

UTAH QUICKSILVER COMPANY (quicksilver)

Gold Hill area

"Incorporated about August 1, 1916. Incorporators, Alex Nibley, Edwin Jones, and W. Y. Cannon of Salt Lake City, with a capital stock of \$50,000.

"The property contains 35 claims near the Chisholm group.

"The ore deposit consists of cinnabar in shear zone in andesite, the cinnabar being found over a wide territory in this section but usually quite low grade. The chief showing is on the Rainier Claim where cinnabar deposits along with pyrite outcrops in an andesite fault breccia. The vein strikes N. 70° W. and contains black quartz 12 to 15 inches wide with a well defined wall.

"The development work at this point consists of an open cut 12 to 15 feet deep exposing a vein some 20 feet in length. The vein is opened up in 2 or 3 other points thus tracing it for 3 or 4 hundred feet. The property is at present under option to Boston people."

Note: Judging from the general locality given and the mention of a Rainier Claim, this company may have worked what is now known as the War Eagle Mine. (See also Chisholm Claims.)
