

*Dead Indian Clay*

October 7, 1980

Oregon State Department of Geology  
P. O. Box 417  
Grants Pass, Oregon 97526

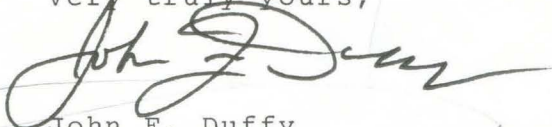

Attention: Mr. Norm Peterson  
Resident Geologist

Gentlemen:

I spoke last week with Dr. Donald Hull, requesting assistance on the survey and sampling of a clay deposit located outside of Ashland. While I am aware of your budget restraints on this matter, I respectfully request your assistance on November 28, 1980. I could drive down and pick you up and return you to Grants Pass the same day. This should eliminate the use of your travel budget and would allow me an expert opinion.

If this meets with your approval I can forward you any preliminary information pertaining to the clay deposit.

Very truly yours,

John F. Duffy
