ another person to perform them. The services must be pertinent to the operation and sound conduct of the institution.

(10) Compensation paid to an employee who is an immediate relative of the owner of the facility is also reviewable under the test of reasonableness. For this purpose, the following persons are considered "immediate relatives": Husband and wife; natural parent, child and sibling; adopted child and adoptive parent; stepparent, stepchild, stepbrother and stepsister; father-in-law, mother-in-law, son-in-law, daughter-in-law, brother-in-law, and sister-in-law; and grandparent and grandchild, uncle, aunt, nephew, niece, and cousin.

(11) Where an owner provides services for more than one facility or is engaged in other occupations or business activities, allowable compensation may be adjusted to reflect an appropriate allocation of time spent in each area based on the combined total of resident days.

(12) Where an owner functions as an administrator or assistant administrator, the rules governing compensation of these positions apply, in addition to the requirements of this rule.

411-070-0335 Related Party Transactions
(Amended 2/1/2006)

(1) Costs applicable to services and supplies furnished to a provider by organizations related to the provider by common ownership or control are allowable at the lower of cost excluding profits and markups to the related party or charge to the facility. Such costs are allowable to the extent that they relate to resident care, are reasonable, ordinary, and necessary, and are not in excess of those costs incurred by a prudent cost-conscious buyer. Documentation of costs to related parties (including those identified in OAR 411-070-0330(10)) must be made available at time of audit. If documentation is not available, such payments to or for the benefit of the related organization will be non-allowable costs.

(2) An exception is provided to the general rule in section (1) of this rule applicable to related organizations. The exception applies if the provider demonstrates by convincing evidence to the satisfaction of the Department:

(a) That the supplying organization is a separate legal entity; and

(b) That a substantial part of the supplying organization's business activity, of the type carried on with the provider, is transacted with other organizations not related to the provider and the supplier by common ownership or control and there is an open, competitive market. Prices paid by the provider may not be in excess of what would be paid by a prudent cost conscious buyer.

(3) If the provider takes the position that an exception as stated in section (2) of this rule applies, then the provider must:

(a) Make available the books and records of the related organization to SPD auditors; and

(b) Maintain a receiving report signed by personnel of the nursing facility for services or supplies furnished by the related organization.

(4) Rental expense paid to related organizations for facilities may be allowable to the extent the rental does not exceed the related organization's costs of owning (e.g., depreciation, interest on a mortgage) or leasing the assets, computed in accordance with the provisions of these rules. The exception listed in section (2) of this rule does not apply to rental expense paid for facilities.

411-070-0340 Chain Operations
(Amended 2/1/2006)

(1) A chain organization consists of a group of two or more health care facilities that are owned, leased, or through any other device controlled by one business entity. This includes not only proprietary chains but also chains operated by various religious and other charitable organizations.

(2) Although the home office of a chain is normally not a provider in itself, it may furnish to the individual provider central administration or other service such as centralized accounting, purchasing, personnel, or management services. Only the home office's actual cost of providing such services is includable in the provider's allowable costs under the program.

(3) Home office costs that are not otherwise allowable costs when incurred directly by the provider are not allowable as home office costs to be allocated to providers. Where the home office is a mere holding company and provides no services related to resident care, no costs of the home office are allowable to the providers in the chain or single facility.

(4) Where an owner receives compensation from the home office for services to the facility, the compensation is allowable only to the extent that it is related to resident care and to the extent that it is reasonable as defined under owner's compensation.

411-070-0345 Allocation of Home Office and Regional Office Costs
(Amended 2/1/2006)

(1) The initial step in the allocation of home office and regional office costs is direct allocation of all allowable costs directly attributable to a particular nursing facility (such as construction interest, salary where the administrator of a nursing facility in the chain is paid directly by the home office, etc.) or non-nursing facility activity.

(2) Other allowable costs must appropriately be allocated among the providers (and to any non-provider activities in which the home office or regional office may be engaged) on the basis of beds, resident days, or other bases, whichever most equitably allocates such costs. Revenues are not generally appropriate for distributing these costs. Where possible, allocation of costs are to be based on function and, consequently, the bases of allocation may appropriately be different, say for accounting costs and for personnel costs. Where the home office or regional office incurs costs for activities not related to resident care in the chain's participating providers, the allocation basis must provide for all allocation of costs such as rent, administrative salaries, other general overhead costs, organization costs, etc., that are attributable to non-resident care as well as resident care activities.

