MOON ANCHOR MINES COMPANY

(Gold-Silver)

Cable Cove District

"Local Name: Moon Anchor.

"Office: 324 Henry Bldg., Portland, Oregon, Mike Zenger, 681 First St., Portland, Pres.; Anthony Mohr, 324 Henry Bldg., Portland, Sec.; Frank Degonda, 232 Front St., Portland, Treas. Capital stock, \$100,000; par value \$1; stock subscribed, issued and paid up, \$62,235.

"This company is developing a vein of the Cable Cove type, just north of the watershed which separates Silver Creek from Bull Creek, a tributary of the north fork of the John Day River. This property of 3 claims was not visited, but press reports late in August, 1916, state that the cross-cut which has been driven a few hundred feet to cut the ledge at considerable depth has finally reached the vein and drifting upon it has developed a shoot of ore 120 feet long and 1 to 2 feet wide of supposedly high-grade ore." Inactive in 1938.
