

CONFIDENTIAL

WILLIAMS DREDGE

This outfit is a group of road contractors with headquarters in Portland. They had an operation during 1939 on Pleasant Creek just upstream from ground held by the Pleasant Creek Mining Corporation. They spent about two months setting up not over one month of operation--discontinued their work.

They seem to have access to unlimited equipment and appear to be a bit more sane in regard to their operation than most outfits of this type.

However, they know very little about the ground they are going to dredge except they think it contains gold. I anticipate that they will have many problems and have earnestly requested them to contact this department in event of difficulties. I believe they are sincere and well-meaning; they are worthy of what help we can give them.
