Mr. Michael D. Strickler  
Litho-Logic Resources  
207 S.W. "G" Street, Suite A  
Grants Pass, OR 97526

Dear Mr. Strickler:

We have now very carefully reviewed all the Yankee Silver Lode material you so kindly furnished our Mr. Don Earnest, and have decided that we would not be interested in pursuing this matter further at this time.

While some of the evidence of mineralization is interesting, and might well warrant further drilling, I'm afraid the resource potential developed by past efforts just does not meet our current new-venture criteria.

Thank you for giving us the opportunity to review this material, and the best of luck in your further efforts to place these claims.

Very truly yours,  
SUNSHINE MINING COMPANY

Mr. Len Ramp  
State Assay Laboratory  
Grants Pass, Oregon

Dear Len:

We had Tom run zinc on the samples you requested.

In these low ranges his semi-quantitative results on the spectrograph are about as accurate as we can do.

Here are the results as reported to us by Tom:

		<u>Zinc</u>	
ACG-77	P-32722 . . . . .	0.01 %	✓
ACG-78	P-32723 . . . . .	0.05	✓
ACG-113	P-32884 . . . . .	0.20	✓

Sincerely yours,

William M. Kahn  
Assayer Chemist
