## Sutton Creek Mining Co. Operating Claims

The Sutton Creek Mining corporation of which George P. Simonis is manager, is the name which a gold property on Sutton creek about nine miles from Baker is to be operated.

Mr. Simonis purchased the property about two years ago from the late C. L. Palmer and has been working it since. During the summer he has been mining the rich free gold ore with the purpose of shipping it to the smelter. It is understood he expects soon to make the first shipment of a 50-ton car.
