Dear Mr. Hall:

Enclosed is copy of the report upon the John Wyant placers which you requested.

In looking through the files we find there are five placers so far reported upon in southern Oregon and fifteen other than the Wyant placer reported upon in eastern Oregon. We suggest that you call at this office at your convenience to look over these reports to see which ones interest you. Any in which you express interest we will be glad to copy for you and get such additional information as is obtainable.
