

Present City, Oregon
1941

Regular activity is reported from the Colorado mine on Dixie Creek north of Prairie City, Oregon, which R. C. (Cam) Reese of Prairie City and associates are operating. A small cyanide plant is on the ground to treat tailings from both the Colorado and Present Need mines. U. A. Jurva of Prairie City is conducting the tailings operation.

Equity *Plant*

To Mill Tailings—U. A. Gurva of John Day, is installing a small cyanide plant on Dixie Creek near Prairie City with which to treat tailings that have been banked from former operations at the Colorado and Present Need mines on Dixie Creek. Mr. Gurva has leased the tailings from Cam Reese, well known mining man of Prairie City. Mr. Reese is doing development work at the Colorado. The Present Need and Colorado were both worked extensively more than 30 years ago. *DMP July 1943*
