MEMORANDUM ON STAMEY WELL

Operator

Roderick A. Stamey, 311 Rusk Building, Houston, Texas.

Location

Sec. 14, T. 19 S., R. 44 E., Malheur County, Oregon.

A short inspection was made of the R. A. Stamey well location on July 23, 1955. At that time the derrick and all the drilling equipment had disappeared and all that remained on the ground was a few odd pieces of junk. I was unable at that time to determine whether the hole itself had been adequately plugged. The present location of Stamey's drilling rig is not definitely known but rumor has it that H. K. Riddle has bought or leased it for well drilling in western Idaho.
