Mr. Dick Bland
973 "R" Street
Springfield, Oregon 97477

Dear Mr. Bland:

Am enclosing the assay results on the samples we took at your Lost Flat Mine.

It appears that the only place there is any amount of gold is in the flat dipping shear zone in the NW open cut (closest to the road).

If you have any questions about the sample location, check with us.

Best regards,

Norm Peterson
