

Baker, Oregon

August 18, 1926

Mr. D. W. C. Nelson

Mgr. Daddy Lode Copper Co.

Baker, Oregon

Dear Sir:

Below follows my report on your property as situated in Baker County.

This examination was as I understood it for the purpose of determining the character and structure of the mineral occurrence, rather than for the purpose of evaluating the property by sampling. The work, accordingly, was of a purely geological character and no mine sampling was undertaken.

Last summer I visited the property for a few hours, and from my knowledge of the district gained a fairly good idea of the general conditions. This report is based upon approximately four days spent upon the ground, from the 14 to the 17 of August inclusive.

Yours very truly,

D. C. Livingston
