

PINE CREEK

4-15W32B. Pattison of Tulsa, Oklahoma, has returned to Baker, Oregon, to resume placer operations after a winter shutdown. The property, located at the mouth of Pine Creek near Hereford, includes the **George Elliott** ground, which the **Humphreys Gold Corporation** tested in 1936, and the **Yellow Metals** property adjoining. A power shovel and washing plant are used. Water for washing gravel is pumped from the Burnt River.

The Mining Journal, April 15, 1938

W. B. Pattison of Tulsa, Oklahoma, has returned to Baker, Oregon, to resume placer operations after a winter shutdown. The property, located at the mouth of Pine Creek near Hereford, includes the **George Elliott** ground, which the Humphreys Gold Corporation tested in 1936, and the **Yellow Metals** property adjoining. A power shovel and washing plant are used. Water for washing gravel is pumped from the Burnt River.
