Hollis -

Mr. Libbey called this morning to inquire if you were planning to attend the Natural Resources Committee meeting in Salem this Thursday, February 17. He said he thought you should attend. He has to be present to report on activities of the Mapping Advisory Committee and I think he would like to go down with you. Maybe you can drop him a note or call him Wednesday evening when you get back, and let him know whether or not you plan to attend. The meeting is set for 9:30 a.m. in the Board of Control Room, State Capitol.

Received in this morning's mail an application to drill a new well, drilling bond, and \$25 check from Charles A. Stone at Lakeview. I called Mr. Bingham and he said it would be O.K. to hold it up until you return Thursday. I sent a note to Stone acknowledging receipt of the forms and check, and told him you would take care of it on your return.
