Mr. Leonard Lundgren
Box 70
Bend, Oregon 97701

Dear Mr. Lundgren:

The enclosed information is in response to our telephone conversation regarding Smith and Stevenson's gold mining claims in Jackson County.

I visited the Queen of the Hills workings in 1958 with a former owner, Archie Bell and made the enclosed sketch map. I thought there was also a report to accompany the map, but have been unable to locate it, so am enclosing an old report by Ray Treasher. I took a couple of samples for assay and am enclosing a copy of the assay report along with the report of a higher-grade sample submitted by Mr. Bell in 1959.

We also have a copy of Mr. Westman's report dated 1946. It appears that he was impressed by the property. We do not, however, have copies of his plates, II, III, and IV, referred to in the text.

We are also enclosing some information on gold regulations and a list of smelters in the nearby states, some of which may possibly be persuaded to do custom work as follows:

East Helena, Montana - American Smelting and Refining Co.
Midvale, Utah - U. S. Smelting, Refining and Mining Co.
Salt Lake City, Utah - International Smelting and Refining Co.
Tooele, Utah - International Smelting and Refining Co.

We hope that this information is helpful.

Sincerely,

Len Ramp
Resident Geologist

Dear Mr. Foster:

In response to your note of 6-3-89 I am enclosing the complete file (photo copies) of the information we have available on the Hazel Group - Queen of the Hills Mine. No record of the Gold Spike Mine.

For further information regarding the status of the claims you might contact the Bureau of Land Management 3040 Biddle Road, Medford, OR 97501. All claims must be filed with the BLM, not this office. Their phone number is (503) 776-4174. Mr. Len Ramp has retired from the Department of Geology. But if we can be of further assistance to you please do not hesitate to contact us again.

Thank you,

Ruth E. Pavlat, Secretary
