Mr. Peter Spryn
4000 Palmer Creek
Jacksonville, Or. 97530

Dear Mr. Spryn:

Enclosed are results of samples we collected on my visit. They are disappointing.

I have written a brief memo report on the prospect and would like to include more assay information. If you could send copies of your assays to date, it would be helpful.

I'll send a copy of the report when completed and will return your assay reports if they are not spare copies.

Sincerely,

Len Ramp
Resident Geologist
