Mr. Norman S. Wagner
State Assay Laboratory
Baker, Oregon

Dear Wag:

I have checked over the records for the two samples FB-182 and 183 (P-4262 and 63). The only record of work done on these samples is their identification as bentonite. The party who sent in the samples, Frank Armstrong, was so notified.

In your Mud Springs Claim report, there is a notation that the report was being revised but there is no report of any lab work.

Sincerely yours,

A handwritten signature in cursive script that reads "L. L. Hoagland".

L. L. Hoagland
Assayer-chemist
