Re: Grassy Mountain – Baseline Data – Geology and Soils

(Sent via e-mail to nancy@paramountnevada.com and US Mail - return receipt requested)

Dear Ms. Wolverson:

Calico Resources filed a Geology and Soils baseline report for the proposed Grassy Mountain project with the Department of Geology and Mineral Industries (DOGAMI) on October 18, 2018. The baseline report was prepared by Mark J. Abrams, an Oregon registered geologist.

The Geology and Soils baseline data report was reviewed by the Oregon Department of Environmental Quality (DEQ) and DOGAMI.

The Geology and Soils baseline data report appears to be complete and consistent with the approved Environmental Baseline Study Work Plan, dated September 22, 2017.

The Geology and Soils Baseline Report dated October 2018 is accepted.

Please let me know if you have any questions regarding the State's review and comments.

Sincerely,

Randy Jones
Chemical Process Mining Coordinator
Oregon Department of Geology and Mineral Industries