411-070-0350 Management Fees
(Amended 12/1/2009)

Management fees are an allowable expense if they are necessary, reasonable, non-duplicative of facility personnel and functions, and documented by a binding contract with a non-related party defining the items, services, and activities provided. If the administrator or assistant administrator is supplied as part of the contract, the rules governing their compensation in these rules apply. Documentation demonstrating that the services were actually performed is required. Management fees paid to a related organization are subject to the rules governing related parties (OAR 411-070-0335), chain operations (OAR 411-070-0340), and allocation of home office costs (OAR 411-070-0345). The allowable salary paid to the administrator and assistant administrator is included in the total facility management fee calculation. Total management fees for allowable management and supervisory services may not exceed the limits established for the administrator and the assistant administrator in OAR 411-070-0315 plus \$5,000 allowable for other management fees per year.

(Amended 2/1/2006)

(a) New Facility -- The depreciation basis of a new facility must be the historical cost of building the facility, including preparation for use, or the purchase price from an unrelated organization not to exceed the fair market value, including preparation for use, less salvage value;

(b) Ongoing Facility -- The depreciation basis of the purchase of an ongoing facility from an unrelated organization is limited to the lower of the following:

(A) The allowable acquisition cost of such asset to the first owner of record on or after July 18, 1984; or

In the case of a trade-in, the historical cost will consist of the sum of the book value of the trade-in plus the cash paid. In a case where the asset is purchased from a related organization, the depreciation basis must not exceed the asset's book value to the related organization as determined under the provisions of this guide.

(3) The depreciation basis of donated assets, defined as an asset acquired without making any payment for it in the form of cash, property, or services, must be the lesser of:

(7) Amounts deposited in a funded depreciation account and the earnings on deposits are not included in equity capital. Interest earned on these funds is not offset against interest expense.

(8) Land, buildings, and other assets acquired in anticipation of expansion are not includable in equity capital. Construction-in-process and liabilities related to such construction are not includable in equity capital.

(9) Prepaid premiums on life insurance carried by a provider on officers and key employees, where the provider is designated as the beneficiary, are not included when computing equity capital.

(10) The costs of noncompetitive agreements are not includable in equity capital.

411-070-0430 Allocation Methods

(Amended 2/1/2019)

(1) The provider must use the allocation methods designated on the NFFS:
COST -- ALLOCATION METHOD:

- (a) Property -- Resident Days or Square Footage.
- (b) Administrative and General -- Resident Days.
- (c) Other Operating Support -- Resident Days.
- (d) Food -- Resident Days.
- (e) Direct Care Compensation -- Actual Cost or Resident Days.
- (f) Direct Care Supplies -- Actual Cost or Resident Days.
- (g) Ventilator Assisted Program Expense -- Actual Cost or Resident Days.

(2) Where costs are related to non-nursing facility activities, the provider must use an appropriate allocation method to reasonably and accurately allocate these costs (see OAR 411-070-0415). For residential care facility individuals, the facility must use resident days for all areas except direct care compensation and direct care supplies and property. The direct care compensation and direct care supplies allocation must be actual costs incurred. The property allocation method may be based on either resident days or on square footage and must be designated on the NFFS.

(3) Square footage must be used to allocate property costs to pediatric units as defined in OAR 411-070-0452.

(4) Actual payroll for the pediatric unit must be used as the basis for allocating direct care compensation to pediatric units.

(5) If APD determines that for a provider it is more reasonable and accurate to use a different allocation method than specified in sections (1) and (2) of this rule, then such allocation method must be used.

(3) As an alternative to section (2) of this rule, the provider may request a contested case hearing pursuant to ORS 183.413-183.470 by notifying the Department in writing that a contested case hearing is requested within 30 days of receipt of the letter from the Department that informs the provider of the change(s). The request for the contested case hearing must be postmarked within the 30-day limit and must state, specifically, the reason(s) for requesting the hearing. If a provider is not satisfied with the results from the contested case hearing, the provider may petition for judicial review pursuant to ORS 183.480 - 183.497.

