

OVER 12,000,000 YEARS POTENTIAL DREDGER
PLACER MINING PROPERTY AVAILABLE.

---*---

Located in Southern Oregon. 22 miles S. W. of Roseburg, Ore.

Consists of over twenty ranches along a good creek.

All under option. Mostly 20% down after testing, balance 18 months.
Few under 10% lease.

Aproximately 530 acres potential dredger ground that will average
about 20,000 yards per acre. One parcel will average about 50,000
yards per acre for about 90 acres. Balance should test to 20c
for two thirds of the yardage.

Total acres to buy, aproximately 1685. Costs ~~\$22x~~ about \$80,000.00.
Down payments about \$22,000.00. Resale values after being mined
about \$12,000.00. Buildings improvements worth that.

Total values of lands, figuring on basis of 10% of 20c per yard for
20,000 yards per acre would aproximate \$250,000.00. Figuring net
costs at \$70,000.00 would be about 3% of possible values recoverable.

Preliminary testing can be done quite cheaply.

Costs for adequate testing can be made very low. Men and most needed
equipment available here.

Dredging equipment can be landed from trucks right on the ground.

Holder of options will enter into proper agreement, that is right
and just to all concerned, to assign all options to a substantial
operating company that can qualify financially and otherwise to
handle the deal.

Quick action is necessary to secure this. Also fast work on testing
is essential.

Address: Oro Grande Placer Mines, V. C. Howe, Mgr. Brockway, Ore.
See me at ranch of C. O. Smith, upper Olalla. Via Brockway to
Olalla road, thence to upper Olalla road.

This comprises the Olalla and upper Olalla valleys.
