

402 East I Street
Grants Pass, Oregon
March 16, 1939

Mr. J. J. Seidel,
Medford,
Oregon.

Dear Mr. Seidel:

According to the Records in the Recorder's Office in Grants Pass, the Western Metal Mines Company is the owner of the Sugar Pine and other mining claims.

The State Department of Geology and Mineral Industries is gathering information for the purpose of publishing a Bulletin on the Mines of Southwest Oregon. This Bulletin will be similar to all such published by departments of mines, and we would like to have as much information on the properties as possible and have them properly listed in the publication. We would like to have any maps, reports and a brief history of the properties you own. All maps and reports that you care to send us will be properly returned to you.

Yours very truly,

J. E. Morrison
Mining Geologist.