(4) If no request for an informal conference or contested case hearing is made within the specified time period, the most recent decision from the Department will automatically become a final order.

(5) A provider may request documentation supporting the change(s) from the Department; however, a request for documentation does not toll the time period within which an informal conference or contested case must be requested. The Department will produce these work papers within 30 days of receipt for a written request.

The Program is designed to reimburse quality nursing facilities that voluntarily reduce bed capacity that increases occupancy levels and enhances efficiency with the goal of slowing the growth of system-wide costs. The Department may provide additional compensation to nursing facilities who qualify for the legislatively approved Program. Such compensation may not exceed \$9.75 per resident day and may not exceed four years from the date of eligibility. Eligibility to participate in this Program sunsets on June 30, 2016.

(b) If the Department approves the preliminary discussion, the Department shall notify the providers who requested approval and shall schedule a meeting at which a Department representative shall be made available to supervise the discussion. Providers in the affected market may attend the meeting and may discuss capacity reduction for that market under the supervision of the Department.

(C) Bed capacity in the community shall be reduced as a result of the transaction; and

(D) The transaction does not compromise care or health status of residents.

(c) The Department may approve the acquisition plan, disapprove the acquisition plan, or request further information or changes in the acquisition plan. The Department shall approve the transaction upon finding that the acquisition plan is expected to satisfy conditions (A) through (D) in subsection (b) of this section. If the Department approves or disapproves the transaction, the Department shall issue an order approving or disapproving the transaction and explaining how conditions (A) through (D) in subsection (b) of this section are satisfied or not satisfied.

(d) The purchasing operator may receive incentives under the Program only if the Department approves the transaction and the purchasing and selling operators complete the transaction as described in the acquisition plan. Upon meeting the qualifying conditions, eligibility for the incentives will be effective on the date the operator submitted the acquisition plan to the Department. The purchasing operator and selling operator are entitled to state action antitrust immunity for the transaction only if the Department approves the transaction.

411-070-0442 Calculation of the Basic Rate, Complex Medical Rate, Bariatric Rate and Ventilator Assisted Program Rate
(Amended 08/26/2022)

(1) The rates are determined annually and referred to as the Rebasing Year.

(a) The basic rate is based on the statements received by the Department by October 31 for the fiscal reporting period ending on June 30 of the previous year. For example, for the year beginning July 1, 2018, statements for the period ending June 30, 2017 are used. The Department desk reviews or field audits these statements and determines the allowable costs for each nursing facility. The costs include both direct and indirect costs. The costs and days relating to pediatric beds and Ventilator Assisted Program beds are excluded from this calculation. The Department only uses financial reports of facilities that have been in operation for at least 180 days and are in operation as of June 30.

(b) For each facility, its allowable costs, less the costs of its self-contained pediatric unit (if any), or the Ventilator Assisted Program Unit, are inflated by the DRI Index, or its successor index. The DRI table as published in the fourth quarter of the year immediately preceding the beginning of the payment year will be used. Costs will be inflated to reflect projected changes in the DRI Index from the mid-point of the fiscal reporting period to the mid-point of the payment year (e.g., for the July 1, 2018 rebase, the midpoint of the fiscal reporting period is December 31, 2016 and the mid-point of the payment year is December 31, 2018).

(c) For each facility, its allowable costs per Medicaid day is determined using the allowable costs as inflated and resident days, excluding pediatric and ventilator days as reported in the statement.

(d) The facilities are ranked from highest to lowest by the facility's allowable costs, per Medicaid day.

(e) The basic rate is determined by ranking the allowable costs per Medicaid day by facility and identifying the allowable cost per day at the applicable percentage. The applicable percentage for the period beginning July 1, 2018 is at the 62nd percentile.

411-070-0452 Pediatric Nursing Facilities

(Amended 08/26/2022)

(1) PEDIATRIC NURSING FACILITY.

(a) A pediatric nursing facility is a licensed nursing facility at least 50 percent of whose residents entered the facility before the age of 14 and all of whose residents are under the age of 21.

