Engineer
Salt Lake City, Utah

Branch Office
Gold Beach, Ore.

Gold Beach, Oregon
June 25, 1931.

Pacific Minerals, Inc.
2455 Penobscot Building
Detroit, Michigan

Dear Sirs:-

In compliance with the request of your President and Board of Directors, I visited the Bryant Group Gold Mining Claims located in the Salmon Mountain Mining District, Coos County, Oregon, during the week of June 12th, 1931, for the purpose of making a preliminary report upon this property.

My examination included the major developments as well as a large part of the surface areas of the property.

My report follows:

Respectfully,

Wm. F. Hayden

WILLIAM F. HAYDEN
Consulting Mining Engineer
Grants Pass, Oregon

November 9, 1936.

Wm. Mark Muchow,
1713 Mallers Building,
Chicago, Illinois.

Dear Sir:

As per your request for additional information in connection with the Bryant Group of Mining Claims, Salmon Mountain Mining District, Coos County, Oregon, I am mailing you herewith my report made upon this mine as of September 25, 1931, which is supplemental to my June 25, 1931 report.

This Supplemental Report must be read in conjunction with and is considered a part of my regular report upon this property, as well as my synopsis of this report with reference to values of both gold and chrome as of October 26, 1936.

My report follows.

Respectfully,

(Sgd.) W. F. Hayden,
Wm. F. Hayden
Consulting Mining Engineer

NOTE: - It is my understanding that the substance matter of these reports was originally obtained for a large oil company and substantial mining interests. After investigation it was found that deeds to the entire property were not procurable.

Wm. Mark Muchow,

such examination and investigation, and to either condemn or recommend this property to anyone able to properly finance and operate it, and I confidently believe that the same will result in success and I most certainly can and do, also, unhesitatingly recommend it to such parties for their examination and investigation, with the firm conviction that it will prove to be satisfactory indeed.

My examination was made during the early part of October, 1932.

Respectfully submitted,

(Sgd.) H. G. KLEINSCHMIDT
Mining Engineer and Geologist.
