

May 19, 1947

Mr. T. O. Toon
Box 751
Port Orford, Oregon

Dear Ted:

This will acknowledge receipt of your letter of May 16 concerned with Mr. Boals' interest in Coos Bay coal.

I will do my best to get analyses of the samples which you are having sent to us. I do not know how promptly I can get them out for, as you know, we cannot do them in our laboratory. If I can, I shall have them done by Yancey. Failing that, I will get Charlton to do it. At least I think Charlton can do it. I shall also write Mr. Boals and send him a copy of our bulletin as you suggest.

Sincerely,

Director

FWL: jr

5/20/47 Mr. Boals called at office
& discussed whole matter

May 16 - 47

Dear Jay,-

I stopped in Eugene yesterday and saw Mr Boals Genl Mgr of the Eugene Water Board. They are very much concerned re their power problems and fear Bonneville not getting money funds. So they are still interested in our coal mine - He asked the boys at the mine to send up to you ^{two} samples of our coal to have analyzed for Mr Boals.

One sample is one finer and
Buckwheat size and the other
one stoker - Please send Mr
Boals the results of the tests -
Send me copy - I'd suggest if
you will, please, drop Mr Boals
a line and tell him of your
1944-45 report also what you
can to tell him about the coal
and the operation - He is talking
with Warren Smith who does not
know any of the detail you have
It may mean the saving of the
mine Best regards Ted
