This application becomes a permit when signed and dated by DOGAMI in the box below.

The present condition of the well, including complete casing record, is as follows:

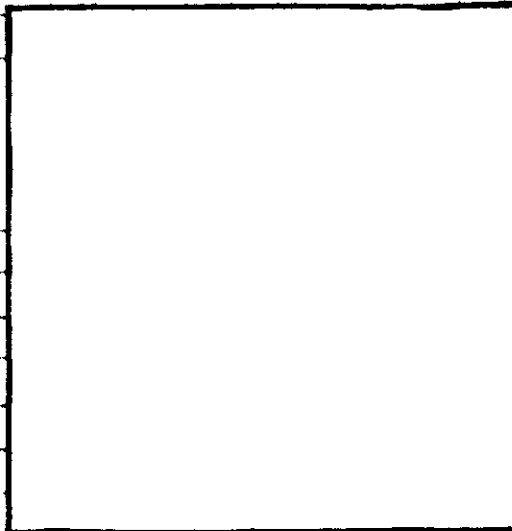

conductor only

Following is a detailed account of proposed work:

Instead of running 7" casing to 1000'; propose to run to 1150' maximum.

Problem is L.C. at 550' - 850'. By casing to 1150', they will have 300' of shoe cased below the last circulation. Probably have to do a top job too.
