Dear Sir, -

May we hope to hear soon, about the results of the samples taken from the Honey Dome Mining Claims.

And if not in use will you kindly return the Report, and assays you have, on the Honey Dome Mining Claims, as there is a party anxious to see them. Thank you

Very Sincerely

Dear Mr. Strader:

I am sorry for the delay in returning the reports etc. to you on the Honey Dome Mining claims. Both the assayer and myself took our vacations during October and it interrupted the work at the Laboratory considerably.

Inclosed you will find report and old assay certificates. Mr. Lewis will send you his reports as soon as he is completed with the samples.

In regard to the clay, I delivered a sample to the Head Office and asked them to make a test on it and they will mail a report on same to you.

With kindest personal regards, I am

Yours truly,

J. E. Morrison
Mining Geologist.
