YELLOW BOY MINING CO.

BAKER DISTRICT:

On Salmon Creek and 10 miles ^{west} from shipping point, Baker, on the Union Pacific and Old Oregon Trail. Consists of 9 patented claims, located in a high mountain area. Vein strata bearing northwest and southeast; width 2 feet, length 3000 feet. Mineral is gold, assays at \$8. Water is plentiful; timber on claims; power from gas engine. Equipped with a small mill and good camp. Developed by two adits. The upper several hundred feet including a 50-foot incline shaft; the lower one is 450 feet. Country rock is greenstone. One of the owners is A. N. Muegge, Baker, Oregon.
(Prescott--6/1/37).

YELLOW BOY MINING CO. (Gold)

Baker District

"The Yellow Boy Mining Co. controls 9 claims, three of which are patented, just south of the

Nelson placer in sec. 8, T. 9 S., R. 39 E. The president of the company is N. A. Muegge, and the secretary is F. C. McColloch, both of Baker. The property is developed by two adits—the older, upper one several hundred feet long, including a 50-foot incline, and the lower one about 450 feet long. The country rock is greenstone, belonging to the Elkhorn Ridge argillite. At the face the upper adit cuts a dike, probably one of the granophyre dikes so common in the region. A few quartz stringers show in the adits."
