Mr. F. W. Libbey
702 Woodlark Building
Portland, Oregon

Dear Mr. Libbey:

I visited the property of Mr. Brown who lives 3 miles South-
west of North Powder. The property is located on the Anthony Lake
road, near the Powder River bridge. The area covered by the deposit
is large. We have examined numerous specimens and I took a few
during my visit. Many of the specimens show (estimate 30 %) a tiny
spot or two that will fluoresce. None of the rocks appear to be of
value. Most of those examined were quartz diorite.

Sincerely yours

Hugh
