

DEAN & DEAN PLACER

Galice area

Owners: Lydia H., & James N. Dean, Galice, Oregon.

Location: E $\frac{1}{2}$ sec. 25, and sec. 36 (?), T. 34 S., R. 8 W. Elevation 700 feet.

Area: 99 acres of patented land.

Development: 4 or 5 acres have been mined.

History: The property was located and operated by J. N. Dean's father and has been operated by the Dean's since 1895.

Equipment: 4 $\frac{1}{2}$ miles of ditch; 2000 feet of 11 inch to 20 inch pipe; four giants (two no. 1 and two no. 3 giants).

Geology: Slate bedrock; boulders are small and will average about 12 inches. There is some clay in spots, but most of the fine material is silt that goes freely through the sluices. The gold is 920-935 fine and is small in size.

Economics: This is part of the "high channel" and has been productive for years. Ditches and equipment are kept in good condition.

Informant: J. N. Dean, 4/6/40.

Report by: Ray C. Treasher.
