REQUEST FOR INSPECTION OF PROPERTY

by

State Department of Geology and Mineral Industries.

402 East I Street
Grants Pass

329 S. W. Oak Street
Portland

2102 Court Street
Baker

Please fill in this form as completely as possible so that the field man will be able to arrange his schedule and get in touch with you easily. Send this form to the office nearest your property. The field man will get in touch with you when he is able to visit your property.

Visit requested by: _____ Date

Name: Mrs. Agnes R. Sengstacken . . . Mail Address: Marshfield, Oregon. . .

Name of Property: The Alders. Ranch property - coal & black sand
Quartz? . . . Placer? . . . Other? deposits/

Location: 8 mi. from Marshfield, 26. Township 26. Range 13 14. County Coos.

Directions for getting to property: Better see me concerning that.

Can field man drive to property? Yes. - How far is it from all year road? No. all-
in good weather. About 1 hour drive.

How far is it from place car must be left? miles. Good trail?
Can drive right in now year round road

During what months is property inaccessible? (Cross out those months when the prop-
erty cannot be reached):

- | | | |
|----------|--------|-----------|
| January | May | September |
| February | June | October |
| March | July | November |
| April | August | December |

Who can accompany the field man to the property? Probably man on ranch.

How and where will field man get in touch with guide? Get in touch with me.

How long will the trip and visit take? hours days.

Shall the field man bring his own food? No.

Further information: . . . should know a week or so in advance before arrival
of man so as to arrange with my ranch man about being at home & mac-
companioning field man over ranch.

For office records only:

Date request received:

Date tentatively set for visit: April 30, 1940

Date property visited: Not Visited - see report.

Mrs. Agnes R. Sengstacken, O'Connell Apts. # 1., Marshfield, Oregon.

Request for inspection of BLACK SANDS and RADIUM.

Mrs. Sengstacken owns land in secs. 18, 19, 20, 29, 30, T. 26 S., R. 13 W., and secs. 24, 25, T. 26 S., R. 14 W. near the ocean, a total of 1871 acres. The attached sheets show the location of her property, and the portions on which she thinks she has black sand of value.

None of the ~~sand~~ sand deposits are opened. A number of years ago, a man did some drilling on some of the land, and took a quantity of samples. She will write to him to see if some clues can be gotten as to the quality of the sand. There was little I could do or offer for this inspection. I felt that I was not justified in going out to do pick and shovel work to open these deposits, at the present time, particularly as I have been advised by Mr. Deemy that the Governor is going to make a special appropriation for a blank sand survey. So I am turning this information over to the Portland office, so that this "survey" will have the information when they begin work.

She was unable to accompany me to the property. It is in the "Seven Devils" area, and the Seven Devils road is the one the local residents name when they want to give someone the horrors. Further, it has been raining with great gusto, and knowing the inability of the state jalopy to pull the hat off one's head, I decided that discretion was the better part of the investigation.

Mrs. Sengstacken is also bothered by a radium complex. Unfortunately she does not know the spot from which this material came, but I had her permission to search her 1871 acres to find the radium-bearing-ore. I countered with the suggestion as how to test radio-active materials, by the use of an unexposed photographic plate and suggested that when her tenant could find the locality that they could perform the test as well as we. Needless to say, I was not quite this blunt (believe it or not), but this is the general gist of what I had to offer.

Ray C. Treasher,
April 30, 1940.
