Electronic filing

E-file is the fastest way to file your return and receive your refund. The speed and accuracy of computers allow electronic returns to be received and processed faster than paper returns, greatly reducing errors and delays. E-file uses secure technology to ensure the safety of your personal information once it's transmitted to the IRS and the Department of Revenue.

Oregon participates in the IRS Federal/State E-file program. This program allows you to electronically file **both** your federal and Oregon returns at the same time. If you have already filed your federal return, you may still electronically file your Oregon return.

If you haven't tried e-file yet, why not this year? Join more than 1.6 million other Oregon taxpayers who electronically file their Oregon returns.

You can take advantage of e-file in one of two ways:

1. Ask your tax preparer.

If your tax preparer is an authorized IRS e-file provider, your preparer can electronically file your federal and Oregon returns. Many Tax-Aide and Tax Counseling for the Elderly (TCE) sites set up by the IRS are authorized IRS e-file providers.

2. Online tax preparation software.

You can file your federal and state returns from your home computer, from work, or from a library using Oregon-approved online tax preparation products. Go to our website at www.oregon.gov/dor/e-filing for a list of tax preparation products that can assist you in preparing your federal and Oregon returns.

You may be eligible for free e-file. Several tax preparation software providers offer free online electronic tax filing. For free online tax preparation programs, go to www.oregon.gov/dor/e-filing.

Federal tax law

No extension to pay. Oregon does not allow an extension of time to pay your tax, even if the IRS is allowing an extension. Your 2017 Oregon tax is due April 17, 2018.

Federal law connection. Oregon is tied to federal income tax laws **as of December 31, 2016**. Oregon has a rolling tie to federal changes made to the definition of taxable income, with two exceptions:

- IRC section 139A for Federal Subsidies for Prescription Drug Plans; and

- IRC section 199 for Income Attributable to Domestic Production Activities, also known as Qualified Production Activity Income (QPAI).

Income under these sections is specifically exempt from tax on the federal return. If you have any of these types of income, you will have an addition on your Oregon tax return.

Oregon will automatically adopt any future federal law changes to the definition of taxable income.

Important reminders

Federal return. You must include a copy of your Federal Form 1040, 1040A, 1040EZ, 1040X, 1040NR, or 1040NR-EZ with your Oregon return. Without this information, many items claimed on your Oregon return may be disallowed or adjusted.

Schedule OR-ASC-NP. If you are claiming an adjustment, addition, subtraction, modification, or credit using a code listed in Publication OR-CODES, you must include Schedule OR-ASC-NP. Without this information, the item claimed may be disallowed or adjusted.

Publication OR-17. Publication OR-17 can be accessed online at www.oregon.gov/dor.

You may order Publication OR-17 for \$7 in person, online, or by mail.

Kicker refund. Oregon’s surplus credit (known as the “kicker”) will be claimed as a credit on your 2017 tax return. The credit is a percentage of your 2016 tax liability. You may choose to donate your surplus credit to the Oregon State School Fund. See page 23 for more information and instructions for calculating your credit and also for donating your credit to the Oregon State School Fund. You must file a 2017 return to claim your kicker credit, even if you don’t otherwise have an obligation to file.

Earned income credit. If your child is age two or younger on December 31, 2017, and you qualify for the federal earned income tax credit, you are now able to

claim 11 percent of the federal credit amount as an Oregon credit. All other taxpayers can continue to claim eight percent of the federal credit amount as an Oregon credit. See page 23 for additional information.

Federal tax liability subtraction. The federal tax subtraction limit is \$6,550 (\$3,275 for married filing separately) for 2017 and may be limited further based upon adjusted gross income (AGI). See page 19.

ABLE (Achieving a Better Life Experience) accounts addition requirement. Oregon requires an addition if contributions made to an ABLE account for the benefit of a person with a disability were subtracted from taxable income in an earlier year and withdrawn in a later year for an unqualified purpose. For more information about this addition, see Publication OR-17.

Special Oregon medical subtraction. For tax year 2017, you or your spouse must be age 64 or older on December 31, 2017 to qualify for the subtraction. See Schedule OR-ASC-NP instructions.

Tuition and fees deduction and subtraction. As of the date this publication was printed, Congress had not renewed the federal tuition and fees deduction. As a result, the deduction and the related Oregon subtraction may not be available for tax years beginning January 1, 2017. See page 16 and the instructions for Schedule OR-ASC-NP for additional information.

General information

Should I file an Oregon return?

You must file an Oregon income tax return if your Oregon source income and income received while an Oregon resident is more than your standard deduction.

If your Oregon income is less than your standard deduction, you're not required to file a return for Oregon.

If you had a tax liability in 2016, you need to file a 2017 return to claim your surplus refund (kicker) credit, even if you don't meet the filing requirements below. See the instructions for Form OR-40-N, line 62 or Form OR-40-P, Line 61 to determine if you had a tax liability in 2016.

Full-year residents. Oregon taxes your income from all sources.

Part-year residents. Oregon taxes your income from all sources earned or received while you were an Oregon resident. Oregon also taxes your income from Oregon sources while you were a nonresident.

Nonresidents. Oregon taxes only your income from Oregon sources.

Filing thresholds

You must file an Oregon income tax return if:	
Your filing status is—	And your Oregon gross income is more than—
Can be claimed on another's return	\$1,050*
Single	\$2,175
Married filing jointly	\$4,350
Married filing separately	
• If spouse claims standard deduction	\$2,175
• If spouse itemizes deductions	\$0
Head of household	\$3,500
Qualifying widow(er)	\$4,350

*The larger of \$1,050, or your earned income plus \$350, up to the standard deduction amount for your filing status.

How long will it take to get my refund?

Return processing times vary depending on many factors, including the complexity of the return and our verification processes.

Electronically filed returns are the most quickly received and usually process faster.

Paper returns must have all required Oregon schedules and a copy of your federal return included to ensure smooth processing.

Returns mailed closer to April 17, when the largest number of returns are received, can take longer to process.

Also, returns that require review can take additional time to process. Typical reasons for additional review include: incomplete documentation, identity verification, working family household and dependent care credit, etc.

To check the status of your refund, go to www.oregon.gov/dor and click on "Where's my refund?"

What does income from Oregon sources include?

Oregon income includes income shown on your federal return for services performed in Oregon.

If you have wages from an Oregon employer and you performed services for your employer in Oregon and another state while you were a nonresident, and your Oregon wages aren't stated separately on your W-2, compute your Oregon source income using the formula for line 7S (page 14).

The following are also considered income from Oregon sources:

- Businesses, partnerships, limited liability companies taxed as partnerships, and S corporations located or doing business in Oregon—income (and losses).
- Unemployment compensation received because of an Oregon job.
- Severance pay received because of an Oregon job.
- Oregon farm income (and losses).
- Oregon estate and trust income (and losses).
- Oregon State Lottery winnings.
- Sale of Oregon property income (and losses).
- Rents and royalties for use of Oregon property.
- Community property income. If you're a resident of Oregon and your spouse is a resident of a state with community property laws, you may be taxed on part of your spouse's income. Community property laws in the state where your spouse lives determine if you're taxed on any of your spouse's income.

What income isn't included in Oregon sources?

- Interest and dividends. However, if they're from an Oregon business you own, received during the part of the year you were a resident or passed through from an S corporation or partnership doing business in Oregon, you must include them in Oregon income.
- Oregon retirement income received while you were a nonresident unless you were domiciled in Oregon. For more information on this exclusion see Publication OR-17 or our website.
- Interstate transportation wages from an interstate railroad company, interstate motor carrier, air carrier, or interstate motor private carrier. You must be a nonresident and have regularly assigned duties in more than one state.
- Waterway, air carrier, or hydroelectric dam compensation, if you're a nonresident:
 - Working as crew or pilot on a vessel in navigable waters between Oregon and another state;
 - Working as crew or pilot on an aircraft in Oregon and at least one other state; or
 - Working on a dam that spans a river between Oregon and another state. **Note:** See the "Income" section in Publication OR-17 for more details regarding waterway, air carrier, and dam workers' compensation.
- Military pay of a nonresident.
- Winnings of a nonresident from tribal gaming centers in Oregon.

Residency

Am I a resident, nonresident, or part-year resident?

- You're a full-year Oregon resident, even if you live outside Oregon, if all of the following are true:
 - You think of Oregon as your permanent home; and
 - Oregon is the center of your financial, social, and family life; and
 - Oregon is the place you intend to come back to when you're away.

You're still a full-year resident if:

- You temporarily moved out of Oregon; or
- You moved back to Oregon after a temporary absence.

You may also be considered a full-year resident if you spent more than 200 days in Oregon during 2017 or you're a nonresident alien as defined by federal law.

- You're a nonresident if your permanent home was outside Oregon all year.

- You're a part-year resident if you moved into or out of Oregon during 2017. You're not considered a part-year resident if:
 - You temporarily moved out of Oregon; or
 - You moved back to Oregon after a temporary absence.

Special-case Oregon residents. If you're an Oregon resident and you meet all the following conditions, you're considered a nonresident for tax purposes:

- You maintained a permanent home outside Oregon the entire year; and
- You didn't keep a home in Oregon during any part of 2017; and
- You spent less than 31 days in Oregon during 2017.

Important. A recreational vehicle (RV) isn't considered a permanent home outside of Oregon.

Oregon residents living abroad. Usually, you're considered a nonresident if you qualify for the federal earned income exclusion or housing exclusion for United States residents living abroad.

What form do I use?

Use Form OR-40-N if any ONE of the following is true:

- You're a nonresident; or
- You're a special case Oregon resident (see "Residency" section); or
- You and your spouse are filing jointly and one (or both) of you is a nonresident; or
- You meet the military personnel nonresident requirements explained below; or
- You qualified as an Oregon resident living abroad for the entire year.

Use Form OR-40-P if any ONE of the following is true:

- You're a part-year resident; or
- You're filing jointly and one of you is a part-year resident and the other is a full-year resident; or
- You're filing jointly and both of you are part-year Oregon residents; or
- You qualified as an Oregon resident living abroad for part of the year.

Use Form OR-40 if any ONE of the following is true:

- You're a full-year resident; or
- You and your spouse are both full-year residents filing jointly.

Form OR-40 is included in Publication OR-40-FY. Go to our website, www.oregon.gov/dor, or contact us to order it.

Military personnel

Nonresidents stationed in Oregon. Oregon does not tax your military pay while you're stationed in Oregon. File Form OR-40-N if you had other income from Oregon sources, or to claim a refund of Oregon tax withheld from your military pay.

Nonresident military spouses. Federal law does not allow Oregon to tax your wages if you're in Oregon only to be with your spouse because your spouse is stationed in Oregon. File Form OR-40-N if you had other income from Oregon sources or are claiming a refund of Oregon tax withheld.

Residents (or Oregon-domiciled service members) stationed outside of Oregon. If you meet the requirements for special-case Oregon residents or Oregon residents living abroad, file Form OR-40-N. File Form OR-40 if you don't meet the listed requirements.

Residents (or Oregon-domiciled service members) stationed in Oregon. Your pay is subject to tax, although the pay could qualify for certain subtractions. For more information on subtractions available to military personnel see below, visit our website, refer to Publication OR-17, or contact us.

Military personnel performing active service within Oregon are treated as nonresidents for tax purposes, if their address in the payroll records of the Defense Finance and Accounting System (DFAS) is outside Oregon, regardless of where they are domiciled (ORS 316.027).

