Land Tested for Gold Content

Jacksonville, March 10.—Testing of several hundred acres of land here to determine if the gold content will warrant the operation of a large dredge has been started under di-rection of mining executive and fi-nanciers headed by Harvey Dick of Portland, First tests are being mede on the A. W. Bowman prop-erty. No results have been an-nounced. nounced.

nounced. The group proposing to locate a dredge here which will cost about \$250,000 is spending \$20,000 to make the tests, it is announced. They have secured options on several hundred acres of land in and adjacent to the Jacksonville, city limits. Some op-tions previously held on parts of the land by another mining operation have been taken over by the group which Dick heads.
