FLETCHER-MYERS PROPERTY (continued)

tunnel 95 feet long having a direction of N. 55° E. was driven on a bed of soft, loosely consolidated black sands more than 7 feet thick. This tunnel is reported to have been driven nearly 50 years ago, and, so far as known, no work has been done in recent years.

"On the east and west branch of Twomile Creek, about one-quarter of a mile north of the tunnel opening, black sands outcrop in the bottom of a ravine. The sands were worked to some extent in the early days. Considerable ground sluicing of the bed of the stream was done, also a tunnel was driven to the northeast under a ridge between this ravine and another one. The old tunnel is now caved. The cover at this point is probably 50 feet thick and is sand and fine gravel. The surface is thickly covered with brush, timber, and fallen logs.

"A sample was taken from each of these deposits. One of the samples (H-132) was collected in the 95-foot tunnel at a point 40 feet from the portal and represents a thickness of 6 feet. The bed consists of alternate bands of iron-stained gray and black sand. Near the bottom is a band about 6 to 8 inches wide of coarse sand and gravel. The sample assayed 0.01 ounce of gold and platinum per ton. The other sample (H-133) was from the bed exposed in the bottom of the ravine and represents 4 feet of black sand. The assays showed a gold and platinum content of 0.04 ounce a ton."

GEIGER CREEK MINES, INC.

Beach Area

Oregon corporation; capitalization 5000; C.B. Gresham, San Francisco, California, Pres.; Stuart C. McLean, Pistol River, Oregon, Sec.-Treas.; office 3/o Herbert H. Stewart, Bandon, Oregon; no production (1937 report).

Property: 20 acres two miles SE. of Bandon known as the Geiger mine

This property on Geiger Creek, a branch of Fairy Creek, has one to three ft. of black sand interbedded with gray sand and occurs in offshore beds.

W 30 acres of SE⁴ SE⁴
Patented ground
S 60 Acres of W² S 8⁴ 13
not operating.

GEIGER MINE (continued)

"The Geiger or Little mine is situated on the south branch of Fairy Creek, in the SE. $\frac{1}{4}$ of NE. $\frac{1}{4}$ of section 32, T. 28 S., R. 14 W.

"This property was opened in the early days by John Geiger, who worked it by ground sluicing. Some two acres of ground were worked over, and it is reported that considerable gold and platinum were recovered.

"As the workings were advanced toward the hillsides the overburden became heavier and the gold and platinum content less, until the sluicing was no longer profitable. Also, the pay sands were gradually getting below water level.

"These difficulties all contributed to the closing of the mine. In recent years several attempts have been made to work the mine, and the wrecks of numerous gold-saving devices of which much was expected may be seen on the property.

"A sample (H-134) was taken from an exposure in the south end of the old workings at the foot of a 35 to 40 foot bluff. At this point the deposit is just above the water level. The sample represents 2 feet of black sand. It assayed 0.01 ounce of gold and platinum a ton."

IOWA MINE

33 S $\frac{1}{2}$ of N²

Beach Area

Located in sec. 26, T. 28 S., R. 14 W., three miles east of Bandon.

"Black-sand layers in offshore beds related to the Pioneer (170-foot) beach are explored by workings on the north branch of Fairy Creek, 2 miles east of Bandon and 1- $\frac{1}{4}$ miles south of the main highway. The stratigraphic section at this point includes a layer about 50 feet thick of sand and pebbles, above which is 50 feet more of gray to buff sand, which in turn is overlain by 30 or 40 feet of loose-textured windblown sand. Two streaks

This report must be properly executed and filed with the Corporation Commissioner on or before July 1, 1930, in order to entitle a corporation mining for any of the precious metals, coal, or prospecting or operating for oil, or operating an oil well, to pay a license fee of only \$10. If not so filed, such corporation must pay the same license fees as are required to be paid by other corporations for gain.—Section 6890, Oregon Laws.

Annual Report to the Corporation Department

FOR THE YEAR ENDING JUNE 30, 1930~~1930~~ 1937

Of GEIGER CREEK MINES, INC.

(Give legal name in full)

a corporation organized and existing under and pursuant to the laws of the State of Oregon.