If you performed active service in Oregon after 2013, but had an address outside of Oregon in the DFAS payroll records during that time, file an amended return to claim a refund of the tax paid on your military pay and income from non-Oregon sources, along with a refund of any penalties and interest you paid on that tax. File an amended return using that year's nonresident form, and follow the instructions to claim the refund.

Filing for a deceased person

You must file a final personal income tax return for a person who died during the calendar year if the person would have been required to file. See "Should I file an Oregon return?" on page 5. If a return is filed, check the "deceased" box next to that individual's name on the return. If you've been appointed personal representative or you filed a small estate affidavit, sign the return as "personal representative." Also have the spouse sign if it is a joint return. If there is no personal representative for a joint return, only the surviving spouse needs to sign.

Note: Oregon has an estate transfer tax on estates valued at \$1 million or more. The tax is paid by the estate, not by the individuals receiving the inheritance. For more information, check our website or contact us.

When should I file my return?

The filing deadline for calendar year 2017 is **April 17, 2018**. If you can't pay all or a portion of your tax by the due date, it's important to file your return anyway to avoid a late-filing penalty.

Returns for fiscal filers are due by the 15th day of the fourth month after the close of your tax year.

What if I need more time to file?

If you received a federal extension to file, Oregon will allow the same extension. Be sure to check the "Extension filed" box on your Oregon return. **Don't** include a copy of your federal extension with your Oregon return. Keep it with your records.

An extension does not mean more time to pay.

You must pay all of the tax you expect to owe by April 17, 2018. If you don't pay all the tax due, you'll owe interest on any unpaid tax after April 17, 2018, until the date of your payment. The 2018 interest rate is 5 percent per year. If the tax isn't paid within 60 days of the date of our billing notice, the interest rate increases to 9 percent per year. You may also owe a late-payment penalty. If you can't pay all of the tax you expect to owe, pay what you can.

If you have a federal extension, or if you need an extension for Oregon only, send your payment by April 17, 2018, using Form OR-40-V. Mark the "Extension payment" box on the voucher if you're mailing your payment or paying in person. Select the "Estimated Payment" option if making your payment online. Also mark the "Extension filed" box **in the upper left corner of your return** (see page 10).

Penalties

You will owe a 5 percent late-payment penalty on any 2017 tax not paid by April 17, 2018, even if you receive an extension. See page 26.

Oregon doesn't allow an extension of time to pay even if the IRS is allowing an extension.

If you file your return more than three months after the due date (including extensions), a 20 percent late-filing penalty will be added, so you will owe a total penalty of 25 percent of any unpaid tax. A 100 percent penalty is charged if you don't file a return for **three**

consecutive years by the due date of the third year, including extensions.

2018 estimated tax

Estimated tax is the amount of tax you expect to owe (after credits and Oregon tax withheld) when you file your 2018 Oregon individual income tax return.

Oregon estimated tax laws are not the same as federal estimated tax laws. For more information on how to figure your estimated payments for Oregon and how to obtain payment vouchers, refer to Publication OR-ESTIMATE.

Who must make estimated tax payments?

In most cases, people who **expect to owe \$1,000 or more** on their 2018 Oregon income tax return after credits and withholding must make estimated payments. You may need to make estimated payments if:

- You're self-employed and don't have Oregon tax withheld from your income.
- You received Oregon Lottery single ticket winnings of less than \$5,000. (**Note:** As of January 1, 2018, single ticket winnings of \$1,500 or more are subject to Oregon withholding. Prior to this date, single ticket winnings of \$5,000 or more were subject to Oregon withholding.)
- You receive income such as pensions, interest, or dividends; Oregon tax isn't withheld; and you expect to owe tax of \$1,000 or more.
- You're a wage earner and expect to owe tax of \$1,000 or more on your 2018 return.

When do I pay?

Estimated tax due dates for 2018 taxes are April 16, 2018*; June 15, 2018; September 17, 2018; and January 15, 2019.

If paying with a check or money order, send your payment with Form OR-40-V and **check the "Estimated payment" box**. Download the form from our website or contact us to order it. If making an electronic payment from your checking or savings account or paying by credit or debit card, see page 27.

* *Send your 2018 estimated tax payment and Oregon Form OR-40-V in a separate envelope from your 2017 Oregon income tax return. This will help us credit your payment more efficiently.*

Interest on underpayment of estimated tax

You may owe interest on underpayment of estimated tax if:

- You owe \$1,000 or more on your return after credits and withholding, or
- You paid less than 90 percent of the tax due on each estimated tax payment due date.

For Form OR-40-N, line 68; or Form OR-40-P, line 67 instructions, see page 26.

What if I'm self-employed?

If you're self-employed and do business in **Multnomah, Clackamas, or Washington counties**, you may need to file Form OR-TM. If you're self-employed and do business in **Lane County**, you may need to file Form OR-LTD. Go to our website to download the forms, or contact us to order either form. You have the option to file either form electronically on our website; go to www.oregon.gov/dor and click on Revenue Online.

What if I need to change my Oregon return after filing?

File an amended return. Use the appropriate form to change (amend) your return. Check the "Amended return" box on page 1 of the form. Complete the "Amended statement" on page 5 of the return, including the return line numbers and reason for each change. If your filing status has changed (for example, from single to head of household), explain why.

Be sure to include a copy of your federal or other state's original return **and** corrected return or audit report. If you're amending your Oregon return only, attach a federal original return without attaching a federal amended return.

Use the worksheet below to calculate your amended tax due or refund.

If you are objecting to adjustments that we made to your return, don't respond by filing an amended return. You must follow the appeal process explained in the notice you received. File an amended return only if the changes you're making are unrelated to the adjustments in our notice.

If you're amending because of a net operating loss (NOL), write the tax year the NOL was generated in the "Tax year the NOL was generated" box on page 1 of the return. Include an explanation and code cite on the "Amended statement" if the NOL carry back is greater than two years (see Publication OR-17 for further instructions).

If you are amending one tax year for NOLs that occurred over two or more years, file a separate amended return for each NOL year so that the correct NOL year is listed in the "tax year the NOL was generated" box. If you are

amending for an NOL and another issue not related to the NOL, file a separate amended return for the NOL.

If you're filing a protective claim, refer to Form OR-PCR.

To amend a prior year, visit our website or contact us for a prior year tax booklet.

For information about refunds from amended returns, please see page 27.

How long will it take to process my amended return?

Processing time for amended returns varies. It may take six months or longer to process your amended return.

Amended worksheet

Use the following worksheet to determine your additional refund or tax to pay on your amended Form OR-40-N or Form OR-40-P. Use this worksheet even if you originally filed using a different residency status. Keep this worksheet with your records.

If any of the numbers on your original return were adjusted, use the adjusted amounts.

If you donated your kicker to the State School Fund, and you received a notice stating some or all of your donated amount has changed, this worksheet might not work for you. Contact us for more information.

General instructions for Forms OR-40-N & OR-40-P

Step 1: Fill out your federal form

Your Oregon tax is determined using the ratio of your Oregon source income to your entire federal income. **Complete your federal return first. Do this even if you aren't required to file a federal form.** You must use the information from your federal return to complete your Oregon return. You must include a copy (front and back) of your federal Form 1040, 1040A, 1040EZ, 1040NR, or 1040NR-EZ with your Oregon return. If you are amending your Oregon return and also amended for federal purposes, include a copy of Form 1040X with your amended Oregon return.

If you don't provide a copy of your federal return, your Oregon subtractions, deductions, modifications, and credits may be adjusted or denied. **Don't** include any federal schedules. We may ask for copies of schedules or additional information later.

Oregon same-sex registered domestic partners (RDPs):

To correctly figure your Oregon tax liability, you must complete a federal income tax return "as if" you were filing as married filing jointly or married filing separately. Check the "Calculated using 'as if' federal return" box on the form.

For more information on how to file as an RDP, visit www.oregon.gov/dor.

Step 2: Select the appropriate Oregon form

To decide whether to use Form OR-40-N or OR-40-P, see page 6.

Step 3: Fill out the Oregon form

Use blue or black ink only for easier reading and faster processing. Equipment used to scan documents and checks can't read gel ink or certain colors, and using them will delay the processing of your return.

Fiscal year filers

Write the end date of your fiscal year in the "Fiscal year ending" box in the upper left corner of the return.

Oregon resident

For part-year Oregon residents, enter the dates you were an Oregon resident during 2017. For example, "from 01/01/2017 to 04/15/2017," or "from 03/01/2017

to 12/31/2017." Leave blank if you were not an Oregon resident at any time during the year.

Check the boxes

Amended return

If you're amending your 2017 return, check the "Amended return" box on the return. See page 8 for further instructions.

Calculated using "as if" federal return

Check the box on the return if:

- You're filing as an Oregon RDP; or
- You're filing as "married filing separately for Oregon only" with a different residency status than your spouse; or
- You did not file a federal return.

Short year tax election

If you're filing a short year return due to a **bankruptcy**, fill in the "Fiscal year ending" box and check the "Short year tax election" box on the return.

Extension filed

If you received a federal extension to file, or are filing an extension for Oregon only, check the box on the return. See page 7 for more information.

Form OR-24—Like-kind property exchange or conversions

Check the "Form OR-24" box on the return if you're electing to defer gain on like-kind property that is exchanged or converted. You will report the gain to Oregon when it's reported on your federal return (federal Form 8824). You must include Form OR-24 with your Oregon return or provide it electronically through our website, www.oregon.gov/dor; click the link for Revenue Online.

Military

Check the "Military" box on the return if you're a non-resident with military pay. See page 7.

Employment exception

Check the "Employment exception" box on the return if you're considered an Amtrak, waterway, air carrier,

or hydroelectric dam worker. See "What income isn't included in Oregon sources" on page 6.

Name and address

Type or clearly print your and your spouse's names, SSNs, and dates of birth. **Enter your spouse's information even if you're married filing separately.** Enter your **most current mailing address**. This is where we'll send your refund (if applicable) or correspondence. Enter your current daytime phone number. If the taxpayer died in 2017 or 2018, check the "deceased" box next to their name.

SSN. The request for your SSN is authorized by Section 405, Title 42, of the United States Code. You **must** provide this information. It will be used to establish your identity for tax purposes only.

If you've previously filed an Oregon return using a different tax identification number, and this is your first time using this SSN, check the "first time using this SSN" check box and write your former identification number in the "Amended" section on page 5 of the return. For example, follow these instructions if you have filed previous tax returns using an ITIN and this is your first year filing using your new SSN.

Individual taxpayer identification number (ITIN). If the IRS issued you an ITIN because you don't qualify for an SSN, enter your ITIN wherever your SSN is requested.

If you don't have an ITIN, you need to request one from the IRS. If you applied for an ITIN, check the "Applied for ITIN" box and file your return by April 17, 2018. **Don't include your ITIN application (federal Form W-7)** with your Oregon return. Keep it with your records. For Form W-7, go to the IRS website, www.irs.gov, or call the IRS toll-free at 1 (800) 829-1040. When the IRS issues you an ITIN, send a copy of your ITIN letter to us. **Refunds will not be issued without a valid SSN or ITIN.**

Date of birth. Enter the month, day, and year you and your spouse were born. For example, "09/01/1987."

Filing status

1 – 5 Check the box next to your filing status. Generally, you must use the same filing status for your Oregon and federal returns. Choose only **one** filing status.

Exception for Oregon RDPS. As an Oregon RDP, you're not eligible to use the single filing status on your Oregon return. For Oregon, you're generally **required** to use married filing jointly or married filing separately. For more information, go to our website or contact us.

Exceptions for married persons when each person has a different residency status:

- **Full-year resident and part-year resident.** You may file separate Oregon returns. If you file separate returns for Oregon, you **must** use the married filing separately status. The full-year resident will file Form OR-40, and the part-year resident will file Form OR-40-P. If you choose to file a joint return for Oregon, use Form OR-40-P.
- **Full-year resident and nonresident.** You may file separate Oregon returns. If you file separate returns for Oregon, you **must** use the married filing separately status. The full-year resident will file Form OR-40, and the nonresident will file Form OR-40-N. If you choose to file a joint return for Oregon, use Form OR-40-N.
- **Part-year resident and nonresident.** You may file separate Oregon returns. If you file separate returns for Oregon, you **must** use the married filing separately status. The part-year resident will file Form OR-40-P, and the nonresident will file Form OR-40-N. If you choose to file a joint return for Oregon, use Form OR-40-N.

For more information, go to our website or contact us.

How to file separate returns for Oregon

If you're filing as "married filing separately for Oregon only," fill in your spouse's name, SSN, and date of birth. Report your own share of federal adjusted gross income (AGI) and deductions. Also, report your share of any Oregon additions or subtractions using this formula to determine your percentage:

$$\frac{\text{Your share of federal AGI}}{\text{Joint federal AGI}} = \frac{\text{Your percentage}}{\text{(not to exceed 100%)}}$$

Check the "Calculated using 'as if' federal return" box on your return. You must include the following with both Oregon returns:

- A federal Form 1040, 1040A, 1040EZ, 1040X, 1040NR, or 1040NR-EZ prepared "as if" you had filed married filing separately, and
- A copy of the joint Form 1040, 1040A, 1040EZ, 1040X, 1040NR, or 1040NR-EZ you actually filed with the IRS.

If possible, mail both spouses' Oregon returns in the **same** envelope. **Don't** staple the returns together.

For more information, go to our website and click on the link for "Individuals."

Exemptions

- 6a & 6b Yourself and spouse.** Check the "Regular" exemption box for yourself. If

you're filing as married filing jointly, check the "Regular" exemption box on line 6b for your spouse. **If someone else is able to claim you or your spouse as a dependent, don't check the "Regular" exemption box;** instead, check the corresponding box entitled, "Check box if someone else can claim you as a dependent," for yourself or your spouse. Mark this box even if the other person does not actually claim you as a dependent.

Severely disabled. Did you or your spouse have a severe disability at the end of 2017? If so, you may claim an additional exemption. This is different from the disabled child exemption. You may qualify for and claim the severely disabled exemption even if someone else can claim you as a dependent. You're considered to have a severe disability if **any** of the following apply:

- You permanently lost the use of one or both feet; or
- You permanently lost the use of both hands; or
- You're permanently blind; or
- You have a permanent condition that, without special equipment or outside help, limits your ability to earn a living, maintain a household, or transport yourself; or
- You're unable to earn a living due to a permanent condition or an impairment of indefinite duration.

If you have a severe disability, your physician must write a letter describing it. Keep the letter with your permanent records in case we request a copy.

If you qualify, check the "Severely disabled" exemption box on line 6a. If your spouse qualifies, check the "Severely disabled" exemption box on line 6b.

Total exemptions for you and spouse. You will receive one exemption if you marked the "Regular" exemption box and no one else is able to claim you. If someone else may claim you, you aren't entitled to receive the "Regular" exemption.

You may also receive one exemption if you have a qualifying severe disability and marked the "Severely disabled" exemption box. You may receive this exemption for being severely disabled even if someone else can claim you.

Enter the total number of exemptions claimed for yourself on line 6a and for your spouse on line 6b.

6c All dependents. In the chart, enter your dependents' information in order from youngest to oldest. For each dependent, list the first name, last name, relationship code (using the table below), SSN, and date of birth. In most cases, you will list the same dependents you claimed on your federal return. Total the number of dependents claimed on line 6c.

If you have more than four dependents, mark the box and fill out Schedule OR-ADD-DEP with your

remaining dependents. Don't list the same dependents on your return and Schedule OR-ADD-DEP. Add Schedule OR-ADD-DEP, line 1 to the total on line 6c of Form OR-40-N or Form OR-40-P. Include Schedule OR-ADD-DEP with your return.

6d Children with a disability

Children with a disability. You may be entitled to an additional personal exemption for your dependent child who has a qualifying disability. To qualify, all of the following must be true:

- Your child (age 21 or younger) qualified as your dependent for 2017; **and**
- Your child was eligible for "early intervention services" or received special education as defined by the State Board of Education of the state where the child attends school; **and**
- Your child has a disability as of December 31, 2017 under the federal Individuals with Disabilities Education Act. Eligible disabilities include:
 - Intellectual disability.
 - Hearing impairment.
 - Visual impairment.
 - Deafblindness.
 - Communication disorder.
 - Emotional disturbance.
 - Orthopedic impairment.
 - Traumatic brain injury.
 - Autism spectrum disorder.
 - Specific learning disorder.

Each year, you must get a statement of eligibility that confirms one of the disabilities listed above and a cover sheet from **one** of the following:

- The child's Individualized Education Program (IEP); or
- The child's Individualized Family Service Plan (IFSP).

Keep the statement and cover sheet with your permanent records. Mark the "Check if child with qualifying disability" box next to each child with a qualifying

disability. Total the number of dependents with a qualifying disability on line 6d.

If you have more than four dependents, add the amount listed on Schedule OR-ADD-DEP, line 2 to line 6d of your return.

6e

Total exemptions. Add lines 6a through 6d and put the total on line 6e. This is your total number of exemptions.

Forms OR-40-N and OR-40-P line instructions

Don't fill in cents. You must round off cents to the nearest whole dollar. For example, \$99.49 becomes \$99.00 and \$99.50 becomes \$100.00. If you don't round entries to the nearest dollar, there may be small variations in the totals we use.

The forms have two columns for figures. These are to compare your total federal adjusted gross income (column F) to the portion of your federal adjusted gross income (AGI) that Oregon taxes (column S).

You must include a copy (front and back) of your federal return with your Oregon return. This helps us verify your income and process your return faster. **If you don't include your federal return with your Oregon return, items claimed on your return may be adjusted or denied accordingly.**

Federal column (F) instructions, lines 7F–29F

The first column is called "Federal column (F)." For lines 7F–29F of the federal column, fill in the same amounts you reported on your federal return.

Line 29F, "Income after adjustments," must match your 2017 federal AGI from federal Form 1040, line 37; Form 1040A, line 21; Form 1040EZ, line 4; Form 1040X, line 1C; Form 1040NR, line 36; or Form 1040NR-EZ, line 10. If it does not match, check that you transferred the figures from your federal return correctly.

Oregon column (S) instructions, lines 7S–29S

The second column is called "Oregon column (S)." Use this column to list the amounts from the federal column that are taxed by Oregon.

Nonresidents. Oregon taxes only your income from **Oregon sources**. To determine your Oregon source income, see "What does income from Oregon sources include?" on page 5.

Part-year residents. Oregon taxes your income from **all sources** earned or received while you were an Oregon resident. Oregon also taxes your income from **Oregon sources** while you were a nonresident. To determine

your Oregon source income, see "What does income from Oregon sources include?" on page 5.

Full-year residents. Oregon taxes your income from **all sources**. If you're a full-year resident filing jointly on Form OR-40-N or Form OR-40-P, all of your income included in the federal column must be included in the Oregon column.

7S Wages, salaries, and other pay for work. **Part-year residents**—fill in amounts you earned while an Oregon resident and any amounts you earned working in Oregon while you were a nonresident.

Full-year residents—fill in all income included in the federal column.

Nonresidents—fill in the amount earned while working in Oregon. If that amount differs from the Oregon wages on your W-2 form, request a signed statement from your employer verifying the number of days worked in Oregon and the total number of days worked everywhere. Keep this document and a statement explaining your calculations with your records. If your Oregon wages aren't stated separately on your W-2, compute your Oregon source income using the following formula:

$$\frac{\text{Days actually worked in Oregon}}{\text{Days actually worked everywhere}} \times \frac{\text{Total wages}}{\text{(line 7F)}} = \frac{\text{Oregon wages}}{\text{(line 7S)}}$$

Don't include holidays, vacation days, and sick days as days actually worked. **However, you must** include sick pay, holiday pay, and vacation pay in total wages. See the example below. If Oregon is the only state you worked in, don't use this formula; all your earnings are taxable and should be reported in the Oregon column.

Example: Savannah lives in Idaho but works in Oregon. Of her 260 total days paid, she worked 138 days in Oregon and 92 days from her home in Idaho. She received 14 days vacation pay, eight days sick pay, and eight days holiday pay. She earned \$50,000 in wages. She figured the amount subject to Oregon tax as follows:

Total days paid	260
Less: Vacation days	(14)
Sick days	(8)
Holidays	(8)
Total days worked everywhere	<u>230</u>

Days actually worked in Oregon (138)	\$50,000	
Days actually worked everywhere (230)	× (Total wages)	= \$30,000

Savannah's compensation reported in the federal column, Form OR-40-N, line 7F is \$50,000 and in the Oregon column, Form OR-40-N, line 7S is \$30,000.

Exceptions

Mark the "Employment exception" box on page one of the return if you're a:

- Nonresident with interstate transportation wages who qualifies for special treatment under the Amtrak Act. You should exclude this income from the Oregon column.
- Nonresident who works on the Bonneville, The Dalles, John Day, or McNary dams. You should exclude this income from the Oregon column.
- Nonresident who works as a crewmember or pilot on a vessel in interstate navigable waters. You should exclude this income from the Oregon column.
- Nonresident who works as a crewmember or pilot on aircraft in Oregon and at least one other state. You may be able to exclude this income from the Oregon column.

Visit our website for details about any of these exceptions.

Mark the "Military" box on page one of the return if you're a:

- Nonresident member of the U.S. Armed Forces stationed in Oregon. Military pay of a nonresident isn't Oregon source income. Don't report your military pay in the Oregon column on line 7S.
- Nonresident military spouse. Your wages are exempt from state tax if you're only in Oregon because your spouse is stationed here. Don't report your wages in the Oregon column on line 7S. File Form OR-40-N if you had non-wage Oregon income or to claim a refund of Oregon tax withheld from wages.

If Oregon taxes were withheld from your exempt wages, you should file a new Form W-4 with your employer. Write "For Oregon only" at the top left corner of Form W-4 and write "Exempt" on line 7.

8S Taxable interest income. Determine the amount of interest income you received from an Oregon business activity while you were a nonresident. Add any interest included on your federal return that you received during the part of the year you were an Oregon resident.

9S Dividend income. Determine the amount of dividends received from an Oregon business

activity source while you were a nonresident. This includes dividends passed through to you from an S corporation or partnership doing business in Oregon. These are dividends your S corporation or partnership received on the stock of another corporation. Add any dividend income included on your federal return that you received during the part of the year you were an Oregon resident.

10S State and local income tax refunds. If you received an income tax refund from another state or local government that is included in your federal income, and you deducted those taxes on a prior year's Oregon return, include the refund in your Oregon income. This refund is not taxable to Oregon if you did not deduct the taxes on an Oregon return.

Oregon does not tax Oregon state income tax refunds you received.

11S Alimony received. Fill in alimony you received for the part of the year you were an Oregon resident.

12S Business income or loss. Determine the amount of income or loss from an Oregon business activity for the part of the year you were a nonresident. Add all business income or losses incurred during the part of the year you were a resident of Oregon.

13S Capital gain or loss. Determine the amount of gain or loss and capital gain distributions from Oregon sources for the part of the year you were a nonresident. Add the amount of your capital gains received and losses incurred during the part of the year you were an Oregon resident. Limit losses to \$3,000 (\$1,500 if married filing separately).

14S Other gains or losses. Determine the amount of gain or loss from Oregon sources for the part of the year you were a nonresident. Add the gain received or loss incurred during the part of the year you were an Oregon resident.

15S IRA distributions. Determine the amount of any taxable individual retirement arrangement (IRA) distributions you received while an Oregon resident. Include any amounts you converted from a regular IRA into a Roth IRA while you lived in Oregon. If you lived in another state when you made contributions to your IRA, you may need more information. If so, contact us.

16S Pensions and annuities. Enter the amount of taxable pensions and annuities (including federal pensions) you received while an Oregon resident. Don't include any Railroad Retirement Benefits (RRB-1099-R). If you're domiciled in Oregon, you must also include any Oregon source pensions you received. This is true even though you may qualify as a nonresident under

the tests for special case Oregon residents or Oregon residents living abroad. See page 6.

For example, if you lived in Oregon before you retired and have not changed your permanent home to another state, you must report the pension you earned while you worked in Oregon. If you get a federal pension, you may qualify for a subtraction on Schedule OR-ASC-NP, section 3. If you need help, contact us.

17S Schedule E income. Determine the income from rents, royalties, partnerships, limited liability companies, real estate investment trusts (REITs), estates, trusts, etc. from federal Schedule E that you received and losses incurred from Oregon sources during the part of the year you were a nonresident. Add the amount received or incurred during the part of the year you were an Oregon resident. Partners and S corporation shareholders may need more information. If so, contact us.

18S Farm income or loss. Determine the amount of income received or loss incurred from an Oregon farm while you were a nonresident. Add the amount of farm income received or loss incurred during the part of the year you were an Oregon resident.

19S Unemployment compensation and all other taxable income. Determine the amount of unemployment, lottery winnings, and any other taxable income from Oregon sources. Include on line 19S any severance pay received because of an Oregon job, any other taxable income you received during the part of the year you were a resident, and any other Oregon source income you received while you were a resident. Don't include Social Security, Railroad Retirement Board benefits, or Railroad Retirement Board unemployment benefits, as Oregon doesn't tax this income.

Include all payments received from the Oregon Lottery in the Oregon column. Oregon Lottery means all games offered by the Oregon State Lottery Commission and purchased in Oregon. To determine whether you can subtract some or all of this amount, see Publication OR-17.

Adjustments

21S IRA or self-employed SEP and SIMPLE contributions. Oregon follows the federal definition of earned income and compensation used to calculate your IRA and other retirement plan deductions. Determine the amount you paid during the part of the year you were an Oregon resident. Add the amount calculated for the time you were a nonresident.

- **IRA.** Use the following formula to determine your deduction for the part of the year you were a nonresident:

$$\frac{\text{Oregon earned income while a nonresident}}{\text{Total earned income while a nonresident}} \times \frac{\text{IRA contributions made while a nonresident}}{\text{Nonresident deduction}} = \text{Nonresident deduction}$$

- **Self-employed SEP, SIMPLE, and qualified plans.** Use the following formula to determine your allowable deduction for the part of the year you were a nonresident:

$$\frac{\text{Oregon compensation while a nonresident}}{\text{Total compensation while a nonresident}} \times \frac{\text{Contributions made while a nonresident}}{\text{Nonresident deduction}} = \text{Nonresident deduction}$$

This deduction can't be more than the amount of compensation included in the Oregon column.

22S Education deductions. The following instructions will help you figure the amount you can claim on your Oregon return.

- **Educator expenses deduction** from federal Form 1040, line 23; or Form 1040A, line 16. For the part of the year you were a nonresident, determine the amount of qualified educator expenses you paid while working in an Oregon elementary or secondary school. Add the qualified educator expenses you paid during the part of the year you were an Oregon resident. Enter the smaller of the result or the amount deducted on your federal return, but no more than \$250 (no more than \$500 if you are filing jointly and both of you and your spouse were eligible educators).

- **Student loan interest deduction** from federal Form 1040, line 33; or Form 1040A, line 18.

Use the following formula to calculate your deductions for the part of the year you were a nonresident:

$$\frac{\text{Oregon source income while a nonresident}}{\text{Total income from all sources while a nonresident}} \times \frac{\text{Student loan interest paid while a nonresident}}{\text{Nonresident deduction}} = \text{Nonresident deduction}$$

Add all interest paid during the part of the year you were an Oregon resident. Enter the result or the amount of federal student loan interest from your federal return, whichever is less.

- **Tuition and fees deduction** from federal Form 1040, line 34; or Form 1040A, line 19. *Note: This deduction was expired at the time this publication was printed. If Congress didn't reinstate this deduction, you aren't allowed a tuition and fees deduction for Oregon.*

Use the following formula to calculate your deduction for the part of the year you were a nonresident:

$$\frac{\text{Oregon source income while a nonresident}}{\text{Total income from all sources while a nonresident}} \times \frac{\text{Qualified tuition and fees paid while a nonresident}}{\text{ }} = \text{Nonresident deduction}$$

Add all qualified education expenses you paid during the part of the year you were an Oregon resident. Enter the result or the amount of tuition and fees deduction from your federal return, whichever is less.

Note: If you weren't allowed a federal tuition and fees deduction because you claimed the federal credit, don't claim a deduction on line 22S. You may be entitled to a subtraction (code 308). See Schedule OR-ASC-NP instructions for more information.

Add the Oregon amounts for your educator expenses deduction, student loan interest deduction, and tuition and fees deduction. Enter the total on line 22S.

23S **Moving expenses.** Fill in moving expenses **only** if:

- You qualified to take them on your federal return; **and**
- They are connected with gaining employment in Oregon; **or**
- You paid the qualified moving expenses after moving to Oregon to take a job in another state while an Oregon resident.

Example 1: Sofia moved from California to Washington to take a job in **Oregon**. She may claim her federal moving expenses in both the federal and the Oregon columns.

Example 2: David left Oregon to take a job in another state. He **can't** claim any of his moving expenses in the Oregon column. He may **only** claim them in the federal column.

Example 3: Camille moved from Michigan to Oregon in May 2017 to begin work in Washington. She paid her moving expenses in June 2017. While the expenses aren't related to Oregon employment, Camille can claim them in both columns because they were paid after she became an Oregon resident.

24S **Deductions for self-employment tax.** Use the following formula to determine the amount of your self-employment tax on earnings taxed by Oregon:

$$\frac{\text{Self-employment earnings taxed by Oregon}}{\text{Total taxable self-employment earnings}} \times \frac{\text{Federal deduction for self-employment tax}}{\text{ }} = \text{Oregon deduction}$$

The Oregon deduction can't be more than the federal deduction.

25S **Self-employed health insurance deduction.** Oregon allows a deduction of 100 percent of your health insurance premiums related to your self-employment for the part of the year you were an Oregon resident. Add the health insurance premiums paid by your Oregon business while a nonresident. Your total Oregon deduction can't be more than your federal deduction.

26S **Alimony paid.** Determine if the alimony you paid to your former spouse is deductible for federal purposes. If so, use the following formula to calculate your Oregon deduction for the part of the year you were a nonresident:

$$\frac{\text{Oregon source income while a nonresident}}{\text{Total income while a nonresident}} \times \frac{\text{Alimony paid while a nonresident}}{\text{ }} = \text{Nonresident deduction}$$

Add to that amount the alimony you paid while you were a resident.

27F/S **Total adjustments from Schedule OR-ASC-NP.** If you're reporting an adjustment, you must include **Schedule OR-ASC-NP with your return**, with the numeric code and amount of the adjustment you're reporting. Enter the total from Schedule OR-ASC-NP, section 1 on Form OR-40-N or OR-40-P, line 27.

For more information on how to claim an adjustment, refer to the instructions for Schedule OR-ASC-NP. For more information about specific adjustments, refer to Publication OR-17.

Additions

30F/S **Total additions from Schedule OR-ASC-NP.** If you're reporting an addition, you must include **Schedule OR-ASC-NP with your return**, with the numeric code and amount of the addition you're reporting. Enter the totals from Schedule OR-ASC-NP, section 2, on lines 30F and 30S of your return.

For more information on how to claim an addition, refer to the instructions for Schedule OR-ASC-NP. For more information about specific additions, refer to Publication OR-17.

Subtractions

32F **Social Security and tier 1 Railroad Retirement Board benefits.** Subtract Social Security and tier 1 Railroad Retirement Board benefits only if you

included them on line 7F or 19F. Refer to Publication OR-17 for additional information.

33F/S Total subtractions from Schedule OR-ASC-NP. Other subtractions not explained here are claimed on Schedule OR-ASC-NP. See the instructions for Schedule OR-ASC-NP or Publication OR-17 for a complete list of subtractions. **If you qualify for a subtraction claimed on Schedule OR-ASC-NP you must include the schedule with your return.** Enter the total from Schedule OR-ASC-NP, section 3, on lines 33F and 33S of your return.

For more information on how to claim a subtraction, refer to the instructions for Schedule OR-ASC-NP. For more information about specific subtractions, refer to Publication OR-17.

35 Oregon percentage. Divide the amount on line 34S by the amount on line 34F. Round the decimal to three places. Write the result as a percentage on line 35. **Don't fill in more than 100 percent or less than -0-.**

Examples

Line 34S	Line 34F	Oregon percentage Line 35
\$8,000 ÷ \$30,000 =	0.266666	Round to 0.267 (<u>2</u> <u>6</u> . <u>7</u> %)
(\$1,000) ÷ \$15,000 =	-0.066666	-0- (0%) (<u>0</u> . <u>0</u> %)
\$20,000 ÷ \$15,000 =	1.333	Limited to 1.000 (<u>1</u> <u>0</u> <u>0</u> . <u>0</u> %)

If the amount on line 34S is **greater than** the amount on line 34F, your Oregon percentage is 100 percent. This is true even when line 34F is a negative number.

Deductions and modifications

You can claim net itemized deductions or Oregon's standard deduction, whichever is larger, but not both.

- If you claim itemized deductions, fill in lines 37–39.
- If you claim the standard deduction, fill in line 40 and, if applicable, lines 40a–40d.

Note: If you're filing as married filing separately and one spouse itemizes, both spouses must use itemized deductions. If your spouse itemizes and you don't, your standard deduction is -0-.

37 Itemized deductions. You can claim your total itemized deductions after federal limitations shown on federal Schedule A, line 29. If you aren't filing Schedule A for federal or Oregon purposes, skip lines 37 through 39.

Are you filing separate returns for Oregon only? If so, determine your share of itemized deductions using the calculation listed on page 11 or you can separate each spouse's itemized deductions if you can clearly identify your own itemized deductions.

You can claim itemized deductions on your Oregon return even if you don't itemize on your federal return. **If you itemize for Oregon only,** fill out a federal Schedule A for Oregon purposes. Be sure to include your state taxes even when itemizing for Oregon only, then subtract your Oregon state income tax on line 38. Use your federal AGI to figure the Schedule A limitations. Remember to keep Schedule A with your tax records.

38 State income tax or sales tax claimed as an itemized deduction. Fill in the amount of Oregon state income tax or any state and local sales tax you claimed as an itemized deduction on federal Schedule A, line 5. Don't include local or county income tax amounts.

Are you claiming an Oregon credit for income taxes paid to another state and deducting the other state's taxes on Schedule A? If so, include the other state's 2017 net tax liability or the other state's 2017 tax claimed as an itemized deduction, whichever is less. For the credit instructions, see Publication OR-17.

Did you limit itemized deductions on your federal return because your adjusted gross income exceeded the threshold amount? If so, you may need to complete a worksheet to determine the correct amount of Oregon income tax to subtract from itemized deductions. The itemized deduction limit worksheet is available in Publication OR-17.

40 Standard deduction. Generally, your standard deduction is based on your filing status:

Single	\$2,175
Married filing jointly	\$4,350
Married filing separately	
• If spouse claims standard deduction	\$2,175
• If spouse claims itemized deductions	-0-
Head of household	\$3,500
Qualifying widow(er)	\$4,350

Standard deduction—Age 65 or older, or blind. Check the boxes on line 40 if you or your spouse were age 65 or older or were blind on December 31, 2017, as you're entitled to a larger standard deduction. If you or your spouse are permanently blind, you may also qualify for the severely disabled exemption credit; see page 12 for more information.

If you checked one or more of the boxes on line 40, multiply the number of boxes checked by:

- \$1,200 if single or head of household filing status; or
- \$1,000 for all other filers.

Add this amount to the standard deduction for your filing status from above. Fill in the total on line 40.

Example. Joni and Mike are married. Joni is age 61 and Mike is age 67. Joni files the return as the primary taxpayer. She will mark the box stating that her spouse was 65 or older and will add an additional \$1,000 to her standard deduction. She will enter \$5,350 (\$4,350 + \$1,000) on line 40.

Standard deduction—Dependents. If someone else can claim you as a dependent, your standard deduction is limited to the **larger** of:

- Your earned income plus \$350, up to the maximum allowed for your filing status (see table); or
- \$1,050.

The limit applies if you can be claimed as a dependent on another person's return even if the other person doesn't actually claim you.

If you're a dependent, use the following worksheet to figure your standard deduction, unless you're married. If you're a dependent and married, contact us.

Standard deduction worksheet for single dependents

Earned income is salaries, wages, tips, professional fees, or other amounts received as pay for work you actually performed, and any part of a scholarship or fellowship grant that you received that is included in your federal gross income.

Standard deduction—Nonresident aliens. The standard deduction for nonresident aliens (as defined by federal law) is -0-.

Standard deduction—Married filing separately. The standard deduction for married individuals filing separately is -0- if the other spouse itemizes. This applies even if your itemized deductions are less than the standard deduction amount.

42 2017 federal tax liability subtraction. Complete the following worksheet to determine your **federal tax liability** subtraction for 2017. Carefully follow the instructions. Don't confuse your **federal tax liability** on your federal return with the **federal tax withheld** on your Form(s) W-2. They aren't the same. **RDPs and those filing as "married filing separately for Oregon only,"** use amounts from your actual federal return(s), **not** your "as if" return.

Note: Calculations in addition to those listed below are required if you:

- Need to file a 2017 amended return and you either filed an amended federal return or we corrected the federal tax subtraction on your original return; or
- Filed your federal return on Form 1040NR or 1040NR-EZ; or,
- Claimed recapture taxes on your federal return; or,
- Claimed first-time homebuyer credit recapture from Form 1040, line 60b.

If any of the above apply to you, refer to the worksheet in Publication OR-17 to calculate your federal tax subtraction.

Other tax methods. If you qualify, you can compute your Oregon tax using one of the following methods:

Farm income averaging method. Did you have income from a farm? You may use the federal farm income averaging method to compute your Oregon tax even if you didn't use farm income averaging on your federal return. Only Oregon source farm income is considered elected farm income. Download Form OR-FIA-40-N or Form OR-FIA-40-P from our website or contact us to order it.

If you use Form OR-FIA-40-N to calculate your tax, enter the tax amount from Form OR-FIA-40-N, line 19, on Form OR-40-N, line 48, and check box 48a.

If you use Form OR-FIA-40-P to calculate your tax, enter the tax amount from Form OR-FIA-40-P, line 18, on Form OR-40-P line 46, and check box 46a.

Farm asset capital gain method. Did you sell or exchange capital assets primarily used in farming because you were getting out of a farming business? Or, did you sell or exchange a farming business in which you held at least a 10 percent ownership interest? If so, you may be eligible for a reduced tax rate on the net

capital gain from the proceeds. Download Worksheet OR-FCG from our website or contact us to order it.

Use Worksheet OR-FCG to calculate tax on your net farm capital gain and your other Oregon income. Don't include a copy of Worksheet OR-FCG with your return. Keep it with your records.

For the income to qualify for the reduced tax rate, it must be nonpassive income from a partnership or S corporation that employed at least one employee in Oregon for a total of at least 1,200 hours. See Schedule OR-PTE-NR or Schedule OR-PTE-PY to calculate your tax. Download the form from our website or contact us to order it.

Earned income credit. You're allowed an Oregon earned income credit **only** if you qualify for the earned income credit on your federal return. You must prorate this credit based upon your Oregon percentage from Form OR-40-N or Form OR-40-P, line 35. **Note to RDPS:** Use your "as if" federal return to see if you qualify for the Oregon credit.

If your youngest dependent is age three or older on December 31, 2017, your Oregon credit is eight percent of your federal credit multiplied by your Oregon percentage. For example, if your federal credit is \$2,500, your Oregon credit is \$200 ($\$2,500 \times 0.08$) multiplied by your Oregon percentage. If your youngest dependent is age two or younger on December 31, 2017, your Oregon credit is 11 percent of your federal credit. For example, if your federal credit is \$2,500, your Oregon credit is \$275 ($\$2,500 \times 0.11$) multiplied by your Oregon percentage.

Use the following formula to compute your credit:

1. Enter your federal earned income credit from Form 1040, line 66a; Form 1040A, line 42a; or Form 1040EZ, line 8a.
2. If you have a child age two or younger as of December 31, 2017, multiply the amount on line 1 by 11 percent (0.11). Otherwise, multiply the amount on line 1 by eight percent (0.08). Enter the result here.
3. Multiply line 2 by your Oregon percentage (Form OR-40-N or Form OR-40-P, line 35). Enter the result here and on Form OR-40-N, line 61; or Form OR-40-P, line 60.

Oregon surplus credit (kicker). The Oregon surplus credit is a refundable credit claimed on your 2017

Oregon tax return. The credit is 5.6 percent of your 2016 Oregon tax liability (2016 Form OR-40-N, line 50 or Form OR-40-P, line 49) as adjusted or amended, reduced by any credit claimed for income taxes paid to another state (2016 Schedule OR-ASC-NP, Section 5, Code 802 and 815). The surplus credit percentage has been determined by the Oregon Department of Administrative Services in accordance with Oregon Revised Statute 291.349. In order to claim the Oregon surplus credit, you must file a 2017 return, even if you're not otherwise required to do so. You must have filed your 2016 Oregon return before you can claim a surplus credit on your 2017 Oregon return.

Amended returns. If your 2016 return is amended or adjusted after you claim your 2017 surplus credit, we will automatically adjust your 2017 surplus credit amount. You won't need to amend your 2017 return for this reason only. If your amended return reduces your 2016 tax liability, you may owe additional tax on your 2017 return if your kicker is reduced. This may cause additional interest or penalties to be charged on your 2017 return. You may review your account balance at www.oregon.gov/dor; click the link for Revenue Online.

Do you need help calculating your surplus credit? If you're filing your 2017 return using a similar filing status as your 2016 return (joint or non-joint), you may be able to determine your credit amount by visiting our website, www.oregon.gov/dor, and clicking on Revenue Online.

Special circumstances. If your marital filing status or spouse changed in 2017, you must complete the surplus credit worksheet using the following special instructions.

- **If your filing status changed from single, head of household, qualifying widow(er), or married/RDP filing separately in 2016 to married filing jointly in 2017,** the surplus credit allowed on the joint return is the combination of each individual's surplus credits as calculated based on the separate 2016 returns.

Special instructions: Calculate each individual's surplus credit separately using the worksheet. Add the credit amounts together for the total surplus credit.

Example: Hudson and Olivia each filed their 2016 Oregon personal income tax returns using the single filing status. Hudson had a total personal income tax liability of \$8,000 (2016 Form OR-40-N, line 50 or Form OR-40-P, line 49) and a credit for income taxes paid to another state of \$500 (2016 Schedule OR-ASC-NP, Section 5, Code 802 and 815). Olivia had a total personal income tax liability of \$3,000 (2016 Form OR-40-N, line 50 or Form OR-40-P, line 49) and no credit for income taxes paid to another state. In 2017, Hudson and Olivia

marry. Hudson and Olivia file their 2017 Oregon personal income tax return jointly. They must calculate their surplus credits separately and report the sum on their return. The surplus credit is determined with a percentage of 5.6 percent. Hudson's surplus credits is \$420 $[($8,000 - \$500) \times 0.056]$ and Olivia's surplus credit is \$168 $(\$3,000 \times 0.056)$. The surplus credit for their 2017 joint Oregon personal income tax return is \$588.

- **If your filing status changed from married filing jointly in 2016 to single, head of household, or married filing separately in 2017,** the surplus credits claimed by each taxpayer on their 2017 separate returns are prorated based on each individual's percentage of the 2016 federal adjusted gross income (AGI).

Special instructions: Determine your percentage of the 2016 AGI (Form OR-40-N and Form OR-40-P, line 29F) by taking your income included in the AGI and dividing it by the total AGI. Enter this percentage as a decimal (for example, 50 percent is 0.5) on line 4 of the worksheet.

Example: Ella and Emerson are married and filed their 2016 Oregon personal income tax return using the married filing jointly filing status. Their total AGI is \$90,000 (2016 Form OR-40-N and Form OR-40-P, line 29F). Their total personal income tax liability is \$6,500 (2016 Form OR-40-N, line 50 or Form OR-40-P, line 49) and their credit for income taxes paid to another state is \$300 (2016 Schedule OR-ASC-NP, Section 5, Code 802 and 815). Ella's portion of the total AGI is \$40,000, or 44 percent $(\$40,000 \div \$90,000)$. Emerson's portion of the total AGI is \$50,000, or 56 percent $(\$50,000 \div \$90,000)$. In 2017, Ella and Emerson divorced and neither remarried during the year. The surplus credit is determined with a percentage of 5.6 percent. When Ella and Emerson file their separate 2017 Oregon personal income tax returns, they will calculate separate surplus credits based on their 2016 AGI percentages. Ella's surplus credit is \$153 $[(\$6,500 - \$300) \times 0.44 \times 0.056]$. Emerson's surplus credit is \$194 $[(\$6,500 - \$300) \times 0.56 \times 0.056]$.

- **If you filed married filing jointly in 2016 and filed married filing jointly in 2017, but with a different spouse,** the surplus credit allowed on the joint return with a new spouse is the combination of each individual's surplus credit prorated based on each taxpayer's portion of the 2016 AGI amounts.

Special instructions: To determine the correct surplus credit amount for the 2017 joint Oregon return, calculate each individual's surplus credit separately. Determine your percentage of the 2016 AGI (2016 Form OR-40-N and Form OR-40-P, line 29F) by following the instructions in the example above. Enter your AGI percentage as a decimal on line 4 of the worksheet. Once

the credits for both taxpayers have been calculated, add the amounts together.

Example: Cortney and Orlando were married in 2016 and filed their Oregon personal income tax return using the married filing jointly filing status. Their total AGI is \$80,000 (2016 Form OR-40-N and Form OR-40-P, line 29F). Their total personal income tax liability is \$7,500 (2016 Form OR-40-N, line 50 or Form OR-40-P, line 49). They don't have a credit for taxes paid to another state. Cortney's portion of the total AGI is \$48,000, or 60 percent ($\$48,000 \div \$80,000$). Orlando's portion of the total AGI is \$32,000, or 40 percent ($\$32,000 \div \$80,000$). In February of 2017, Cortney and Orlando finalized their divorce. Cortney married Justin in December of 2017. Justin filed his 2016 Oregon personal income tax return using the single filing status. His total personal income tax liability was \$2,000 (2016 Form OR-40-N, line 50 or Form OR-40-P, line 49) and his credit for taxes paid to another state is \$200. The surplus credit is determined with a percentage of 5.6 percent. When Cortney and Justin file their joint 2017 Oregon personal income tax return, they must each calculate their surplus credits separately and report the sum on their joint return. Cortney's surplus credit is \$252 ($\$7,500 \times 0.60 \times 0.056$). Justin's surplus credit is \$101 [$(\$2,000 - \$200) \times 0.056$]. They will then add their separate credits together for a total joint 2017 surplus credit of \$353. Orlando's surplus credit is \$168 ($\$7,500 \times 0.40 \times 0.056$).

- **Death of individual or spouse.** If an individual died during 2016 or 2017, the taxpayer's representative may file a return on his or her behalf to claim the surplus credit. If one of the two taxpayers on the 2016 jointly filed Oregon return dies, the surviving taxpayer may claim the full amount of the surplus credit.

Total refundable credits from Schedule OR-ASC-NP. Refundable credits are credits that are refunded if you don't have tax owing. The credits are claimed on Schedule OR-ASC-NP. See the instructions for Schedule OR-ASC-NP or Publication OR-17 for a complete list of credits. **If you qualify for a refundable credit, you must include Schedule OR-ASC-NP with your return.** Enter your total refundable credits from Schedule OR-ASC-NP, section 7, on Form OR-40-N, line 63; or Form OR-40-P, line 62.

For more information on how to claim a refundable credit, refer to the instructions for Schedule OR-ASC-NP. For more information about specific refundable credits, refer to Publication OR-17.

Penalties and interest

Penalty and interest for filing or paying late. Your tax is due April 17, 2018. Your return is also due April 17, 2018, unless you received an extension.

Penalty. Include a penalty payment if you:

- Mail your payment after April 17 (even if you have an extension to file); or
- File your return showing tax to pay after the due date or extension due date.

The late-payment penalty is 5 percent of the tax reported on Form OR-40-N, line 56 or Form OR-40-P, line 55 not paid by the original due date of the return.

If you file more than three months after the due date or after the extension due date, a 20 percent late-filing penalty will be added; that is, you will owe a total penalty of 25 percent of any unpaid tax.

Interest. If you're paying your tax after April 17, 2018, include interest on any unpaid tax. Interest owed on income tax starts the day after the original return's due date and accrues until the date of your payment.

The annual interest rate is 5 percent. Interest is charged daily starting the day after the due date. The daily rate is determined by dividing the annual rate by 365 days (0.0137).

Here's how to figure interest:

Tax \times 0.000137 \times number of days

If the tax isn't paid within 30 days from the date of our billing notice, the interest rate increases to 9 percent per year.

If you are amending your return, calculate the interest based on the additional amount of tax you must pay (line 9 of the amended worksheet on page 9).

Note: Don't calculate interest if you file late and expect a refund.

Interest on underpayment of estimated tax. For 2017, you'll have an underpayment if you paid less than 90 percent of the tax due on **each** estimated tax payment due date or if your tax owed is more than \$1,000. **Note:** You may be charged interest on underpayment of estimated tax even if you receive a refund on your return.

Use Form OR-10 to determine if you have an underpayment. Download the form from our website or contact us to order it.

If you have an underpayment, fill in the amount of interest due from Form OR-10, line 34 on Form OR-40-N, line 68; or Form OR-40-P, line 67. You must include Form OR-10 with your Oregon return.

If you meet an exception described on Form OR-10, enter the exception number on Form OR-40-N, box 68a; or Form OR-40-P, box 67a, and don't include Form OR-10. If you used Worksheet OR-10-AI, check Form OR-40-N, box 68b; or Form OR-40-P, box 67b and keep the worksheet with your records.

Amount due

Amount you owe. You may pay with a check, money order, electronic payment, or credit card. If you file electronically, you may be able to pay electronically at

the time of filing. If the amount due is less than \$2, no payment is required.

Special instructions. Do you owe interest on Form OR-40-N, line 69; or Form OR-40-P, line 68 and have an overpayment on Form OR-40-N, line 65; or Form OR-40-P, line 64? If the interest you owe is more than your overpayment, you have an amount due. Subtract Form OR-40-N, line 65; or Form OR-40-P, line 64 from Form OR-40-N, line 69; or Form OR-40-P, line 68 and enter the result on Form OR-40-N, line 70; or Form OR-40-P, line 69.

Payment plan. If you can’t pay in full now, pay what you can. Use the payment voucher, Form OR-40-V, on page 43. Contact us and we will work with you to set up a payment plan for the amount you don’t pay with your return.

To finish your return, go to the signature block section.

Refund

Form
OR-40-N 71

Form
OR-40-P 70

Refund. You have three years from the due date of the return to file a claim for your refund. By law, we can’t issue a refund if you file your return more than three years after the return’s due date (excluding extensions).

If you’re due interest of more than \$1 on a refund, the interest will be refunded to you.

Refund applications

If you have a refund on Form OR-40-N, line 71; or Form OR-40-P, line 70, you may apply part or all of it to an open estimated tax account, a charitable checkoff, or an Oregon 529 College Savings Plan. Doing so will reduce your net refund. The combination of these refund applications **can’t** equal more than your total refund on Form OR-40-N, line 71; or Form OR-40-P, line 70.

Your refund may be applied to outstanding debt prior to being refunded to you or being applied to the elections on Form OR-40-N, lines 72–74; or Form OR-40-P, lines 71–73.

Instructions for amended returns. Complete the amended worksheet on page 9. If line 7 results in an additional refund, you are able to apply the additional amount to an open estimated tax account. However, you **can’t** reduce the amounts from the refund from your original return that was previously applied to an open estimated tax account, a charitable checkoff, or an Oregon 529 College Savings Plan.

- If you aren’t receiving an additional refund or if you are receiving an additional refund, and you don’t want to apply the refund to an open estimated tax account, skip to Form OR-40-N, line 76; or Form OR-40-P, line 75. Enter the amount from Form OR-40-N, line 71; or Form OR-40-P, line 70 on Form OR-40-N, line 76; or Form OR-40-P, line 75.
- If you are receiving an additional refund that you want applied toward an open estimated tax account, follow the below instructions.

**Form
OR-40-N** 72**Form

Open estimated tax account. You may apply part or all of your refund to an open estimated tax account. This will become an estimated tax payment. Generally, unless you're filing a delinquent or amended return, this will apply to the 2018 tax year. For additional information about the application of a refund as an estimated tax payment when filing a delinquent or amended return, see the "Payments and refunds" section of Publication OR-17. Fill in Form OR-40-N, line 72; or Form OR-40-P, line 71 with the amount you want to apply as an estimated tax payment.

Instructions for amended returns. If you're receiving an additional refund (listed on line 5 of the amended worksheet) and you want to have all or a portion of it applied toward an open estimated tax account, enter the additional amount you want applied. Include the amount from your original return's refund that applied to an open estimated tax account, if any. For additional information, please see Publication OR-17.

If you are not receiving an additional refund or if you do not want to have your additional refund applied to an open estimated tax account, leave this line blank.

Net refund. You must reduce your refund by any amounts applied to your open estimated tax account, charitable checkoff donations, and Oregon 529 College Savings Plan deposits. Signature block

Signature(s). Be sure to sign and date your return. If you're filing a joint return, both taxpayers must sign. By signing the return, you acknowledge, under penalty of false swearing, that the information on the return is true, correct, and complete.

Minor child's return. If your child must file a tax return, you may sign the child's name as his or her legal agent. Sign the child's name, then write "By [your signature], parent (or other legal guardian) of minor child."

Preparer signature. Anyone who prepares, advises, or assists in preparing personal income tax returns in exchange for compensation of any kind **must** be licensed and must sign the return.

Signing the return doesn't grant your preparer the right to represent you or make decisions on your behalf. See the Tax Information Authorization and Power of Attorney for Representation form and instructions on our website for more information.

Contact the following agencies to check the status of your Oregon tax practitioner:

- State Board of Tax Practitioners at (503) 378-4034 (Salem) for licensed tax consultants or preparers, or go to www.oregon.gov/obtp.
- State Board of Accountancy at (503) 378-4181 (Salem) for public accountants and certified public accountants, or go to www.oregon.gov/boa.

Before you file

To speed processing, put your Oregon return together as follows (**Important! Don't attach these documents together or use staples, paperclips, or tape to assemble your return.**):

1. Start with Form OR-40-N or Form OR-40-P.
2. If applicable, place these items in the following order behind your Form OR-40-N or Form OR-40-P:
 - Form(s) W-2 and any Form(s) 1099 showing Oregon tax withheld.
 - Schedule OR-ASC-NP.
 - Schedule OR-ADD-DEP.
 - Schedule OR-DONATE.
 - Schedule OR-529.
3. Copy (front and back) of your federal Form 1040, 1040A, 1040EZ, 1040X, 1040NR, or 1040NR-EZ. If

you're filing using an "as if" federal return, include the "as-if" return. Write "as if" in blue or black ink on the top left corner of your "as if" return. Also include copies of the federal returns you and your spouse actually filed.

4. If applicable, place these items in the following order behind the federal form:
 - Schedule WFHDC-NP.
 - Oregon Form OR-10.
 - Oregon Form OR-24.
 - Your RDP's Oregon return, if you're filing separately. Don't staple the returns together.
5. If you're amending your return, include a copy of your federal or other state's original and corrected return or audit report. If you are amending your Oregon return only, attach the federal or other state's original return without attaching the federal or other state's amended return.
6. Include your check or money order and completed Form OR-40-V payment voucher (page 43). If paying by electronic payment or credit card, don't use Form OR-40-V.

Be sure all five pages of your return are from the same form. For example, if you file Form OR-40-N, be sure that "2017 Form OR-40-N" is printed at the top each page.

Don't include extension requests, or any federal schedules with your Oregon return. Keep these with your records. We receive some federal information from the IRS. We may ask you for copies of schedules or additional information later.

Avoid processing delays

Type or clearly print your name, SSN, date of birth, complete mailing address, and daytime phone number on your return.

Include all pages of your Oregon return.

Double-check your math calculations and other figures, including your SSN. The most common mistakes are math errors and the amount claimed for the federal tax liability subtraction. Double-check the tax you figured. Errors will delay processing.

If you have tax to pay, read Form OR-40-N, line 70; or Form OR-40-P, line 69 instructions on page 26.

Verify your bank account information if you're requesting direct deposit.

Sign your return (both spouses must sign a joint return).

Include readable copies of Form(s) W-2 and 1099 showing Oregon income and tax withheld with your return.

Include a copy of your federal return (front and back only) with your Oregon return. **Don't** include federal schedules.

Include Form OR-40-V, the payment voucher, with your check or money order with your return. If you're paying by credit card or electronic payment, **don't** use Form OR-40-V.

Mail your return in a stamped envelope. Use a business envelope ($4 \times 9\frac{1}{2}$ inches) or larger and use enough postage. Don't use a smaller envelope—it delays processing.

New information

Forms and schedules. We have changed many of our forms and schedules to provide a more consistent format and to include a shorthand name so they're easier to find. Please read each form and publication carefully as other items may have changed. For more information, visit us at www.oregon.gov/dor.

Additions

- **ABLE (Achieving a Better Life Experience) accounts addition requirement.** Oregon requires an addition if contributions made to an ABLE account for the benefit of a person with a disability were subtracted from taxable income in an earlier year and withdrawn in a later year for an unqualified purpose. For more information about this addition, see Publication OR-17.
- **Charitable Donation add-back.** Charitable donations to organizations that fail to spend at least 30 percent of their annual functional expenses for program services are not deductible on your Oregon return. For more information, see Publication OR-17.

Subtractions

- **Special Oregon medical subtraction.** For tax year 2017, you or your spouse must be age 64 or older on December 31, 2017 to qualify for the subtraction.

Credits

- **Working family household and dependent care credit (WFHDC).** If you qualify for the WFHDC and you paid dependent care expenses in 2017 for services performed in 2016, complete Worksheet OR-WFHDC when claiming the credit. For more information see the instructions for Schedule OR-WFHDC-NP.
- **Credit for taxes paid to another state.** If you are a resident partner or shareholder who elected to be included in a pass-through entity's nonresident composite filing with another state, refer to Publication OR-17 for claiming a credit for income taxes paid to that state on your Oregon return.

Form instructions

If you have more items than will fit on a single schedule, provide the codes and amounts on additional schedules and add the total to your tax return. Include all the schedules with your Form OR-40-N or Form OR-40-P.

If you are claiming multiple items (adjustments, additions, subtractions, modifications, or credits) with the same code,

report the items together. Enter the code only once and add the claimed amounts together.

Round all cents to the nearest dollar. For example, \$99.49 becomes \$99.00, and \$99.50 becomes \$100.00.

A list of the codes can be found at the end of these instructions on Publication OR-CODES.

Section 1: Adjustments (codes 002–006)

Adjustments claimed on your federal Form 1040 reduce your federal taxable income. See below for information regarding commonly claimed adjustments. For detailed information regarding these and other adjustments, refer to Publication OR-17 at www.oregon.gov/dor/forms.

Step 1: Complete the table in Section 1 with adjustments you claimed on the 1040 that aren't listed on Form OR-40-N or Form OR-40-P. Fill in the code and both the federal and Oregon amount reported for each adjustment. Each code should only be listed once.

The federal and Oregon amounts may be different. The Oregon column is for the time you were in Oregon or the income that is attributable to Oregon. The federal column shows the amount as if you were an Oregon resident all year.

Step 2: Fill in the total of these adjustments to federal and Oregon income. Enter these totals on Form OR-40-N or Form OR-40-P, lines 27F and 27S.

Domestic production activities deduction from Form 1040, line 35 [code 006]. If you claimed a domestic production activities deduction on your federal return, you will have an addition on your Oregon return. Oregon does not allow this deduction. See Publication OR-17 for more information.

Section 2: Additions (codes 102–164)

Additions are items the federal government doesn't tax but Oregon does. For detailed information regarding additions, refer to Publication OR-17.

Step 1: Complete the table in Section 2 with the code, the federal amount, and the Oregon amount reported for each addition. The federal and Oregon amount may be different. Each code should only be listed once.

Step 2: Fill in the total of all additions to federal and Oregon income. Enter these totals on Form OR-40-N or Form OR-40-P, lines 30F and 30S.

Achieving a Better Life Experience (ABLE) Account [code 164]. If you withdrew funds from an Oregon ABLE account for a purpose other than paying for qualified disability expenses and the funds were previously subtracted on your

Oregon return, you must report an addition. Qualified disability expenses are defined in Section 529A of the Internal Revenue Code. For more information about Oregon ABLE accounts, see Publication OR-17.

Section 3: Subtractions (codes 300–360)

Subtractions are items the federal government taxes but Oregon doesn't. See below for information regarding commonly claimed subtractions. For detailed information regarding these and other subtractions, refer to Publication OR-17.

Step 1: Complete the table in Section 3 with the code and the federal and Oregon amounts reported for each subtraction that isn't listed on the return. The federal and Oregon amount may be different. You can't subtract something in the Oregon column unless it is included in your Oregon income. Generally, the subtraction in the Oregon column will be less than or equal to the subtraction in the federal column. Each code should only be listed once.

Step 2: Fill in the total of all subtractions to federal and Oregon income. Enter these totals on Form OR-40-N or Form OR-40-P, lines 33F and 33S.

Federal pension income [code 307]. You may be able to subtract some or all of your federal pension included in 2017 federal income. This includes retirement benefits paid to the retiree or the beneficiary. It does not include disability payments if you have not reached the minimum retirement age. The subtraction amount is based on the number of months of federal service or points earned before and after October 1, 1991:

- **If all your months of federal service or points were before October 1, 1991,** subtract 100 percent of the taxable amount of federal pension income you reported on your federal return.
- **If you have no months of service or points before October 1, 1991,** you cannot subtract any federal pension.
- **If your service or points occurred both before and after October 1, 1991,** you will subtract a percentage of the taxable federal pension income you reported on your federal return. To determine your percentage, divide your months of service or points earned before October 1, 1991, by your total months of service or points earned. Round to three places (example: $0.4576 = 45.8$ percent). Once you determine the percentage, it will remain the same year to year.

For more than one pension, figure the percentage and subtraction amount separately for each pension. Add the separate amounts together to be reported on one line of Schedule OR-ASC-NP.

Use the following worksheet to determine your subtraction amount for each column:

Federal column

1. Federal pension included in federal column, Form OR-40-N or Form OR-40-P, line 16F. 1. _____
2. Divide months of service or points earned before October 1, 1991, by total months of service or points earned. Enter the percentage here. 2. _____
3. Multiply line 1 by line 2. Enter here and in the federal column of section 3, using code 307. 3. _____

Oregon column

4. Federal pension included in the Oregon column, Form OR-40-N or Form OR-40-P, line 16S. 4. _____
5. Percentage from line 2. 5. _____
6. Multiply line 4 by line 5. Enter here and in the Oregon column of section 3. 6. _____

Federal education credits (tuition and fees deduction) [code 308]. *Note: This deduction was expired at the time this publication was printed. If Congress didn't reinstate this deduction, you aren't allowed a tuition and fees deduction for Oregon.* Did you claim the American Opportunity or Lifetime Learning credit on your federal return? If so, you weren't allowed a federal tuition and fees deduction because you claimed the federal credit. Because Oregon does not have credits similar to the American Opportunity or Lifetime Learning credits, you can subtract the federal tuition and fees deduction on your Oregon return up to the amount you would have been allowed on your federal return. You can claim the lesser of the federal limit (\$4,000 or \$2,000, depending on your income) or your actual expenses. You can't claim the deduction if:

- You file married filing separately;
- You can be claimed as a dependent by another person;
- Your federal modified adjusted gross income is more than \$80,000 (\$160,000 if married filing jointly); or
- You already subtracted these expenses as a tuition and fees deduction on line 34 of your federal return.

Federal column. In section 3 of Schedule OR-ASC-NP, enter the amount of the federal tuition and fees deduction you would have claimed on your federal return if you hadn't claimed the federal credit. The maximum deduction you can claim is \$4,000 or \$2,000, depending on your income.

Oregon column. For the part of the year you were a non-resident, calculate your subtraction using the following formula:

$$\frac{\text{Oregon source income while a nonresident}}{\text{Total income while a nonresident}} \times \frac{\text{Qualified tuition and fees paid while a nonresident}}{\text{Nonresident deduction}} = \text{Nonresident deduction}$$

Add the amount of qualified education expenses you paid while an Oregon resident. Enter the smaller of the results or the amount you would have deducted on your federal return, but no more than \$4,000.

Oregon income tax refund [code 325]. This subtraction is for Oregon state income tax refunds only. Do not include other local, county, or other states' tax refunds.

Federal column. Enter your Oregon state income tax refund only if you included it on line 10F of the federal column.

Oregon column. Enter your Oregon state income tax refund only if you included it on line 10S of the Oregon column.

Special Oregon medical subtraction [code 351]. If you or your spouse were age 64 or older on December 31, 2017 and have qualifying medical and/or dental expenses, you may qualify for the special Oregon medical subtraction. See the 2017 IRS Publication 502 for types of qualifying medical and dental expenses. You cannot subtract medical and dental expenses:

- For anyone under age 64;
- For dependents, regardless of their age; or
- That have already been deducted on your return.

You may not claim a subtraction if your federal adjusted gross income exceeds \$200,000 (\$100,000 for those who file single or married filing separately). Use the worksheet on page 6 to determine the amount of your subtraction.

Shared expenses. Did you have medical expenses or dental expenses for more than one person? If so, you must determine which expenses belong to each qualifying taxpayer. Start by totaling all expenses for each qualifying taxpayer. If you have expenses that are for more than one person, such as insurance premiums, split the expense by the most reasonable method. For example, two qualifying taxpayers filing jointly who paid \$4,000 in insurance premiums during the year would split the expenses in half, or \$2,000 each. For more information and examples on how to split shared expenses, refer to Publication OR-17.

Special Oregon medical subtraction worksheet instructions

For worksheet lines 1 through 7, complete column A for yourself first and then column B for your spouse using the following instructions.

Line 1: Medical and dental expenses for each taxpayer—If you were age 64 or older on December 31, 2017, enter your total qualifying medical and dental expenses. See "Shared expenses" for information about splitting expenses, such as insurance premiums. If your medical expenses were not included in your itemized deductions (federal Schedule A, line 1) or you didn't itemize your deductions, skip lines 2–4, enter the amount from line 1 on line 5, and go to line 6. If you don't have qualifying expenses or were not age 64 or older on December 31, 2017—**stop**—you don't qualify for the subtraction. Complete column B for your spouse to see if you can still qualify for the subtraction based on their expenses.

Line 2: Total medical and dental expenses—Enter the total medical and dental expenses you claimed as an itemized deduction (Schedule A, line 1).

Line 3: Divide line 1 by line 2 and round to three decimal places. For example: 0.7308 is rounded to 0.731.

Line 4: Enter the lesser of the medical and dental expenses claimed on line 1 of your Schedule A or the amount claimed on line 3 of your Schedule A.

Line 5: Multiply line 3 and line 4 and round to whole dollars. For example: \$101.49 is rounded to \$101.

Line 6: Enter the maximum allowable medical subtraction for your filing status and federal adjusted gross income from the table on page 6. Don't enter more than \$1,800.

Line 7: Enter the lesser of line 5 or line 6.

Line 8: Add the amounts from line 7 column (A) and column (B). This is your special Oregon medical subtraction. Enter this amount in both the federal and Oregon column of Section 3.

Example 1: Jerry and Claudia were ages 65 and 64 on December 31, 2017. They are filing a joint nonresident return with a federal adjusted gross income of \$55,000 and Oregon source income of \$40,000. They are itemizing deductions for Oregon. In 2017, they paid \$5,700 in medical expenses that they claimed on Schedule A. Of that, \$3,500 was for Jerry's expenses, \$1,000 for Claudia's expenses, and \$1,200 for Claudia's mother, who they claim as a dependent. Both Jerry's and Claudia's expenses qualify for the special Oregon medical subtraction. Since Claudia's mother is a dependent, her expenses don't qualify for the subtraction. Jerry and Claudia would determine their subtraction as follows.

Special Oregon medical subtraction worksheet

	Column (A)	Column (B)
	Jerry	Claudia
1. Medical and dental expenses for each qualifying taxpayer.	1. \$3,500	1. \$1,000
2. Total medical and dental expenses (Schedule A, line 1).	2. \$5,700	2. \$5,700
3. Divide line 1 by line 2 and round to three decimal places.	3. 0.614	3. 0.175

Section 4: Modifications (codes 600–651)

Modifications are items that further adjust your Oregon taxable income. For detailed information regarding modifications, refer to Publication OR-17.

Did you itemize deductions on your federal return because your federal adjusted gross income exceeded the threshold amount? If so, you may need to complete a worksheet to determine the correct addition amount for itemized deduction add backs for Oregon credits. The itemized deduction limit worksheet is available in Publication OR-17.

Step 1: Complete the table in Section 4 with modifications you're claiming that aren't listed on the return. Fill in the code and amount claimed for each modification. Modifications that are additions to income are reported by clearly placing a minus sign in front of the amount. Each code should only be listed once.

Step 2: Fill in the total of all modifications. Enter this number on Form OR-40-N or Form OR-40-P, line 43.

Section 5: Standard credits (codes 802–815)

Standard credits are nonrefundable credits that can only be claimed on the current year's tax return. Credit amounts awarded and not used in the current tax year will be lost. If you have both standard credits and carryforward credits, standard credits are used first. For detailed information regarding standard credits, refer to Publication OR-17.

Some Oregon credits must be multiplied by your Oregon percentage. These credits are signified with a "PR" on Publication OR-CODES. This means you need to multiply

your total credit by your Oregon percentage, line 35, to figure the amount you can claim on your Oregon return.

Step 1: Complete the table in Section 5 with credits you're claiming that have a code between 802–815. Fill in the code and the amount being claimed for each credit. Each code should only be listed once (unless you are claiming code 802 or 815 for credit for taxes paid to another state, for multiple states. These can be listed on separate lines). For prorated credits, first multiply the credit amount by the Oregon percentage (Form OR-40-N or Form OR-40-P, line 35) before filling in the amount.

Step 2: If you're claiming a credit for income taxes paid to another state on income that was also taxed by Oregon, use code 802 or 815 and enter that state's abbreviation in the corresponding box. If you aren't claiming this credit, leave this box blank.

Step 3: Fill in the total of all standard credits. Enter this amount on Form OR-40-N, line 52; or Form OR-40-P, line 51.

Section 6: Carryforward credits (codes 835–868)

Carryforward credits are nonrefundable credits for which any unused portion in the current tax year may be carried forward to the following tax year. The number of years that a credit can be carried forward varies according to the carryforward rules of that credit. For detailed information regarding carryforward credits, refer to Publication OR-17.

Some Oregon credits must be multiplied by your Oregon percentage. These prorated credits are signified with a "PR" in Publication OR-CODES. This means you need to multiply your total credit amount awarded this year by your Oregon percentage, Form OR-40-N or Form OR-40-P, line 35, to figure the amount you can claim on your Oregon return.

Step 1: Complete the table in section 6 for credits you're claiming that have a code between 835–868. Fill in the carryforward codes in the order that you would like to claim the credits (usually this will be by listing the credits with earlier carryforward expirations first).

If you received the same credit in back-to-back years, or more than once in the same year, don't list the same code twice within the table. Instead, report these credits on the same line (see Example 3). Each code should only be listed once.

List credits that are available to you even if you are not able to use them this year (see Example 4).

Step 2: Fill in the total amount of the credit that could not be used in 2016 that was carried forward to the current year (2017). Enter this amount into the "Amount from prior year" column, if any (see Example 3).

Step 3: Fill in the credit amount you earned in 2017, and enter it in the "Amount awarded this year" column, if any. For prorated credits, multiply the credit amount by your Oregon percentage (Form OR-40-N or Form OR-40-P, line 35) before entering it in the "amount awarded this year" column. Enter this amount, even if this is more than the amount that can be used this year.

If the total awarded amount of your credit can be claimed in one year, list the entire amount awarded (multiplied by your Oregon percentage, if applicable) in the "Amount awarded this year" column (see Example 2).

If the total awarded amount of your credit must be claimed over multiple years, list only the portion that is allowed to be claimed in tax year 2017 (multiplied by your Oregon percentage, if applicable) (see Example 5).

Step 4: Fill in the credit amount you're using this year. The "Total used this year" box can't be more than the combined total of the "Amount from prior year" and the "Amount awarded this year" boxes. This amount also can't be more than any credit limitation for that credit. Any excess credit not used in 2017 may be carried forward to the following tax year, if it doesn't expire according to the carryforward rules of the credit (see Example 6).

Step 5: Fill in the total of all carryforward credits being used. Enter this number on Form OR-40-N, line 55; or Form OR-40-P, line 54. The total of all carryforward credits can't be more than your tax reported on Form OR-40-N, line 54; or Form OR-40-P, line 53. If your carryforward credits are more than the tax reported on Form OR-40-N, line 54; or Form OR-40-P, line 53, you must reduce how much you are using on one or more of your carryforward credits. If you have more than one carryforward credit, consider using the maximum allowed on credits with earlier expirations first (see Example 6).

Example 2. In 2017, Neil and David received a \$25,000 credit for contributing to the Child Care Fund. For 2017, their tax reported on Form OR-40-N, line 54; or Form OR-40-P, line 53 is \$16,500. Here's how they will complete the table:

Code	Amount from prior year	Amount awarded this year	Total used this year
841	\$0.00	\$25,000.00	\$16,500.00
	.00	.00	.00
	.00	.00	.00

Neil and David will carry forward \$8,500 (\$25,000–\$16,500) to tax year 2018.

Example 3. The same as example 2, except that Neil and David also contributed to the Child Care Fund in 2016. Their 2016 credit was \$10,000. They were able to use \$3,000

and carried forward \$7,000 to 2017. Here's how they will complete the table, reporting the 2016 and 2017 credits on the same line:

Code	Amount from prior year	Amount awarded this year	Total used this year
841	\$7,000.00	\$25,000.00	\$16,500.00
	.00	.00	.00
	.00	.00	.00

They will carry forward \$15,500 [(\$7,000+\$25,000)–\$16,500] to tax year 2018.

Example 4. Valerie and Tony received a \$6,000 credit for contributing to the University Venture Development Fund in 2017. Their 2017 Oregon percentage reported on Form OR-40-N or Form OR-40-P line 35 is 100 percent. Their 2017 tax reported on Form OR-40-N, line 54; or Form OR-40-P, line 53 is \$0.00. Here's how they will complete the table:

Code	Amount from prior year	Amount awarded this year	Total used this year
864	\$0.00	\$6,000.00	\$0.00
	.00	.00	.00
	.00	.00	.00

Example 5. Senait installed a solar heating system for her backyard swimming pool in 2017. She was awarded a \$6,000 residential energy tax credit. The provisions of this credit limit the amount that can be used each year to \$1,500 (along with any amount carried forward from the previous year). Senait may use \$1,500 in 2017; \$1,500 in 2018; \$1,500 in 2019; and \$1,500 in 2020, but each year's limit must be multiplied by her Oregon percentage. Her 2017 Oregon percentage reported on Form OR-40-N or Form OR-40-P, line 35 is 80 percent. Her 2017 tax reported on Form OR-40-N, line 54; or Form OR-40-P, line 53 is \$2,000. Here's how she will complete the table:

Code	Amount from prior year	Amount awarded this year	Total used this year
861	\$0.00	\$1,200.00	\$1,200.00
	.00	.00	.00
	.00	.00	.00

The \$1500 credit amount allowed for 2017 is reduced to \$1,200 after being multiplied by the Oregon percentage ($\$1,500 \times 0.80$). Senait will report \$1,200 in the "Amount awarded this year" column. Senait is able to use the entire \$1,200 and lists this amount in the "Total used this year" column. Senait is not able to carry forward the remaining \$300 (\$1,500–\$1,200) to another tax year.

Example 6: Chad and Jolene have \$3,200 of unused child and dependent care credit originally awarded in 2015 that

can be claimed in 2017. They also qualified for a 2017 residential energy credit of \$2,500, of which they may use up to \$1,500 in 2017 and \$1,000 in 2018 (multiplied by their Oregon percentage each year). Their 2017 Oregon percentage reported on Form OR-40-N or Form OR-40-P, line 35 is 100 percent. Their 2017 tax reported on Form OR-40-N, line 54; or Form OR-40-P, line 53 is \$4,500.

Both of these credits have five-year carryforward provisions. Because the child and dependent care credit carryforward expires in 2020 before the residential energy credit carryforward expires (in 2022 for the \$1,500 that can be claimed in 2017 and 2023 for the \$1,000 that can be claimed in 2018), they will use all of the \$3,200 child and dependent care credit first. Chad and Jolene will also use \$1,300 of their 2017 residential energy credit. Here's how they will complete the table:

Code	Amount from prior year	Amount awarded this year	Total used this year
840	\$3,200.00	\$0.00	\$3,200.00
861	\$0.00	\$1,500.00	\$1,300.00
	.00	.00	.00

Chad and Jolene are only able to use \$1,300 of the residential energy credit because their total amount used this year cannot equal more than their tax reported on Form OR-40-N, line 54; or Form OR-40-P, line 53 [\$4,500–(\$3,200+\$1,300)]. The remaining \$200 (\$1,500–\$1,300) of the residential energy credit that cannot be used in 2017 will be carried forward to 2018.

Section 7: Refundable credits (codes 890–895)

Refundable credits can only be claimed on the current year's tax return; however any amount that is more than your tax will be refunded to you. For detailed information regarding refundable credits, refer to Publication OR-17.

Some Oregon credits on your return must be multiplied by your Oregon percentage. These credits are signified with a "PR" in Publication OR-CODES. This means you need to multiply your total credit by your Oregon percentage, line 35, to figure the amount you can claim on your Oregon return.

Step 1: Complete the table in Section 7 with credits you're claiming that have a code between 890–895. Fill in the code and amount being claimed for each refundable credit. Each code should only be listed once. For prorated credits, first multiply the credit amount by the Oregon percentage (Form OR-40-N or Form OR-40-P, line 35).

Step 2: Fill in the total of all refundable credits. Enter this amount on Form OR-40-N, line 63; or Form OR-40-P, line 62.
