11. Farm NLTCG (lesser of line 5 or line 10)..... 11. _____

Please mark the "FCG-20" box on the front of your return and attach the worksheet to your return

Instructions for Worksheet FCG-20

Lines 4 and 8 (Oregon Tax Computation)

Beginning January 1, 2011, corporations will compute tax using a rate of 6.6 percent for the first \$250,000 of taxable income, or fraction thereof, and a rate of 7.6 percent for any amount of taxable income in excess of \$250,000.

Use with Forms 20, 20-S, and 65 to reduce your tax on the qualified gain, complete the worksheet, check the box on the front of Form 20 or 20-S, and include with your return. You do **not** need to complete the form if your net long-term capital gain is zero or a loss, or if you do not have taxable Oregon income.

A reduced tax rate is available if you sold or exchanged capital assets used in farming. The sale or exchange must represent a substantially complete termination of your farming business or a termination of all your ownership interest in property that is used in a farming business.

You may not claim the special tax rate on a sale or exchange to a subsidiary/affiliate in the unitary group, as defined under Internal Revenue Code section 267(b). Ownership of a farm dwelling or farm homesite is not considered to be ownership of property employed in the trade or business of farming.

Farming activity does not include the growing and harvesting of marketable species of trees, other than the growing and harvesting of cultured Christmas trees or certain hardwood timber.

Partnerships or S corporations. The sale of ownership interest in a farming corporation, partnership, or other entity qualifies for the special tax rate. The taxpayer must have had at least a 10 percent ownership interest in the entity before the sale or exchange. If the income is taxed at the personal level, please use Form FCG (150-101-167) to calculate the special tax rate.

Farming activities include:

- Raising, harvesting, and selling crops.
- Feeding, breeding, managing, or selling livestock, poultry, fur-bearing animals, or honeybees, or the produce thereof.
- Dairying and selling dairy products.
- Stabling or training of horses, including providing riding lessons, training clinics, and schooling shows.
- Propagating, cultivating, maintaining, or harvesting aquatic species, birds, and other animals.
- Any other agricultural, horticultural, or animal husbandry activity.
- On-site construction and maintenance of equipment and facilities used in farming activities.
- Preparation, storage, or disposal of products or by-products raised for human or animal use on land employed in farming activities.
- Growing and harvesting cultured Christmas trees or certain hardwood timber.
