

Grants Pass, Oregon Josephine Co

The Mining Journal February 15 1938

The Lambton mine, located in Josephine County about nine miles north of Grants Pass, Oregon, is reported to have

been in steady operation since September 1, 1937. The ground is owned and operated by Ben B. Baker and C. N. Baker, both of

Grants Pass. At present the milling capacity is 1,000 pounds an hour. The tunnel cuts the vein at 200 feet and a raise has been put up to the surface. A winze follows the vein down 70 feet.

The Mining Journal January 30 1938

Operations are going forward at the Lambaug mine, located in Josephine County about nine miles north of Grants Pass, Oregon. George A. Baker of Grants Pass is the operator. Mill recovery is stated to have averaged \$19 a ton since August 1.

Ben B. Baker, Route 1, Box 670, Grants Pass, Oregon, owner and operator of the **Lambtongue** mine in Josephine County, is planning to install flotation cells in the 15-ton milling plant. At present the gold and silver values are recovered by amalgamation and table concentration. Three or four tons of ore are being handled daily. The upper tunnel has been cleaned out and put in order for mining and plans call for unwatering the winze in order to develop ore below the tunnel. The property has been opened to a depth of 350 feet.
