“Rape should never be part
of the punishment.”

Purpose

The Prison Rape Elimination Act (PREA) requires each facility to collect and review data “...in order to assess and improve the effectiveness of its sexual abuse prevention, detection, and response policies, practices, and training (Standard 115.88 a).”

This overview is intended to:

- Identify problem areas and corrective action taken on an ongoing basis for each facility and the agency as a whole;
- Compare the current year’s data and corrective actions with those from prior years; and
- Assess the agency’s progress in addressing sexual abuse.

This report provides information for calendar years 2017, 2018, 2019, 2020, 2021, and 2022.

Background

PREA was signed into federal law in September 2003, following unanimous support from both parties in Congress. The Oregon Department of Corrections (DOC) was an early adopter of the standards developed under PREA. Since its passage, DOC has been aggressive in implementing its PREA strategies.

The purpose of the act was to “provide for the analysis of the incidence and effects of prison rape in federal, state, and local institutions and to provide information, resources, recommendations, and funding to protect individuals from prison rape (Prison Rape Elimination Act, 2003).” PREA seeks to establish a zero-tolerance policy regarding rape and sexual abuse in federal, state, county, and city correctional systems including prisons, jails, police lockups, and other confinement facilities for adults and juveniles. PREA also mandated the publication of standards to ensure compliance and to improve prevention, detection, and response strategies in addressing sexual abuse and assault.

The final rules/standards were published in the federal register on June 20, 2012, and became effective on August 20, 2012. Standards require annual audits of one-third of the facilities under the agency’s jurisdiction, along with Governor Certification of statewide compliance in all facilities under the operational control of the state’s executive branch, including private facilities operated on behalf of the executive branch to house offenders. A failure to comply with standards will result in a loss of five percent of identified federal grant funding.

Agency Achievement/Corrective Actions in 2022

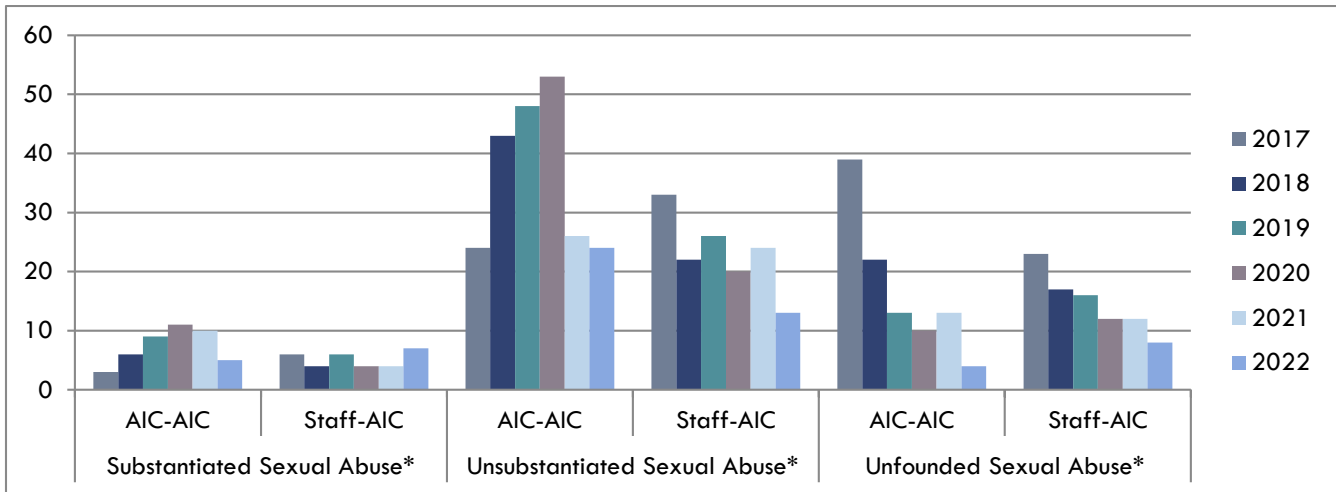

The Oregon Department of Corrections (DOC) has a zero-tolerance policy for sexual harassment, sexual abuse, and retaliation for reporting an incident. The PREA standards require that a third of DOC's facilities are audited every audit cycle year, meaning every facility is audited once every three years. Furthermore, the Governor must certify the level of compliance with every agency under their direct control. Additional details regarding the requirements of PREA, or the Governor's certification can be located at [Prison Rape Elimination Act \(PREA\) | Overview | Bureau of Justice Assistance \(ojp.gov\)](#). Oregon DOC PREA audits reports and other important information such as how to report a PREA incident can be located at [Department of Corrections : Prison Rape Elimination Act : Prison Rape Elimination Act : State of Oregon](#).

The following progress was made in 2022 to reduce sexual abuse, increase sexual safety, and meet federal PREA standards:

- Updated the PREA Policy (40.1.13) to further clarify PREA processes as required by the PREA standards
- Received four national PREA audits (SFFC, OSP, WCCF, and SCI) and prepared each facility prior to the onsite audit
- Provided four PREA audits in other states as part of the circular auditing agreement with the Western States Consortium
- Provided PREA online training to all employees
- Provided training to new PREA Compliance Managers and Sexual Abuse Liaisons
- Provided training to new Sexual Abuse Response Team (SART) members
- Created a form to track the annual staffing plan review as required by PREA standard 115.13
- Applied for and received two national PREA related grants, accomplishing the following in 2022:
 - Collaborated with the University of Oregon to create a new PREA video for AICs
 - Distributed new PREA advocacy posters
- Recommended the Governor's office provide an assurance of the agencies under the state's executive control (Oregon Youth Authority and DOC) commitment to comply with PREA standards
