Calcium Products Co.

Grants Pass, Oregon.

Gentlemen:

Yesterday I visited your property, the "Turvey Limestone" placer mining claim located in Josephine County Oregon, being in fact the East half of the Southeast quarter of the Northwest quarter of Section 29, Township 38 South Range 5 West of the Willamette Meridian, as surveyed and staked by Mr. Glen C. Hunter.

This limestone outcrop at the lower exposed end is, by the aneroid barometer, 1000 feet higher than the county road at its nearest point at the Turvey place, which is a little over a half mile distance in a direct line. This fact necessitates the building of a road from the property to the county road and in my estimation, it should be 4 miles long in order to keep the average grade close to 5 per cent. The county road is passable in winter as is the state road, giving a total haul of about 25 miles into Grants Pass.

The limestone outcrop is of excellent material and is clear of overburden for the amount shown. The sketch and cross-section will give you information as to its shape and dimensions as well as its position.

To facilitate the estimation of the tonnage I divided the outcrop into three sections. Block "A" contains about 50,000 tons, "B" about 50,000 tons and "C" about 25,000 tons, all being exposed. By removing overburden and by carrying the quarry floor of block "B" and block "C" at the same elevation as block "A", the tonnage of these last two blocks would be doubled and tripled respectively.

This preliminary report is brief due to the lack of sufficient time to study the many features of the property but I do believe you can gain much information from the enclosed "Township" map, "Sketch" and "Crossection".

Yours respectively,

H. W. Lawrence

Lower Applegate District
Josephine County

Name: Turvy^e Limestone Quarry MAR 9 1939

Owner: — Calcium Products Company, Glen C. Hunter, Box
231, Grants Pass, Oregon, President and Treasure.

Location: On ridge west of Williams Creek, about 18 miles
by road south of Grants Pass in Sec. 27, T. 38 S.,
R. 5 W.

General Information: This Company owns 8 placer claims
which is held by location. 160 acres. The
Company is now building a road to the property
and expects to equip the property so that they
can produce limestone products by this summer.

Informant: Glen C. Hunter. 2/25/39.
