Mr. George S. Barton
1367 Columbia Street
Eugene, Oregon

Dear Mr. Barton:

Thank you very much for your letter giving information on the LeRoy group, which you state is on record as being owned by the Elephant Mt. M. & N. Company, Eugene.

We have had no recent definite inquiry for an asbestos property. I am uncertain whether or not the Freeport Sulphur Company would be interested. These people have been investigating strategic minerals very actively, and have had an engineer in the State at various times during the past year. You could address them: Mr. J. J. Strutzel, c/o Freeport Sulphur Company, Reno, Nevada.

For your information, I am enclosing a list of possible buyers of asbestos supplied by the U. S. Bureau of Mines.

Very truly yours,

F. W. Libbey
Mining Engineer

& 702 Woodlark Bldg.,
Portland, Oregon.

Re LeRoy Mine.

Dear Mr. Libbey:

Yours of the 1st inst re the LeRoy Mine in the Bohemia District, Lane County Oregon received:

The Elephant Mt. M. & M. Co. of Eugene, Oregon are the record owners. There are six patented claims. No work has been done on these claims for several years. I have been over the property to some extent during the past three or four years. I have several engineers references to the claims as well as the reports of miners who worked for the operators years ago.

To all appearances little ore was encountered and so far as I can learn no ore has been shipped from the property.

Very truly yours,

Joseph Burton
1367 Columbia St., Eugene, Ore.

P.S. Do you have a reliable inquiry - one that means business & has the financial set-up - for an asbestos property of exceptional promise?
