Grants Pass, Oregon

Dear Sir:

As per your request, on August 4, 1937 I visited your Happy Days Manganese deposits located in Sections 9, 10 and 15, Township 37 South, Range 2, East, Jackson County, Oregon for the purpose of making a preliminary examination and later an extended examination in order that I may prepare a more thorough Engineering Report upon this property.

My report follows.

Respectfully,

Wm. F. Hayden
