

Camas Valley, Oreg. ~~xxx~~ 8/6/40

The Eagle prospect was first located about 1905. Bonded by a Roseburg Oreg, banker for \$60,000 short bond, time expired, notified to quit. Bonded again by the Calumet & Hecla mining Company, of Michigan, again for \$60,000, they sunk about 18 ft shaft, then 10 ft drift, their Engineer examined, and turned it down. The owner and his nephew put a mill on, shipped one ton of concentrates. dont know the results.

Yours very truly
