PERMANENT
SEALING STUD

DON'T FAIL TO FOLLOW THESE DIRECTIONS FOR OPERATING

TO UNLOCK the book, raise cover to be unlocked to a vertical position, and pull rod out as far as it will come.

TO LOCK—Close the cover and push in locking rod.

Do not attempt to unlock either cover unless opposite cover is locked, as posts should always be held in one of the covers.

TO LOCK BOOK PERMANENTLY—This is only to be done when all the sheets are written up and placed in the binder, for once permanently locked, it is impossible to unlock or open it.

For this purpose two permanent locking buttons are furnished. Insert these sealing buttons into the round holes near end of locking case and drive in button with sufficient force to turn the ends of split button. This permanently locks and seals the book.

If desired, the end of locking lever can be broken off where scored with a pair of pliers.
