EQUIPMENT ON PROPERTY

Submarine Gold Mining (Open) Corner Civil District  
Owners: Idaho corporation; George Neider Pres, Leo  
Adams, Sec-Treas, Boise Idaho.

Location: Runs from state of Idaho for 18 miles of Snake  
River through Townships 10, 11 and 12 and from state of Oregon  
for — miles.

The dredge is constructed of 22 sectional pontoons  
with a central opening through which a <sup>30-ton diving</sup>  
bell can be lowered by hoist operated with Diesel-  
electric power plant. Compressed air pumped into  
the bell lowered to bedrock forces the water out  
and ~~workmen in the bell dig around boulders~~  
down the material and operate the <sup>suction</sup> dredging pump  
which elevates the gravel to the deck where  
it is washed.

(Note: We should have reports from  
Allen as to whether it has operated  
or not)
