The B-H Company's dragline dredge which has been operating on the left fork of Forest Creek in Jackson County, Oregon, has been moved upstream to the Black property. It is expected that work will be continued at the new location during the winter and spring. T. M. Gerety of Medford is president and general manager, and Harry C. Skyrman, also of Medford, is secretary. The company address is Box 1091 at Medford.

Oregon

The Murphy-Murray Dredging Company has suspended operations on the Williams ground on Ditch Creek, tributary of Pleasant Creek in Jackson County, Oregon. The dredge has now been completely moved from the territory. Before working the Williams ground, the Murphy-Murray company carried on operations at Footh Creek near Gold Hill, Oregon. George E. Murphy, Rogue River, is president.

Oregon

The Hayfork Gold Dredging Company is carrying on dredging operations on Forest Creek north of Ruch, Oregon. During the summer months the company had moved its dragline dredge to Applegate River because of an inadequate water supply at Forest Creek. All equipment is Diesel powered. Charles C. Stearns, 522 West Fourth Street, Medford, Oregon, is in charge of operations.
