

GREENBACK MINING DISTRICT

JOSEPHINE COUNTY

Blue Channel Pl.      Status of Placer Operations for 1947-48 Season

Mr. M. H. Davis

Coyote Creek near Mouth of Foley Gulch  
Sec. 19, T. 33S., R5W.

Hydraulic-is consistently the largest operation in this area but only operating one giant this season due to high labor costs. At present they are clearing old tailings from approximately 5 acres of ground and plan to spend the season working this piece.