(b) A nursing facility that meets the criteria of subsection (1)(a) of this section is reimbursed as follows:

(A) The pediatric rate is a prospective rate and is not subject to settlement. The Department uses financial reports of facilities that have been in operation for at least 180 days and are in operation as of June 30.

(B) The facility specific pediatric cost per resident day is inflated as described in OAR 411-070-0442(1)(b). The Oregon Medicaid pediatric days are multiplied by the inflated facility specific cost per resident day for each pediatric facility. The totals are summed and divided by total Oregon Medicaid days to establish the weighted average cost per pediatric resident day. The rebase relationship percentage of 93 percent is

applied to the weighted average cost to determine the pediatric rate.

(c) Due to the COVID-19 pandemic, a temporary 10% increase to the pediatric rate has been authorized for nursing facilities for services provided April 1, 2020 thru June 30, 2020.

(d) Due to the extraordinary expenses incurred as a result of the COVID-19 pandemic, a 5% increase to the pediatric rate has been authorized for nursing facilities for services provided January 1, 2021 thru June 30, 2023.

(e) Even though pediatric facilities are reimbursed in accordance with subsection (1)(b) of this section, pediatric facilities must comply with all requirements relating to the timely submission of Nursing Facility Financial Statements.

(2) LICENSED NURSING FACILITY WITH A SELF-CONTAINED PEDIATRIC UNIT.

(a) A nursing facility with a self-contained pediatric unit is a licensed nursing facility that provides services for pediatric residents (individuals under the age of 21) in a separate and distinct unit within or attached to the facility with staffing costs separate and distinct from the rest of the nursing facility. All space within the pediatric unit must be used primarily for purposes related to the services of pediatric residents and alternate uses may not interfere with the primary use.

(b) A nursing facility that meets the criteria of subsection (2)(a) of this section is reimbursed for pediatric residents served in the pediatric unit as described in section (1) of this rule.

(c) Licensed nursing facilities with a self-contained pediatric unit must comply with all requirements relating to the timely submission of Nursing Facility Financial Statements and must file a separate attachment, on forms prescribed by the Department, related to the costs of the self-contained pediatric unit.

411-070-0470 Nursing Assistant Training and Competency Evaluation Programs Request for Reimbursement
(Amended 04/01/2016)

(1) The Omnibus Budget Reconciliation Act (OBRA) of 1987 and 1990 requires that any nursing assistant employed in a nursing facility completes a competency evaluation program. Medicaid reimburses a Medicaid certified nursing facility for the Medicaid share of the allowable cost directly related to meeting the nursing assistant training and competency evaluation requirement.

(2) A facility must notify, in writing, the nursing assistants upon hire that the nursing assistant may receive reimbursement up to 12 months after completing a Nursing Assistant Training and Competency Evaluation Program (NATCEP) training program. Failure to notify or failure to reimburse an eligible nursing assistant, shall result in an assessment for imposition of sanctions.

(3) The nursing facility must reimburse newly employed Certified Nursing Assistants who have personally paid for NATCEP costs. The facility is not required to reimburse the nursing assistant in cases where the expenses were paid by an employer or education training program or reimbursed by a previous employer.

(4) REQUEST FOR REIMBURSEMENT. Medicaid certified nursing facilities must file a NATCEP request for reimbursement with the Department that meets the following standards:

(a) As of January 1, 2013, all requests for reimbursement must be submitted electronically. A facility must submit a request for reimbursement within 12 months after completing a NATCEP training program or reimbursing a nursing assistant as described in section (3) of this rule. The request for reimbursement must identify all costs incurred and related revenues (not including NATCEP payments from the Department) received during the reporting period.

(b) A request for reimbursement must:

(A) Be submitted electronically on a system provided by the Department.

(B) Include actual costs incurred and paid by the facility. The Department may not reimburse a facility prospectively.

(C) Include all revenue (not including NATCEP payments from the Department) received by the facility for conducting the approved nursing assistant training. All revenue must be used to offset the costs incurred and paid in the reporting period.

