

August 25, 1913.

Mr. C. A. McFadden, Jr., Pres.,
Northwestern Gold & Copper Co.,
1122 Market St.,
Wheeling, West Va.

Dear Sir:

In reply to your favor of the 7th inst. will say that I am inclosing herewith for your information a letter which was recently sent out to all of the mineral producers of the state. This letter will give you some idea of the work which is in progress this summer by the Oregon Bureau of Mines and Geology.

It is our desire as a Bureau to be as useful in encouraging the development of the mineral resources of the state as possible.

Mr. A. M. Swartley, mining engineer for the Bureau, will probably visit the Susanville district in the near future and will visit all of the producing and developing properties in that section. No doubt your property will be visited. Mr. S. W. French, our metallurgist, will assist in working out the metallurgical problems such as you suggest as fast as possible.

We are glad to place your name on our mailing list for all reports from the Bureau.

Yours very truly,

Director.
