

### **Mission Statement:**

*“The purpose of the Lifers’ Unlimited Club is to unite the incarcerated men of OSP with a goal of improving the quality of life for those inside and outside of these walls. Through the leadership of the club we will work together through charity programs, informational services, youth speaking panels and other positive programs. We cannot change the past, however, we believe through rehabilitation and pro-social behavior we can create a more productive future.”*

The Lifers’ Unlimited Club was founded in 1968 with a stated common goal of: “giving and helping our fellow man in our communities and within the walls at OSP especially to those who can’t help themselves.” Today, the club operates under a structured, 5-person Executive Body consisting of a President, Vice President, Secretary, Treasurer and Facilitator. Elections occur every 2-years. Monthly meetings are held with outside supporters and include activities such as: discussions with students and professors from local colleges regarding prison life and potential ways to reduce recidivism, motivational speeches from noted authors, charity fundraisers, an annual backpack and school supply drive for children who visit their loved ones here at OSP and an annual Banquet in which members of the club can share a meal with their loved one. Currently the club is working with OSP administration to create a safe and fun place for children to play in the outside area of visiting as our shared vision highlights the importance of family connections.