(D) The facility must maintain and have available for review the appropriate documentation, as described in section (8) of this

rule, to support each specific area identified for payment by the Department. Failure to provide required documentation, when requested, shall result in an overpayment to the facility. The facility must repay any overpayment to the Department within 60 days of receipt of notification.

(E) Include all appropriate NATCEP costs and revenues only. NATCEP costs, including costs disallowed, must not be reimbursed as part of the facility's bundled rate. However, NATCEP costs, revenues, and reimbursement must be included on the facility's annual Nursing Facility Financial Statement (NFFS).

(F) Include only true and accurate information. If a facility knowingly, or with reason to know, files a request for reimbursement containing false information, such action must constitute cause for termination of the facility's provider agreement with the Department. Providers filing false requests for reimbursements may be referred for prosecution under applicable statutes.

(5) CHARGING OF FEES PROHIBITED. The nursing facility must not charge a trainee any fee for participation in NATCEP or for any textbooks or other materials required for NATCEP if the trainee is employed by or has an offer of employment from a nursing facility on the date on which the NATCEP begins.

(6) FEES PAID BY EMPLOYER.

(a) All charges and materials required for NATCEP and fees for nursing assistant certification must be paid by the nursing facility if it offered employment at the facility on the date training began.

(b) If a nursing assistant who is not employed by a Medicaid certified facility or does not have an offer of employment by a Medicaid nursing facility on the date on which the NATCEP began becomes employed by, or receives an offer for employment from a nursing facility within 12 months after completing a NATCEP, the employing facility must reimburse the nursing assistant within the first three months of employment. Reimbursement must include any NATCEP

fees for tuition, enrollment and textbook costs, testing fees, or other required course materials up to the amount determined by the Department that was paid by the nursing assistant. Evidence the nursing assistant paid for training must include receipt of payment and the graduation certificate from the school.

(c) Such reimbursement must be calculated on a pro rata basis. The reimbursement must be determined by dividing the cost paid by the nursing assistant by 12 and multiplying by the number of months during this 12-month period that the nursing assistant worked for the facility. The facility must claim the appropriate pro rata amount on each request for reimbursement it submits not to exceed the lesser of 12 months or the total number of months the nursing assistant was employed at that facility. The facility must maintain evidence provided by the nursing assistant of the training costs incurred at an approved training facility.

(d) A facility shall reimburse a nursing assistant before submitting a request for reimbursement from the Department.

(7) FACILITY REIMBURSEMENT BY THE DEPARTMENT. The Department shall reimburse the facility for the Medicaid portion of the costs described in this section unless limited by the application of section (4) of this rule. This portion is calculated by multiplying the eligible costs paid by the facility by the percentage of resident days that are attributable to Medicaid residents during the reporting period. The Department's payment to the facility for the NATCEP cost is in addition to payments based upon the facility's bundled rate.

(a) EMPLOYEE COMPENSATION. Reimbursement for trainer hours must not exceed one and a one-third times the number of hours required for certification. A facility may claim reimbursement for the portion of an employee's compensation attributable to nursing assistant training if:

(A) The employee meets the qualifications of 42 CFR 483.152 and OAR chapter 851, division 061;

(B) The employee directly conducts training or testing in an approved program;

(C) The employee's compensation, including benefits, is commensurate with other licensed nurse compensation paid by the facility;

(D) The employee's total compensated hours do not exceed 40 in any week during which NATCEP reimbursement is claimed;

(E) No portion of the claimed reimbursement is for providing direct care services while assisting in the training of nursing assistants if providing direct care services is within the normal duties of the employee; and

(F) The facility provides the Department with satisfactory documentation to support the methodology for allocating costs between facility operation and NATCEP.

(b) TRAINING SPACE AND UTILITIES. Costs associated with space and utilities are eligible only if the space and utilities are devoted 100 percent to the NATCEP. The facility must provide documentation satisfactory to the Department to support the need for, and use of, the space and utilities.

(c) TEXTBOOKS AND COURSE MATERIALS. A portion of the cost of textbooks and materials is eligible if textbooks and materials are used primarily for NATCEP. The portion reimbursable is equal to the percentage of use attributable to NATCEP. "Primarily" means more than 50 percent. The facility must provide satisfactory documentation supporting the NATCEP need for and percentage of use of textbooks and materials.

