

Gold Beach District
Curry County

Name: Smedberg Beach Placer (gold)

Old Name: Rock Claim.

Owner: Carl Smedberg, Gold Beach, Oregon.

Location: On Beach one mile south of Gold Beach in
Sec. 1, T. 37 S., R. 15 W.

Area: Mr. Smedberg owns 600 feet along the Beach
and it reaches from the Beach to the Highway (101).

General Information: An experimental plant has been set
up which is powered by a 30 H.P. Caterpillar
engine. The sand is mined with a 6 inch centri-
fugal dredge pump from which it goes over a
Grizzly. The plus 1/2" goes to the tailing pile,
through a long sluice box. The minus 1/2" to a
classifier, amalgamator, Ding magnetic separator.
(18") The process has not proved altogether
satisfactory. Flow sheet not described because
I can never find it the same way twice. They
have mined approximately 100 yards of the beach sand
as indicated by a pit which is about 25 feet in
diameter. There are a few small boulders in the
sand, but not enough to interfere to any great ex-
tent with the operation.

Informant: J. E. Morrison. February 9, 1938.

SAMPLE INFORMATION REQUESTED

The law passed by the Legislature, governing the free assaying and analyzing of samples sent to a State Assay Laboratory, provides that certain information be furnished to the laboratory regarding samples sent for assays, etc. A copy of the law will be found on the back of this blank. Please read the law carefully. Will you please fill in the information called for in the following blank, as far as possible, and return the same to the nearest State Assay Laboratory, along with your sample. If you have made out a blank, this copy is for your future use. Keep a copy of the information on each sample for your own reference.

Your name in full J. E. M.

Post office address _____

Are you a citizen of Oregon? _____ Date on which sample is sent 9/15/37

Name (or names) of owners of the property Carl Lundberg & Ass.

Name of particular claim and date of location Red Gold Res No 8 Placer.

Location of property or source of sample: Gold Beach

(1) County Curry (2) Mining District United Creek

(3) Township 37 S (4) Range 14 W (5) Section 25

(6) Quarter Section S.E.

How far from passable road? Pyramid Lookout Road.

For what do you wish sample tested? Gold & Silver.

Does your sample represent a new discovery? no

On a newly located claim? no Old? yes

Has any ore from this claim been milled or shipped? no

Width of ore where sample was taken (length of channel cut) no rock in place

Three rocks weather forming placer.

Remarks: The Department would be pleased to have you add to the above, such information as you think would be of interest and value. This could be placed in the space below or upon a separate sheet. This could best be shown by a pencil sketch, indicating the development on the claim with widths of vein, especially the width of ore at the place where this sample was taken.

A sample, to be of value, should be taken in an *even channel across the vein* from wall to wall. Its position in the workings should be marked and the width measured. Assays of unlocated samples, without widths, are of little value. They create but little interest in the minds of experienced investors and engineers.

Signed J. E. M.

ASSAY REPORT

May 16, 1938

Mr. J. E. Morrison, Mining Geologist
State Assay Laboratory
Grants Pass, Oregon

Following are the results of Assays made on the samples taken from the plant of Mr. Carl Smedburg near Gold Beach, Oregon.

<u>Office number</u>	<u>Sample number</u>	<u>Gold</u>		<u>Silver</u>		<u>Total value \$/ton</u>

ASSAY REPORT

~~Baker, Oregon~~
Grants Pass, Oregon.

Date September 30, 1937.

Sample submitted by Mr. J. E. Morrison

Sender's Address Grants Pass, Oregon

Description of sample furnished by sender Number 2. Carl Smedburg.

Character: Reddish brown, soil-like material containing a considerable amount of limonite. Weight: About 30 pounds.

The assay results given below are made without charge as provided by Chapter 176, Section 10, Oregon Laws 1937, the sender having complied with the provisions thereof.

NOTICE: The assay result given below is from a sample furnished by the above named person. This department had no part in the taking of the sample and assumes no responsibility, other than the accuracy of the assay of the material as furnished it by the sender.
