

Confidential: A number of assays were taken. The highest of which was \$1.75. This is one of the Sixth Street miners that does his mining on the street corner.

Morrison

ASSAY REPORT

April 23, 1938

Mr. J. E. Morrison, Mining Geologist
 State Assay Laboratory
 802 East H. Street
 Grants Pass, Oregon

The following are the results of assays made on the samples from the Big Chief property owned by Mr. G. W. Kerne.

Office number	Sample number	Gold		Silver		Total Value
		Oz./ton	\$/ton	Oz./ton	\$/ton	\$/ton
309	1	0.01	0.35	Trace		0.35
312	2	Trace		Blank		
313	3	Trace		Blank		
314	4	Trace		Blank		
335	5 ✓	Trace		Blank		
315	6 ✓	0.01	0.35	Trace		0.35

STATE DEPARTMENT OF GEOLOGY AND MINERAL INDUSTRIES
ASSAY LABORATORIES

Baker, Oregon
Grants Pass, Oregon

SAMPLE INFORMATION REQUESTED

The law passed by the Legislature, governing the free assaying and analyzing of samples sent to a State Assay Laboratory, provides that certain information be furnished to the Laboratory regarding samples sent for assays, etc. A copy of the law will be found on the back of this blank. Please read the law carefully. Will you please fill in the information called for in the following blank, as far as possible, and return the same to the nearest State Assay Laboratory, along with your sample. If you have made out a blank, this copy is for your future use. Keep a copy of the information on each sample for your own reference.

Your name in full . . . *J. E. Morrison*
Postoffice address

Are you a citizen of Oregon? *Yes* Date on which sample is sent

Name (or names) of owners of the property . . . *Big Chief*

Name of particular claim and date of location

Location of property or source of sample:

- (1) County . . . *Jackson* (2) Mining District
- (3) Township . . . *36 S* (4) Range . . . *4 W* (5) Section . . . *19*
- (6) Quarter Section . . . *SE*

How far from passable road? . . . *1/2 mile*

For what do you wish sample tested? . . . *gold & silver*

Does your sample represent a new discovery? . . . *No*

On a newly located claim? . . . *no* Old? . . . *yes*

Has any ore from this claim been milled or shipped? . . . *no*

Width of ore where sample was taken (length of channel cut) . . . *16 sample*

Remarks: The Department would be pleased to have you add to the above, such information as you think would be of interest and value. Use the reverse side of this sheet or a separate sheet. This could best be shown by a pencil sketch, indicating the development on the claim with the widths of vein, especially the width of ore at the place where this sample was taken.

A sample, to be of value, should be taken in an even channel across the vein from wall to wall. Its position in the workings should be marked and the width measured. Assays of unlocated samples, without widths, are of little value. They create but little interest in the minds of experienced investors and engineers.