(d) EQUIPMENT. A portion of the cost of equipment is eligible if used primarily for NATCEP. However, equipment purchased for \$500 or more per item, must be prior approved by the Department to qualify for reimbursement. The portion reimbursable is equal to the percentage of use attributable to NATCEP. "Primarily" means more than 50 percent. The facility must maintain satisfactory documentation supporting the NATCEP need for and percentage of use of the equipment. Disposition of equipment and software

purchased in whole or in part under the Title XIX Medicaid Program must meet the requirements of the facility's provider agreement.

(e) CERTIFICATION FEES. Nursing assistant certification and recertification fees paid to the Oregon State Board of Nursing for facility employees are eligible.

(f) REIMBURSEMENT FOR NURSING ASSISTANTS. Reimbursement provided to nursing assistants pursuant to section (6) of this rule are eligible. The training must have occurred at an approved training center, including nursing facilities in Oregon or other states. If a facility chooses to reimburse the nursing assistant's full amount in one request, the facility may not recoup payment from a nursing assistant if the nursing assistant's employment ends, regardless of cause.

(g) CONTRACT TRAINERS. Payment for nursing assistant training classes provided under contract by persons who meet the qualifications of 42 CFR 483.152 are eligible for reimbursement. For this purpose, either the facility or the contractor must be approved for NATCEP. Allowable contract trainer payments shall be limited to the lesser of actual cost or the salary calculation described in section (7)(a) of this rule.

(h) INELIGIBLE COSTS - TRAINEE WAGES. Wages paid to nursing assistants in training are not eligible for NATCEP reimbursement, but may be claimed as part of the daily reimbursement costs.

(i) REIMBURSEMENT FOR COMBINED CLASSES. If two or more Medicaid certified facilities cooperate to conduct nursing assistant training, the Department shall not reimburse any participating facility for the combined training class until all participating facilities have filed a request for reimbursement. For a combined class, the Department shall apportion reimbursement to participating facilities pro rata based on the number of students enrolled at the completion of the first 30 hours of classroom training or in any other equitable manner agreed to by the participating facilities. However, when cooperating facilities file separate NATCEP requests for reimbursements, nothing in this section authorizes the Department to

deny or limit reimbursement to a facility based on a failure to file or a delay in filing by a cooperating facility.

(8) RECORDKEEPING, AUDIT, SANCTIONS, REPORTING, AND APPEAL.

(a) The facility must maintain supportive documentation for a period of not less than three years following the date of submission of the NATCEP request for reimbursement. This documentation must include records in sufficient detail to substantiate the request for reimbursement. If there are unresolved audit questions at the end of the three-year period, the records must be maintained until the questions are resolved. The records must be maintained in a condition that can be audited.

(b) Each facility must submit a quarterly NATCEP report to the Department using the Department's approved method and format. The report must provide an accurate monthly account of nursing assistant new hires, which includes date of hire, date of completion of an approved Nursing Assistant Level 1 training program, and the date of reimbursement.

(A) The facility must submit the report to the Department no later than the end of the month immediately following the end of each calendar quarter. (Example: For the calendar quarter ending March 31, the report must be received no later than April 30.)

(B) Upon the Department's request, the facility must provide documentation to support the quarterly report including payroll records.

(c) All requests for reimbursements are subject to audit at the discretion of the Department. The facility shall be notified in writing of the amount to be reimbursed and of any adjustments to the request for reimbursement. Payment of any amounts due to the Department must be made within 60 days of the date of notification to the facility.

(d) Sanctions and remedies may be provided pursuant to OAR Chapter 411, Division 89. One or more remedies may be imposed by

the Department when a facility fails to comply with state regulations. The remedy(s) issued by the Department may be based upon findings of noncompliance with one or more requirements of participation.

(e) A facility is entitled to an informal conference and contested case hearing pursuant to ORS 183.413 through 183.470, as described in OAR 411-070-0435, to protest the reimbursement amount or the adjustment. If no written request for an informal conference or contested case hearing is made within 30 days, the decision becomes final.
