Jackson County
Gold Hill District

Name: Judson Claim (gold)

Owners: Carl J. and Catherine Palmer, Medford, Oregon.

Location: 5 miles east of Rogue River in the S.E. 1/4 of the N.E. 1/4 of Sec. 25, T. 36 S., R. 4 W.

Area: One full size unpatented lode claim.

History: Located April 16, 1937. One to two men working the property ever since location. No production.

Geology: Contact between greenstone and limestone. Vein material is mostly wall rock and varies in width from nothing to three feet. The development work has been done in the foot wall along the vein. One sample was taken along the vein in the south drift which run .44 oz. au and .2 oz. ag. The strike of the vein is N. 80° W. and dips 65° E.

Development: There is a vertical shaft 35 feet deep from the bottom of which there are two drifts; one to the north 30 feet and the other to the south 15 feet. Elevation 1450 feet. Mountainous topography. Maximum 18 inches of snow. Road to within one half mile of property.

Informant: J. E. Morrison. 12/21/38

No equipment.
The assay results given below are made without charge as provided by Chapter 176, Section 10, Oregon Laws 1937, the sender having complied with the provisions thereof.

NOTICE: The assay results given below are from a sample furnished by the above named person. This department had no part in the taking of the sample and assumes no responsibility, other than the accuracy of the assay of the material as furnished it by the sender.

SAMPLE INFORMATION REQUESTED

The law passed by the Legislature, governing the free assaying and analyzing of samples sent to a State Assay Laboratory, provides that certain information be furnished to the Laboratory regarding samples sent for assays, etc. A copy of the law will be found on the back of this blank. Please read the law carefully. Will you please fill in the information called for in the following blank, as far as possible, and return the same to the nearest State Assay Laboratory, along with your sample. If you have made out a blank, this copy is for your future use. Keep a copy of the information on each sample for your own reference.

Your name in full: J. E. Morrison
Postoffice address: 

Are you a citizen of Oregon? Date on which sample is sent: 12/21/38
Name (or names) of owners of the property: Catherine Palmer
Name of particular claim and date of location: Jackson claim April 6, 1937
Location of property or source of sample:

(1) County: Jackson (2) Mining District: Gold Hill
(3) Township: 34 S (4) Range: 340 (5) Section: 7
(6) Quarter Section: 

How far from passable road? 1/4 mile
For what do you wish sample tested? 10
Does your sample represent a new discovery? Yes
On a newly located claim? No Old?

Has any ore from this claim been milled or shipped? No

Width of ore where sample was taken (length of channel cut) 15
Remarks: The Department would be pleased to have you add to the above, such information as you think would be of interest and value. Use the reverse side of this sheet or a separate sheet. This could best be shown by a pencil sketch, indicating the development on the claim with the widths of vein, especially the width of ore at the place where this sample was taken.

A sample, to be of value, should be taken in an even channel across the vein from wall to wall. Its position in the workings should be marked and the width measured. Assays of unlocated samples, without widths, are of little value. They create but little interest in the minds of experienced investors and engineers.

Sample taken along vein:
