

Statewide Transit Tax

Starting July 1, 2018, you'll see a new item on your paystub for Oregon's statewide transit tax. The tax is one-tenth of one percent (.001)—or \$1 per \$1,000. Your employer will be automatically withholding the tax—just like the personal income tax—so you don't have to do or change anything. Unlike the personal income tax, there's no withholding exemption for this tax.

Revenue from the statewide transit tax will go to expanding public transportation throughout Oregon. For more information on how the tax revenues will be used, check out "HB 2017 Funding Package" under "Projects & News" on the Oregon Department of Transportation's website at www.oregon.gov/odot.

To learn more about the tax itself, visit the Department of Revenue online at www.oregon.gov/dor.
